**A Knight's Own Book of Chivalry** Geoffroi de Charny 2013-03-01 On the great influence of a valiant lord: "The companions, who see that good warriors are honored by the great lords for their prowess, become more determined to attain this level of prowess." On the lady who sees her knight honored: "All of this makes the noble lady rejoice greatly within herself at the fact that she has set her mind and heart on loving and helping to make such a good knight or good man-at-arms." On the worthiest amusements: "The best pastime of all is to be often in good company, far from unworthy men and from unworthy activities from which no good can come." Enter the real world of knights and their code of ethics and behavior. Read how an aspiring knight of the fourteenth century

would conduct himself and learn what he would have needed to know when traveling, fighting, appearing in court, and engaging fellow knights. Composed at the height of the Hundred Years War by Geoffroi de Charny, one of the most respected knights of his age, *A Knight's Own Book of Chivalry* was designed as a guide for members of the Company of the Star, an order created by Jean II of France in 1352 to rival the English Order of the Garter. This is the most authentic and complete manual on the day-to-day life of the knight that has survived the centuries, and this edition contains a specially commissioned introduction from historian Richard W. Kaeuper that gives the history of both the book and its author, who, among his other achievements, was the original owner of the Shroud of Turin.

**Picatrix** 2020-04-22 A manual for constructing talismans, mixing magical compounds, summoning planetary spirits, and determining astrological conditions, *Picatrix* is a cornerstone of Western esotericism. It offers important insights not only into occult practices and beliefs but also into the transmission of magical ideas from antiquity to the present. Dan Attrell and David Porreca's English translation opens the world of this vital medieval treatise to modern-day scholars and lay readers. The original text, *Ghāyat al-Ḥakīm*, was compiled in Arabic from over two hundred sources in the latter half of the tenth century. It was translated into Castilian Spanish in the mid-thirteenth century, and shortly thereafter into Latin. Based on David Pingree's edition of the Latin text, this translation captures the spirit of *Picatrix*'s role in the European tradition. In the world of *Picatrix*, we see a seamless integration of practical magic, earnest piety, and traditional philosophy. The detailed introduction considers the text's reception through multiple iterations and includes an enlightening statistical breakdown of the rituals described in the book. Framed by extensive research on the ancient and medieval context that gave rise to the Latin version of the text, this translation of

Picatrix will be an indispensable volume for students and scholars of the history of science, magic, and religion and will fascinate anyone interested in the occult.

*The Mosaic Map of Madaba* Herbert Donner 1992 In the early 1880's dissension arose among the Muslim and Christian inhabitants of al-Karak, east of the Dead Sea. Up to that time the believers of both religions had lived peacefully together in the city. Problems arose and the Christians decided to move. They were allowed to settle at Madaba. The government gave permission to build churches, but exclusively on those spots where churches had existed in Antiquity. The immigrants removed the debris from still partially visible foundation walls of the ancient churches. During this work they discovered in 1884 a marvelous mosaic map. It had been part of the floor of a large cathedral. The surviving fragments were roughly repaired and incorporated in the floor of the new St. George's church. It took nearly a hundred years and many admirers to have the map finally restored. This book is an introductory guide and can be a help to different kinds of people, such as visitors, students, and professors teaching first level archaeology, bible, and Umwelt. Numbers on the sketch included in the guide, refer the reader to appropriate information in the booklet. A colour reproduction of the map and a black/white

sketch is included.

**The Very Rich Hours of Adrienne Monnier** Adrienne Monnier 1996-01-01 In 1920s Paris, Adrienne Monnier provided a focal point for the writers and artists drawn to the Left Bank. Her bookstore in the Rue de l'Odeon was aptly called La Maison des Amis des Livres. Monnier took a simple though sophisticated delight in language, books, art, music, nature, friendship, and food. Her 1940 journal, written as Paris fell to the Germans and originally published in 1976, is a rich tapestry of essays, reviews, and personal recollections. She goes to lunch with Colette, visits T. S. Eliot, befriends Joyce, argues with Breton, takes walks with Gide, publishes her elegant reviews, and reflects on the ballet, opera, Steinberg drawings, Marlon Brando and Alec Guinness movies, and the country of her birth.

*The Très Riches Heures Du Duc de Berry* Laurent Ferri 2018-06-22 A 15th century manuscript, composed of 206 parchment pages, the Très Riches Heures du duc de Berry is amongst the most precious documents in Chantilly's library. The

catalogue invites the reader to rediscover this masterpiece from new point of view. The manuscript is studied here as fruit of the labour of several generations of artists across the centuries. The political, social and religious context of the time is also addressed in order to better understand this unusual book. The book explores the influence the Très Riches Heures has had on the fine arts and that it continues to exert on current artistic production. The twelve months of the year, as represented in the manuscript, will form the heart of this book. To these will be added other illustrations from the various sections of the Très Riches Heures, such as the "Cycle of the Passion", the "Annunciation" or the "Zodiacal Man". Finally, several works will be compared with these illuminations in order to create a dialogue on the book's relevance, both in its time and in ours.

Très Riches Heures Lillian Schacherl 1997 The "Tres Riches Heures du Duc de Berry" is regarded as the finest 15th-century illuminated manuscript and the supreme example of painting in the International Gothic style. Tres Riches Heures: Behind the Gothic Masterpiece reproduces some of the finest miniatures and describes and discusses the images. It examines the history of the manuscript and the incredible story of the artists, the Limbourg Brothers, who first painted the intricate details of fairy-tale castles, sweeping landscapes, birds, animals, and even insects, with such accuracy. The author also places the paintings in an historical context, with the hardships of real life at the time of the Plague, providing a stark contrast to the depictions of harmony and peace.
