When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. The pilot sets the plane down on the lake-like surface of the upper river for a closer look at the thundering falls. Suddenly the engine quits. The only sound is a dull roar

downstream, as the Cessna drifts helplessly toward the falls . . . With the brutal subarctic winter fast approaching, Gabe and Raymond soon find themselves stranded in Deadmen Valley. Falling Upwards Richard Holmes 2013-10-29 **Kirkus Best Books of the Year (2013)** **Time Magazine 10 Top Nonfiction Books of 2013** **The New Republic Best Books of 2013** In this heart-lifting chronicle, Richard Holmes, author of the best-selling *The Age of Wonder*, follows the pioneer generation of balloon aeronauts, the daring and enigmatic men and women who risked their lives to take to the air (or fall into the sky). Why they did it, what their contemporaries thought of them, and how their flights revealed the secrets of our planet is a compelling adventure that only Holmes could tell. His accounts of the early Anglo-French balloon rivalries, the crazy firework flights of the beautiful Sophie Blanchard, the long-distance voyages of the American entrepreneur John Wise and French photographer Felix Nadar are dramatic and exhilarating. Holmes documents as well the balloons used to observe the horrors of modern battle during the Civil War (including a flight taken by George Armstrong Custer); the legendary tale of at least sixty-seven manned balloons that escaped from Paris (the first successful civilian airlift in history) during the Prussian siege of 1870-71; the high-altitude exploits of James Glaisher (who rose seven miles above the earth without oxygen, helping to establish the new science of meteorology); and how Mary Shelley, Edgar Allan Poe, and Jules Verne felt the imaginative impact of flight and allowed it to soar in their work. A seamless fusion of history, art, science, biography, and the metaphysics of flights, *Falling Upwards* explores the interplay between technology and imagination. And through the strange allure of these great balloonists, it offers a masterly portrait of human endeavor, recklessness, and vision. (With 24 pages of color illustrations, and black-and-white illustrations throughout.)

In Praise of Slow Carl Honore 2009-06-12 In the tradition of such trailblazing books as *No Logo* and *The Tipping Point*, *In Praise of Slow* heralds a growing international movement of people dedicated to slowing down the pace of our contemporary times and enjoying a richer, fuller life as a result. These days, almost everyone complains about the hectic pace of their lives. We live in a world where speed rules and everyone is under pressure to go faster. But when speed is king, anyone or anything that gets in our way, that slows us down, becomes an enemy. Thanks to speed, we are living in the age of rage. Carl Honore has discovered a movement that is quickly working its way into the mainstream. Groups of people are developing a recipe for living better in a fast-paced, modern environment by striving for a new balance between fast and slow. In an entertaining and hands-on investigation of this new movement, Honore takes us from a Tantric sex workshop in a trendy neighbourhood in London, England to Bra, Italy, the home of the Slow Food, Slow Cities and Slow Sex movements. He examines how we can continue to live productive lives by embracing the tenets of the slow movement. A challenging take on the cult of speed, as well as a corrective look at how we can approach our lives with new understanding, *In Praise of Slow* uncovers a movement whose time has come.

Rising Tide John M. Barry 2007-09-17 A New York Times Notable Book of the Year, winner of the Southern Book Critics Circle Award and the Lillian Smith Award. An American epic of science, politics, race, honor, high society, and the Mississippi River, *Rising Tide* tells the riveting and nearly forgotten story of the Great Mississippi Flood of 1927. The river inundated the homes of almost one million people, helped elect Huey Long governor and made Herbert Hoover president, drove hundreds of thousands of African Americans north, and transformed American society and politics forever. The flood brought with it a human storm: white and black collided, honor and money collided, regional and national powers collided. New Orleans's elite used their power to divert the flood to those without political connections, power, or wealth, while causing Black sharecroppers to abandon their land to flee up north. The states were unprepared for this disaster and failed to support the Black community. The racial divides only widened when a white officer killed a Black man for refusing to return to work on levee repairs after a sleepless night of work. In

the powerful prose of *Rising Tide*, John M. Barry removes any remaining veil that there had been equality in the South. This flood not only left millions of people ruined, but further emphasized the racial inequality that have continued even to this day.

The Origin of Consciousness in the Breakdown of the Bicameral Mind Julian Jaynes 2000-08-15 National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. "Don't be put off by the academic title of Julian Jaynes's *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor."—The New York Times "When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis."—John Updike, *The New Yorker* "He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior."—*American Journal of Psychiatry*

Colossus Michael Hiltzik 2010-06-01 As breathtaking today as the day it was completed, Hoover Dam not only shaped the American West but helped launch the American century. In the depths of the Great Depression it became a symbol of American resilience and ingenuity in the face of crisis, putting thousands of men to work in a remote desert canyon and bringing unruly nature to heel. Pulitzer Prize-winning writer Michael Hiltzik uses the saga of the dam's conception, design, and construction to tell the broader story of America's efforts to come to grips with titanic social, economic, and natural forces. For embodied in the dam's striking machine-age form is the fundamental transformation the Depression wrought in the nation's very culture—the shift from the concept of rugged individualism rooted in the frontier days of the nineteenth century to the principle of shared enterprise and communal support that would build the America we know today. In the process, the unprecedented effort to corral the raging Colorado River evolved from a regional construction project launched by a Republican president into the New Deal's outstanding—and enduring—symbol of national pride. Yet the story of Hoover Dam has a darker side. Its construction was a gargantuan engineering feat achieved at great human cost, its progress marred by the abuse of a desperate labor force. The water and power it made available spurred the development of such great western metropolises as Los Angeles, Phoenix, Denver, Las Vegas, Salt Lake City, and San Diego, but the vision of unlimited growth held dear by its designers and builders is fast turning into a mirage. In Hiltzik's hands, the players in this epic historical tale spring vividly to life: President Theodore Roosevelt, who conceived the project; William Mulholland, Southern California's great builder of water works, who urged the dam upon a reluctant Congress; Herbert Hoover, who gave the dam his name though he initially opposed its construction; Frank Crowe, the dam's renowned master builder, who pushed his men mercilessly to raise the beautiful concrete rampart in an inhospitable desert gorge. Finally there is Franklin Roosevelt, who presided over the ultimate completion of the project and claimed the credit for it. Hiltzik combines exhaustive research, trenchant observation, and unforgettable storytelling to shed new light on a major turning point of twentieth-century history.

Ten Poems to Say Goodbye Roger Housden 2012-02-21 In *Ten Poems to Say Goodbye*,

the newest addition to the celebrated Ten Poems series, Roger Housden continues to highlight the magic of poetry, this time as it relates to personal loss. But while the selected poems in this volume may focus upon loss and grief, they also reflect solace, respite, and joy. A goodbye is an opportunity for kindness, for forgiveness, for intimacy, and ultimately for love and a deepening acceptance of life as it is rather than what it was. Goodbyes can be poignant, sorrowful, sometimes a relief, and—now and then—even an occasion for joy. They are always transitions that, when embraced, can be the door to a new life both for ourselves and for others. In this inspiring and consoling volume, Housden encourages readers to embrace poetry as a way of enabling us to better see and appreciate the beauty of the world around and within us.

Paradise Falls Keith O'Brien 2022-04-12 The staggering story of an unlikely band of mothers in the 1970s who discovered Hooker Chemical's deadly secret of Love Canal—exposing one of America's most devastating toxic waste disasters and sparking the modern environmental movement as we know it today. Lois Gibbs, Luella Kenny, and other mothers loved their neighborhood on the east side of Niagara Falls. It had an elementary school, a playground, and rows of affordable homes. But in the spring of 1977, pungent odors began to seep into these little houses, and it didn't take long for worried mothers to identify the curious scent. It was the sickly sweet smell of chemicals. In this propulsive work of narrative storytelling, NYT journalist Keith O'Brien uncovers how Gibbs and Kenny exposed the poisonous secrets buried in their neighborhood. The school and playground had been built atop an old canal—Love Canal, it was called—that Hooker Chemical, the city's largest employer, had quietly filled with twenty thousand tons of toxic waste in the 1940s and 1950s. This waste was now leaching to the surface, causing a public health crisis the likes of which America had never seen before and sparking new and specific fears. Luella Kenny believed the chemicals were making her son sick. O'Brien braids together previously unknown stories of Hooker Chemical's deeds; the local newspaperman, scientist, and congressional staffer who tried to help; the city and state officials who didn't; and the heroic women who stood up to corporate and governmental indifference to save their families and their children. They would take their fight all the way to the top, winning support from the EPA, the White House, and even President Jimmy Carter. By the time it was over, they would capture America's imagination. Sweeping and electrifying, Paradise Falls brings to life a defining story from our past, laying bare the dauntless efforts of a few women who—years before Erin Brockovich took up the mantle— fought to rescue their community and their lives from the effects of corporate pollution and laid foundation for the modern environmental movement as we know it today.

Olive the Lionheart Brad Ricca 2020-08-11 "Brad Ricca's Olive MacLeod is my favorite sort of woman from history—bold and unconventional, utterly unsinkable—and her story is so full of adventure and acts of courage, it's hard to believe she actually lived. And yet she did! Brad Ricca has found a heroine for the ages, and written her tale with a winning combination of accuracy and imagination." — Paula McLain, author of *Love and Ruin* and *The Paris Wife* From the Edgar-nominated author of the bestselling *Mrs. Sherlock Holmes* comes the true story of a woman's quest to Africa in the 1900s to find her missing fiancé, and the adventure that ensues. So she went to find him. *Olive the Lionheart* is the thrilling true story of her astonishing journey. In jungles, swamps, cities, and deserts, Olive and her two companions, the Talbots, come face-to-face with cobras and crocodiles, wise native chiefs, a murderous leopard cult, a haunted forest, and even two adorable lion cubs that she adopts as her own. Making her way in a pair of ill-fitting boots, Olive awakens to the many forces around her, from shadowy colonial powers to an invisible Islamic warlord who may hold the key to Boyd's disappearance. As these secrets begin to unravel, all of Olive's assumptions prove wrong and she is forced to confront the darkest, most shocking secret of all: why she really came to Africa in the first place. Love for Imperfect Things Haemin Sunim 2020-02-04 Susan Cain, New York Times bestselling author of Quiet: "The world could surely use a little more love, a little more compassion, and a little more wisdom. In Love for Imperfect Things, Haemin Sunim shows us how to cultivate all three, and to find beauty in the most imperfect of things--including your very own self." A #1 internationally bestselling book of spiritual wisdom about learning to love ourselves, with all our imperfections, by the Buddhist author of The Things You Can See Only When You Slow Down Hearing the words "be good to yourself first, then to others" was like being struck by lightning. Many of us respond to the pressures of life by turning inward and ignoring problems, sometimes resulting in anxiety or depression. Others react by working harder at the office, at school, or at home, hoping that this will make ourselves and the people we love happier. But what if being yourself is enough? Just as we are advised on airplanes to take our own oxygen first before helping others, we must first be at peace with ourselves before we can be at peace with the world around us. In this beautiful follow-up to his international bestseller The Things You Can See Only When You Slow Down, Zen Buddhist monk Haemin Sunim turns his trademark wisdom to the art of self-care, arguing that only by accepting yourself--and the flaws that make you who you are--can you have compassionate and fulfilling relationships with your partner, your family, and your friends. With more than thirty-five full-color illustrations, Love for Imperfect Things will appeal to both your eyes and your heart, and help you learn to love yourself, your life, and everyone in it. When you care for yourself first, the world begins to find you worthy of care.

Imperial Woman Pearl Sydenstricker Buck 1956 *Imperial Woman* is the fictionalized biography of the last Empress in China, Ci-xi, who began as a concubine of the Xianfeng Emperor and on his death became the de facto head of the Qing Dynasty until her death in 1908. Buck recreates the life of one of the most intriguing rulers during a time of intense turbulence. Tzu Hsi was born into one of the lowly ranks of the Imperial dynasty. According to custom, she moved to the Forbidden City at the age of seventeen to become one of hundreds of concubines. But her singular beauty and powers of manipulation quickly moved her into the position of Second Consort. Tzu Hsi was feared and hated by many in the court, but adored by the people. The Empress's rise to power (even during her husband's life) parallels the story of China's transition from the ancient to the modern way.
