The River embodies both these nations' livelihoods and their geopolitics. It is not simply water but rather an origin of identity, a route for migration and commerce, a source of conflict, and a catalyst for cooperation. Cooperation among decision-makers and users is crucial to address the threats to water resources. The Niger.

**Charity in Islamic Societies** Amy Singer 2008-09-18 Muslim beliefs have inspired charitable giving for over fourteen centuries, yet Islamic history has rarely been examined from this perspective. In *Charity in Islamic Societies*, Amy Singer explains the basic concepts and institutions of Muslim charity, including the obligation to give on an annual basis. Charitable endowments shaped Muslim societies and cultures in every era. This book demonstrates how

historical circumstances, social status, gender, age and other factors interacted with religious ideals to create a rich variety of charitable practices, from the beginnings of Islam to the present day. Using written texts, buildings, images and objects to anchor the discussions in each chapter, the author explores the motivations for charity, its impact on the rich and the poor, and the politicisation of charity. This lucidly written book will capture the attention of anyone who is interested in the nature of Islamic society and the role of philanthropy throughout history.

*Visual Soil Evaluation* Bruce C. Ball 2015-10-23 Visual Soil Evaluation (VSE) provides land users and environmental authorities with the tools to assess soil quality for crop performance. Covering a broad range of land types from abandoned peats to prime arable land, this useful handbook assesses yield potential across a range of scales. It also appraises the use of VSE in determining the potential of different land types for carbon storage, greenhouse gas emissions and nutrient leaching, and for diagnosing and rectifying erosion and compaction in soils.

My Body, The Buddhist Deborah Hay 2013-09-01 Through a series of imaginative approaches to movement and performance, choreographer Deborah Hay presents a profound reflection on the ephemeral nature of the self and the body as the

locus of artistic consciousness. Using the same uniquely playful poetics of her revolutionary choreography, she delivers one of the most revealing accounts of what art creation entails and the ways in which the body, the center of our aesthetic knowledge of the world, can be regarded as our most informed teacher. *My Body, The Buddhist* becomes a way into Hay's choreographic techniques, a gloss on her philosophy of the body (which shares much with Buddhism), and an extraordinary artist's primer. The book is composed of nineteen short chapters ("my body likes to rest," "my body finds energy in surrender," "my body is bored by answers"), each an example of what Susan Foster calls Hay's "daily attentiveness to the body's articulateness."

*Some People Let You Down* Mike Alberti 2020-11-13 The nine stories in Mike Alberti's debut collection shine a sharp light on small-town American life –not the Arcadian small towns of yesteryear, but the old mill towns hanging on after the mill has stopped running, the deserted agricultural communities in the middle of vast industrial farms, places where bad luck has become part of the weather. But even in these blighted, neglected landscapes, the possibility of

renewal always presents itself: there is hope for these places and the characters who inhabit them. In these fresh, innovative stories, some people let you down, but some people don't.

**Approaches to the Qur'an in Sub-Saharan Africa** Zulfikar Hirji 2019-10-06  
Covering a period from the eighteenth century to the early twenty-first

century, this multidisciplinary volume examines Muslim engagements with the Qur'an in a variety of geographical locations in sub-Saharan Africa including Burkina Faso, Kenya, Mali, Niger, Nigeria, Senegal, and Tanzania. The volume's twelve case studies use different frameworks and methodological approaches from the academic disciplines of philology, historiography, anthropology, and art history. These studies explore a variety of media and modalities that Muslims in sub-Saharan Africa, as elsewhere, use in their engagements with the Qur'an. These include: manuscripts; commentaries; translations; recitations and invocations; music and poetry; magical squares and symbolic repertoire; medicinal and curative acts; textiles, ink, paper, and wooden boards; spaces of education, healing and prayer, as well as spaces of dreams and spirit worlds. As such, the case studies move well beyond the materiality of the Qur'an as a physical book to explore the ways in which the Qur'an is understood, felt and imagined, as well as the contestations and debates that arise from these diverse engagements. Approaches to the Qur'an in Sub-Saharan Africa opens up new discourses about Islam and Muslims in sub-Saharan Africa through the examination of how Muslims in this geographical and socio-cultural context engage with the Qur'an, and about the Qur'an through an examination of how Muslims in sub-Saharan Africa engage with it. Thus, in seeking to understand the plurality of engagements that Muslims from diverse communities of interpretation and from different parts of sub-Saharan Africa have had with Qur'an, this innovative collection adds to the scholarship on the Qur'an as well as the scholarship on Islam and Muslims in Africa.

Free and French: Citizenship in France's Atlantic Empire The enforced removal of individuals has long been a political tool used by African states to create generations of asylum seekers, refugees, and fugitives. Historians often present such political exile as a potentially transformative experience for resilient individuals, but this reading singles the exile out as having an exceptional experience. This collection seeks to broaden that understanding within the global political landscape by considering the complexity of the experience of exile and the lasting effects it has had on African peoples. The works collected in this volume seek to recover the diversity of exile experiences across the continent. This corpus of testimonials and documents is presented as an "archive" that provides evidence of a larger, shared experience of persecution and violence. This consideration reads exiles from African colonies and nations as active participants within, rather than simply as victims of, the larger global diaspora. In this way, exile is understood as a way of asserting political dissidence and anti-imperial strategies. Broken into three distinct parts, the volume considers legal issues, geography as a strategy of anticolonial resistance, and memory and performative understandings of exile. The experiences of political exile are presented as fundamental to an understanding of colonial and postcolonial oppression and the history of state power in Africa.

**The Last Suspicious Holdout** Ladee Hubbard 2022-03-08 The critically acclaimed author of *The Rib King* returns with an eagerly anticipated collection of interlocking short stories including the title story written exclusively for this volume, that explore relationships between friends, family and strangers in a Black neighborhood over fifteen years The thirteen gripping tales In *The Last Suspicious Holdout*, the new story collection by award-winning author Ladee Hubbard, deftly chronicle poignant moments in the lives of an African American community located in a "sliver of southern suburbia." Spanning from 1992 to 2007, the stories represent a period during which the Black middle-class expanded while stories of "welfare Queens," "crack babies," and "super predators" abounded in the media. In "False Cognates," a formerly incarcerated attorney struggles with raising the tuition to keep his troubled son in an elite private school. In "There He Go," a young girl whose mother moves constantly clings to a picture of the grandfather she doesn't know but invents stories of his greatness. Characters spotlighted in one story reappear in another, providing a stunning testament to the enduring resilience of Black people as they navigate the "post-racial" period *The Last Suspicious Holdout* so vividly portrays.

*Political Memory in and After the Persian Empire* Jason M. Silverman 2015-10-15 Various disciplines that deal with Achaemenid rule offer starkly different assessments of Persian kingship. While Assyriologists treat Cyrus's heirs as legitimate successors of the Babylonian kings, biblical scholars often speak of a "kingless era" in which the priesthood took over the function of the Davidic monarch. Egyptologists see their land as uniquely independently minded despite conquests, while Hellenistic scholarship tends to evaluate the interface between Hellenism and native traditions without reference to the previous two

centuries of Persian rule. This volume brings together in dialogue a broad array of scholars with the goal of seeking a broader context for assessing Persian kingship through the anthropological concept of political memory.

*An Unexpected Forest* Eleanor Lincoln Morse 2007 In this quirky first novel, the U.S. Forestry Department mistakenly delivers 1,000 spruce tree seedlings to former attorney Horace, who decides to plant the tiny trees in the wild. Horace's wife begins to think he's gone mad. Into the mix come an ex-convict, who helps Horace plant the trees, and his girlfriend. Four souls adrift finally come together on a Maine island, where they discover unexpected joy in each other's company and ultimately come together as a family.

Southern Edwardseans Obbie Tyler Todd 2022-01-17 The founders and forerunners of the Southern Baptist Convention were fundamentally shaped by the thought of Puritan theologian Jonathan Edwards and his theological successors. While Baptists in the antebellum South boasted a different theological pedigree than Presbyterians or Congregationalists, and while they inhabited a Southern landscape unfamiliar to the bustling cities and tall forests of New England, they believed their similarities with Edwards far outweighed their differences. Like Edwards, these Baptists were revivalistic, Calvinistic, loosely confessional, and committed to practical divinity. In these four things, Southern Edwardseanism lived, moved, and had its being. In the nineteenth-century, when so many Presbyterians scoffed at Edwards's "innovation" and Methodists scorned his Calvinism, Baptists found in Edwards a man after their own heart. By 1845, at the first Southern Baptist Convention, Southern Edwardseans had laid the groundwork for a convention marked by the theology of Jonathan Edwards.

**The Arts and Crafts of Literacy** Andrea Brigaglia 2017-09-25 During the last two decades, the (re-)discovery of thousands of manuscripts in different regions of sub-Saharan Africa has questioned the long-standing approach of Africa as a continent only characterized by orality and legitimately assigned to the continent the status of a civilization of written literacy. However, most of the existing studies mainly aim at serving literary and historical purposes, and focus only on the textual dimension of the manuscripts. This book advances on the contrary a holistic approach to the study of these manuscripts and gather contributions on the different dimensions of the manuscript, i.e. the materials, the technologies, the practices and the communities involved in the production, commercialization, circulation, preservation and consumption. The originality of this book is found in its methodological approach as well as its comparative geographic focus, presenting studies on a continental scale, including regions formerly neglected by existing scholarship, provides a unique opportunity to expand our still scanty knowledge of the different manuscript cultures that the African continent has developed and that often can still be considered as living traditions.
