Developing Teacher Diversity in Early Childhood and Elementary Education

Stephen T. Schroth 2018-04-04 This book explores the effects of the REACH program (Recruiting and Enlightening through Access to and Communication with High-need schools), a seven-year initiative devised to help find, attract, and prepare diverse teacher candidates interested in working with young children. The book analyzes how the program, set at a national liberal arts college in the US, used the three R's: recruitment, retention, and recognition, to successfully draw in diverse educators for young children who then go on to become leaders and role models in their schools and communities. Chapters examine ways to provide the academic, social, and enrichment supports necessary for diverse teacher candidates and identify current teacher education practices that are effective as well as opportunities for change.

Dismembered Rhetoric Ceri Sullivan 1995 Dismembered Rhetoric describes the rhetoric of devotional publications by the Catholic secret presses between 1580 and 1603. A myth persists of a chasm between the Protestant battle cry of "Bible" and the Catholic approach to the laity through sacrament rather than word. However, Catholic authors did employ formal rhetoric to guide the devotions of the reader. Writers such as Robert Persons, William Allen, Henry Garnet, Edmund Campion, and Robert Southwell recognized that these techniques did not emasculate the chaste prose of their "shining band of martyrs." Ceri Sullivan looks at all devotional texts in English produced by Catholic and overseas presses during the intense period of government repression of "papists." While the official rhetoric denied the power and centrality of these texts, they were consumed by Catholic, church-papist, and Anglican, providing matter for later, more famous writers such as John Donne, Ben Jonson, and Henry Constable. She shows how they are unabashed in their use of formal oratory to capture the passion and will of a reader. Texts were both part of the mission

effort to reconvert Britain, and in providing matter for internal conversion, creating devotion where a dilettante taste for style had once fed.

The Oxford Dictionary of the Christian Church Frank Leslie Cross 2005 Uniquely authoritative and wide-ranging in its scope, *The Oxford Dictionary of the Christian Church* is the indispensable one-volume reference work on all aspects of the Christian Church. It contains over 6,000 cross-referenced A-Z entries, and offers unrivalled coverage of all aspects of this vast and often complex subject, including theology, churches and denominations, patristic scholarship, the bible, the church calendar and its organization, popes, archbishops, saints, and mystics. In this revision, innumerable small changes have been made to take into account shifts in scholarly opinion, recent developments, such as the Church of England's new prayer book (Common Worship), RC canonizations, ecumenical advances and mergers, and, where possible, statistics. A number of existing articles have been rewritten to reflect new evidence or understanding, for example the Holy Sepulchre entry, and there are a few new articles. Perhaps most significantly, a great number of the bibliographies have been updated. Established since its first appearance in 1957 as an essential resource for ordinands, clergy, and members of religious orders, ODC is an invaluable tool for academics, teachers, and students of church history and theology, as well as for the general reader.

Encyclopedia of Rhetoric Thomas O. Sloane 2001 Presents a comprehensive comprehensive treatment of the art of persuasion with 150 entries, written by leading scholars, who bring together expertise in classical studies, philosophy, literature, literary theory, cultural studies, speech, and communications. Combines theory, history, and practice, with a special emphasis on public speaking, performance, and communication.

The Oxford Dictionary of the Christian Church Andrew Louth 2022-02-17 Uniquely authoritative and wide-ranging in its scope, *The Oxford Dictionary of the Christian Church* is the indispensable reference work on all aspects of the Christian Church. It contains over 6,500 cross-referenced A-Z entries, and offers unrivalled coverage of all aspects of this vast and often complex subject, from theology; churches and denominations; patristic scholarship; and the bible; to the church calendar and its organization; popes; archbishops; other church leaders; saints; and mystics. In this new edition, great efforts have been made to increase and strengthen coverage of non-Anglican denominations (for example non-Western European Christianity), as well as broadening the focus on Christianity and the history of churches in areas beyond Western Europe. In particular, there have been extensive additions with regards to the Christian Church in Asia, Africa, Latin America, North America, and Australasia. Significant updates have also been included on topics such as liturgy, Canon Law, recent international developments, non-Anglican missionary activity, and the increasingly important area of moral and pastoral theology,

among many others. Since its first appearance in 1957, the ODCC has established itself as an essential resource for ordinands, clergy, and members of religious orders, and an invaluable tool for academics, teachers, and students of church history and theology, as well as for the general reader.

The Unheard Voice of Law in Bartolomé de Las Casas's Brevísima Relación de la Destrucción de las Indias David T. Orique 2021-04-13 The Unheard Voice of Law in Bartolomé de las Casas's Brevísima relación de la destrucción de las Indias reinterprets Las Casas's controversial treatise as a legal document, whose legal character is linked to civil and ecclesial genres of the Early Modern and late Renaissance juridical tradition. Bartolomé de las Casas proclaimed: "I have labored to inquire about, study, and discern the law; I have plumbed the depths and have reached the headwaters." The Unheard Voice also plumbs the depths of Las Casas's voice of law in his widely read and highly controversial Brevísima relación—a legal document published and debated since the 16th century. This original reinterpretation of his Very Brief Account uncovers the juridical approach voiced in his defense of the Indigenous peoples of the Americas. The Unheard Voice innovatively asserts that the Brevísima relación's legal character is intimately linked to civil and ecclesial genres of the late Renaissance juridical tradition. This paradigm-shifting book contextualizes the formation of Las Casas's juridical voice in canon law and theology—initially as a secular cleric, subsequently as a Dominican friar, and finally as a diocesan bishop—and demonstrates how his experienced juridical voice fought for justice in trans-Atlantic debates about Indigenous peoples' level of humanity, religious freedom, enslavement, and conquest. Reaching the headwaters of Las Casas's hitherto unheard juridical voice of law in the Brevísima relación provides readers with a previously unheard interpretation—an appealing voice for readers and students of this powerful Early Modern text that still resonates today. The Unheard Voice of Law is a valuable companion text for many in the disciplines of literature, history, theology, law, and philosophy who read Bartolomé de las Casas's Very Brief Account and study his life, labor, and legacy.

John Gower's Poetic Robert F. Yeager 1990 John Gower's Poetic is a new study of Gower's complete poetry. Considered are Vox Clamantis, Mirour de l'Omme, Traitié pour les Amantz marietz, Cinkante Balades, Confessio Amantis, and 'To King Henry IV, In Praise of Peace'. In five integrative chapters, Yeager demonstrates that Gower - far from being the lugubrious moralist and journeyman craftsman as which he is often portrayed - was in fact a writer of broad learning and ambition, whose work was consistently shaped by a poetic theory of profound originality. To demonstrate this, John Gower's Poetic re-examines Gower's work from the basic levels of orthography, grammar, vocabulary, and metrics, to his enduring macrocosmic themes; in the process, Yeager shows that Gower saw himself as an 'auctor', or 'poete', in the manner of Dante, Machaut,

Froissart, and Deschamps. The book concludes with an extensive, fresh reading of Gower's greatest poem, the *Confessio Amantis*. Professor R. F. Yeager teaches in the Department of English and Foreign Languages, University of West Florida, Pensacola.

Chaucer's Pilgrims Laura C. Lambdin 1999 Provides a detailed historical description of the occupations of each of the pilgrims in Chaucer's "Canterbury Tales," with each entry placing their vocation in historical context and discussing the daily routine of the pilgrim's occupation.

Critical Thinking Within the Library Program John Spencer 2014-10-20 While academic librarians frequently discuss critical thinking and its relationship to information literacy, the literature does not contain an abundance of sources on the topic. Therefore, this work provides a current and timely perspective on the possible roles of critical thinking within the library program. The work contains a variety of approaches likely to benefit the practicing librarian. It begins with a review of the literature, followed by theoretical approaches involving constructivism and the Socratic method. Readers will find pieces on the integration of critical thinking into the first-year experience and course-specific case studies, as well as a selection on a campus-wide critical thinking project. In each of the pieces, librarians are exploring new ways to meet their instructional goals, including the goal of teaching critical thinking skills to students across the curriculum. This book was originally published as a special issue of *College & Undergraduate Libraries*.

A history of surgery D. de Moulin 2012-12-06 Surgery as a medical discipline has from its beginnings appealed to the imagination of many. It is therefore not surprising to find that its colourful past has induced quite a few authors to take up their pens. The truth of this in the Netherlands is witnessed by a number of dissertations and monographs and especially by the numerous articles related to the history of surgery which have appeared in the medical weekly *Nederlands Tijdschrift voor Geneeskunde*, particularly during the two decades

preceding the Second World War. The memorial volume, published in 1977 by the 'Nederlandse Vereniging voor Heelkunde' (Association of Surgeons of the Netherlands) has thoroughly covered the history of Dutch surgery since the turn of the century, but a chronological survey of the earlier events which led to these modern achievements is still wanting. This book has been written with a view to meeting this need. In it, Dutch surgery has by no means been taken as an isolated phenomenon, but considered in its context with European surgery as a whole. Foreign influences on the on surgery abroad are discussed Netherlands and, conversely, Dutch influences whilst contemporary medical thinking is set against a cultural and political background. It is hoped that this approach will allow the book to exceed the narrow boundaries of 'campanilismo' and make it of interest to non-Dutch readers as well.

Cultural Translation in Early Modern Europe Peter Burke 2007-03-29 This groundbreaking 2007 volume gathers an international team of historians to present the practice of translation as part of cultural history. Although translation is central to the transmission of ideas, the history of translation has generally been neglected by historians, who have left it to specialists in literature and language. This book seeks to achieve an understanding of the contribution of translation to the spread of information in early modern Europe. It focuses on non-fiction: the translation of books on religion, history, politics and especially on science, or 'natural philosophy', as it was generally known at this time. The chapters cover a wide range of languages, including Latin, Greek, Russian, Turkish and Chinese. The book will appeal to scholars and students of the early modern and later periods, to historians of science and of religion, as well as to anyone interested in translation studies.

An Academy at the Court of the Tsars Nikolaos Chrissidis 2016-08-10 The first formally organized educational institution in Russia was established in 1685 by two Greek hieromonks, Ioannikios and Sophronios Leichoudes. Like many of their Greek contemporaries in the seventeenth century, the brothers acquired part of their schooling in colleges of post-Renaissance Italy under a precise copy of the Jesuit curriculum. When they created a school in Moscow, known as the Slavo-Greco-Latin Academy, they emulated the structural characteristics, pedagogical methods, and program of studies of Jesuit prototypes. In this original work, Nikolaos A. Chrissidis analyzes the academy's impact on Russian educational practice and situates it in the contexts of Russian-Greek cultural relations and increased contact between Russia and Western Europe in the seventeenth century. Chrissidis demonstrates that Greek academic and cultural influences on Russia in the second half of the seventeenth century were Western in character, though Orthodox in doctrinal terms. He also shows that Russian and Greek educational enterprises were part of the larger European pattern of Jesuit academic activities that impacted Roman Catholic and Eastern Orthodox educational establishments and curricular choices. *An Academy at the Court of the Tsars* is the first study of the Slavo-Greco-Latin Academy in English and the only one based on primary sources in Russian, Church Slavonic, Greek, and Latin. It will interest scholars and students of early modern Russian and Greek history, of early modern European intellectual history and the history of science, of Jesuit education, and of Eastern Orthodox history and culture.

McLuhan: A Guide for the Perplexed W. Terrence Gordon 2010-02-25 Marshall McLuhan was dubbed a media guru when he came to prominence in the 1960s. The Woodstock generation found him cool; their parents found him perplexing. By 1963, McLuhan was Director of the Centre for Culture and Technology at the University of Toronto and would be a public intellectual on the international stage for more than a decade, then linked forever to his two best known coinages: the global village and the medium is the message. Taken as a whole, McLuhan's writings reveal a profound coherence and illuminate his unifying vision for the study of language, literature, and culture, grounded in the broad understanding of any medium or technology as an extension of the human body. *McLuhan: A Guide for the Perplexed* is a close reading of all of his work with a focus on tracing the systematic development of his thought. The overriding objective is to clarify all of McLuhan's thinking, to consolidate it in a fashion which prevents misreading, and to open the way to advancing his own program: ensuring that the world does not sleepwalk into the twenty-first century with nineteenth-century perceptions.

The Global West: Connections & Identities Frank L. Positioning Daniel Defoe's Non-Fiction Aino Mäkikalli 2020-05-15 This volume analyses the form, structure and genre of a selection of non-fictional works by Daniel Defoe. Directing our scholarly gaze away from the much studied novels, the essays explore the rhetorical strategies and generic inventiveness on display in Defoe's better known non-fictional texts, such as *The Shortest Way with the Dissenters* and *A Tour through the Whole Island of Great Britain*, and some of his lesser known publications, such as his *Complete English Tradesman*

and *An Essay on the History and Reality of Apparitions*. What emerges from the collection is the picture of an author who responded to early eighteenth-century debates and events with outstanding authorial skill and energy, and to whom matters of form and style were of great importance.

The New Encyclopedia of Social Reform William Dwight Porter Bliss 1910

The Linguistics of Speech William A. Kretzschmar, Jr 2009-03-19 This insightful study proposes a unified theory of speech through which conflicting ideas about language might be understood. It is founded on a number of key points, such as the continuum of linguistic behaviour, extensive variation in language features, the importance of regional and social proximity to shared linguistic production, and differential frequency as a key factor in linguistic production both in regional and social groups and in text corpora. The study shows how this new linguistics of speech does not reject rules in favour of language use, or reject language use in favour of rules; rather, it shows how rules can come from language as people use it. Written in a clear, engaging style and containing invaluable accessible introductions to complex theoretical concepts, this work will be of great interest to students and scholars of sociolinguistics, dialectology and corpus linguistics.
