**Inside The Black Vault** Greenewald Jr. 2019-04-08 The evidence in this book may not ultimately give you the "smoking gun" you are looking for on your journey, but I guarantee it will give you a box of bullets when you find it. In 1996, John Greenewald, Jr. began researching the secret inner workings of the U.S. Government at the age of fifteen. He targeted such agencies as the CIA, FBI, Pentagon, Air Force, Army, Navy, NSA, DIA, and countless others. Greenewald utilized the Freedom of Information Act (FOIA) to gain access to more than two million pages of documents. This archive includes information relating to UFOs, the JFK Assassination, chemical, biological, and nuclear weapons, and top secret aircraft. He took the millions of pages, and over the course of more than two decades, has built an archive known around the world, as The Black Vault. *Inside The Black Vault: The Government's UFO Secrets Revealed* takes you on a journey within the secret world of unidentified aerial phenomenon that has plagued the military since at least the 1940s. Declassified records prove that the UFO topic is one of the most highly classified and most elusive subjects the U.S. Government has ever dealt with. Each chapter explores various agencies and their documents, and Greenewald breaks down the meaning of why some of the most important documents are relevant to proving a massive cover-up. Along with declassified documents, Greenewald outlines the struggle it took him to get them. No other topic has proven so difficult, in more than 8,000 FOIA requests that he has filed. He explores why that might be and meets skeptics and debunkers head on, outlining why some of their more prominent rebuttals for it all cannot be true.

*Area 51* Annie Jacobsen 2011-05-17 This "compellingly hard-hitting" bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government – but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to

nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible to make.

UFOs and Disclosure in the Trump Era Richard M. Dolan 2017-03-16 For as long as people have talked about UFOs, they have wondered about when and how the governments of the world will acknowledge them. Among people following the subject, that's called Disclosure. In this second volume of the Richard Dolan Lecture Series, Historian Richard Dolan tackles an enormous subject. After explaining why UFOs are taken seriously in national security circles around the world, he provides his best analysis to date as to how the secrecy on UFOs has taken form, how it has corroded our society, and how it works internationally. He gives a fresh analysis on the black budget breakaway civilization, on the weaponization of secret technologies, the intelligences behind the UFO phenomenon, and how Russia and China fit into the global UFO cover-up. He drives his analysis home with four distinct disclosure scenarios: Fascist Disclosure, Premature Disclosure, Insider Disclosure, and People-Driven Disclosure. Finally, Dolan offers a unique view on how the UFO cover-up and possible disclosure could transpire during the presidency of Donald Trump. One thing is clear: we live in a world that hangs in the balance.

Sekret Machines Book 1: Chasing Shadows Tom DeLonge 2016-04-05 For those who know... that something is going on... The witnesses are legion, scattered across the world and dotted through history, people who looked up and saw something impossible lighting up the night sky. What those objects were, where they came from, and who—or what—might be inside them is the subject of fierce debate and equally fierce mockery, so that most who glimpsed them came to wish they hadn't. Most, but not everyone. Among those who know what they've seen, and—like the toll of a bell that can't be unrung—are forever changed by it, are a pilot, an heiress, a journalist, and a prisoner of war. From the waning days of the 20th century's final great war to the fraught fields of Afghanistan to the otherworldly secrets hidden amid Nevada's dusty neverlands—the truth that is out there will propel each of them into a labyrinth of otherworldly technology and the competing aims of those who might seek to prevent—or harness—these beings of unfathomable power. Because, as it turns out, we are not the only ones who can invent and build...and destroy. Featuring actual events and other truths drawn from sources within the military and intelligence community, Tom DeLonge and A.J. Hartley offer a tale at once terrifying, fantastical, and perhaps all too real. Though it is, of course, a work of... fiction?

**UFOs and the national security state** Richard M. Dolan 2000

**Project Blue Book** Brad Steiger 2019 A new edition of the blockbuster book that revealed the top-secret findings of the US government about UFOs. Throughout

the 1950s and 1960s, while publicly dismissing the existence of UFOs, the United States Air Force was engaged in a secret program for evaluating every report of unidentified flying objects. Under the code name, Project Blue Book, the Air Force analyzed over 13,000 incidents. The goal of this enterprise was threefold: To determine the cause for each UFO sighting, to assess the security threat for each incident, and to determine how the United States could obtain or create the technology used by UFOs. This book, based on secret files obtained through the Freedom of Information Act, includes accounts of seven of the most important USAF enquiries-- among them the story of the nights the White House was buzzed by UFOs, the mystery of the Lubbock Lights, the full story of Captain Mantell--Ufology's first martyr, and the startling conversion of the prominent astronomer, J. Alan Hynek from UFO skeptic to believer. This is startling and fascinating book that uncovers not only the anatomy of a government cover-up, but also provides stark and chilling evidence that we are not alone. It is all here, government documents, the testimony of scientists, the military, pilots and citizens all over the country who have witnessed UFOs.

**UFOs and Government** Michael Swords 2012 Governments around the world have had to deal with the UFO phenomenon for a good part of a century. How and why they did so is the subject of *UFOs and Government*, a history that for the first time tells the story from the perspective of the governments themselves. It's a perspective that reveals a great deal about what we citizens have seen, and puzzled over, from the "outside" for so many years. The story, which is unmasked by the governments' own documents, explains much that is new, or at least not commonly known, about the seriousness with which the military and intelligence communities approached the UFO problem internally. Those approaches were not taken lightly. In fact, they were considered matters of national security. At the same time, the story reveals how a subject with such apparent depth of experience and interest became treated as if it were a triviality. And it explains why one government, the United States government, deemed it wise, and perhaps even necessary, to treat it so. Though the book focuses primarily on the U. S. government's response to the UFO phenomenon, also included is the treatment of the subject by the governments of Sweden, Australia, France, Spain, and other countries. This large-format, fully illustrated book is the result of a team effort that called itself "The UFO History Group," a collection of veteran UFO historians and researchers who spent more than four years researching, consulting, writing, and editing to present a work of historical scholarship on government response to the UFO phenomenon. Michael Swords was the primary author of the United States chapters. The work was coordinated and edited by Robert Powell. Clas Svahn, Vicente-Juan Ballester Olmos, Bill Chalker, and Robert Powell contributed country chapters. Jan Aldrich was the primary content consultant, with additional content consultation and writing coming from Barry Greenwood and Richard Thieme. Steve Purcell was the primary photo illustration editor. From the foreword by Jerome Clark: "While *UFOs and Government* revisits an often unhappy history, the reading of it is far from an unhappy experience. The authors, eloquent, intelligent, sophisticated, and conscientious, provide us with the first credible, comprehensive overview of official UFO history in many years... Most of the current volume deals with U.S. military and intelligence responses to the UFO phenomenon, but it also features richly informative chapters that expand the story across the international arena. If you're looking for an example of a nation that dealt productively with the UFO reports that came its official way, you will take heart in the chapter on the French projects... From here on, every responsible treatment of UFOs and government will have to cite *UFOs and Government* prominently among its sources... this is

the real story as accurately as it can be reconstructed in the second decade of the new century. I expect to keep my copy close at hand and to return to it often. While it cannot be said of many books, UFO-themed or otherwise, this is among the essential ones. Stray from it at your peril."

**Sacred Smoke** Amy Blackthorn 2019-10-01 Use smoke and scents to clear away negative energy and create a positive, healing home for you and your family. Here, aromatherapist and long-time herbalist Amy Blackthorn offers the essential tools for creating sacred space—a safe space free of negative energies—using herbs, incense, smoke, and other practices. "No matter your faith," writes Amy Blackthorn, "practicing with sacred smoke is a powerful way to make your intentions known and support change in your life. . . . Written in an accessible style, free of jargon, Sacred Smoke has everything you need to know to get started on your practice of purification and cleansing, including: The importance of self-care How to keep your home and family safe How to protect your home while you are away Adding crystals to your cleansing practice Using essential herbs and recipes for creating cleansing smoke Sacred Smoke is an essential guide for anyone seeking to practice the ritual use of cleansing and clearing to protect and heal themselves, their home, and their family.

**Stuff They Don't Want You to Know** Ben Bowlin 2022-10-11 "Interesting...Bowlin's calmly rational approach to the subject of conspiracy theories shows the importance of logic and evidence."—Booklist "A page-turning book to give to someone who believes in pizza pedophilia or that the Illuminati rule the world."—Kirkus Reviews The co-hosts of the hit podcast Stuff They Don't Want You to Know, Ben Bowlin, Matthew Frederick, & Noel Brown, discern conspiracy fact from fiction in this sharp, humorous, compulsively readable, and gorgeously illustrated book. In times of chaos and uncertainty, when trust is low and economic disparity is high, when political institutions are crumbling and cultural animosities are building, conspiracy theories find fertile ground. Many are wild, most are untrue, a few are hard to ignore, but all of them share one vital trait: there's a seed of truth at their center. That seed carries the sordid, conspiracy-riddled history of our institutions and corporations woven into its DNA. Ben Bowlin, Matt Frederick, and Noel Brown host the popular iHeart Media podcast, Stuff They Don't Want You To Know. They are experts at exploring, explaining, and interrogating today's emergent conspiracies—from chem trails and biological testing to the secrets of lobbying and the indisputable evidence of UFOs. Written in a smart, witty, and conversational style, elevated with amazing illustrations, Stuff They Don't Want You to Know is a vital book in understanding the nature of conspiracy and using truth as a powerful weapon against ignorance, misinformation, and lies.

UFOs and the National Security State Richard M. Dolan 2009 This is the 2nd volume in Richard Dolan's series, "UFOs and the National Security State," which covers all aspects of the UFO phenomenon from the 1940s to the present day. Volume 2, "The Cover-Up Exposed, 1973-1991," analyzes the UFO sightings, politics, and research that occurred during the last two decades of the cold war. Working from archival sources, professional journals, and his own investigations, Dolan describes UFO encounters worldwide, demonstrating that the phenomenon is global, and the result of advanced technology. Many cases involved sensitive military airspace. These include intrusions over American

and Canadian air bases; attempts to intercept a UFO over Tehran; the landing of an unknown object near two airbases in Britain; large boomerang-shaped craft near New York City; unexplained triangular craft seen throughout the U.S. and Europe; strange objects in Earth orbit seen by Soviet and American astronauts; and encounters with UFOs from around the world. Dolan also studies "UFO politics," describes the black-budget connection, and provides a geopolitical analysis to explain the whys and hows of UFO secrecy. Finally, he provides a history of UFO research itself. He recreates the discussions and debates concerning alien abductions, animal mutilations, intelligence community infiltration into UFO research, the controversial MJ-12 documents, the Gulf Breeze controversy, reverse engineering of alien technology, crop circles, and more. Dolan also studies the effect of such new technologies as the Internet on UFO research. This is a complete history of the phenomenon, the secrecy, and the response by researchers who sought to understand the mystery. Behind it all is the backdrop of a world in technological, economic, and political transformation. "UFOs and the National Security State: The Cover-Up Exposed, 1973-1991," takes the reader through a turning point in the history of the UFO phenomenon, as well as the history of the modern world.

**A.D. After Disclosure** Richard Dolan 2012-05-22 "What if the UFO cover-up is real and what if it ended? After Disclosure poses this fascinating question and looks at the societal consequences of such a revelation. Richard Dolan and Bryce Zabel have produced a thoughtful and provocative analysis that goes well beyond the usual scope of books on UFOs and alien life." -Nick Pope, Former Chief of UK Ministry of Defence UFO Desk What if UFO secrecy ended tomorrow? The transition from B.C. (Before Confirmation) to A.D. (After Disclosure) is the ultimate "what if?" scenario in which the calendar is reset and history begins again. This work of speculative non-fiction combines meticulous fact-finding from historian/researcher Richard M. Dolan and forward-leaning scenarios from journalist/screenwriter Bryce Zabel on the world's most mind-bending subject. The authors predict radical changes after official acknowledgment that at least some UFOs are intelligently controlled craft from somewhere other than Earth. A.D. After Disclosure isn't afraid to make mind-blowing, specific predictions, such as: Congress will hold Watergate-style hearings and ask secret-keepers, "What did you know and when did you know it?" The first decade A.D. (After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change. Abductees will file a class-action suit against the government for withholding critical information. All the textbooks on planet Earth--from history to science--will need an immediate review. Whether disclosure leads to social panic or ushers in a new era of unity and peace, it will undoubtedly be a game-changing event.

*UFOs and the National Security State* Richard M. Dolan 2002 Richard M. Dolan is a gifted historian whose study of U.S. Cold War strategy led him to the broader context of increased security measures and secrecy since World War II. One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects. *UFOs and the National Security State* is the first volume of a two-part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present. Working from hundreds of declassified records and other primary and secondary sources, Dolan centers his investigation on the American military and intelligence communities, demonstrating that they take UFOs seriously indeed. Included in this volume are the activities of more than fifty military bases relating to UFOs, innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell

controversy, the CIA-sponsored Robertson Panel, and the Condon Committee Report. Dolan highlights the development of civilian anti-secrecy movements, which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent "closing of the door" during the Nixon administration.

**Covert Wars and Clash of Civilizations** Joseph P. Farrell 2013-07-24 Oxford-educated historian Joseph P. Farrell delivers the sequel to his best-selling *Covert Wars and Breakaway Civilizations*, part of his book series on suppressed technology, Nazi survival, secret finance and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control that very few people even suspect exists. Farrell delves deeper into the breakaway civilizations created by the Nazis in South America and other parts of the world. He elaborates on the advanced technology that they took with them at the "end" of World War II and shows how they created a huge system of hidden finance with the involvement of leading financial institutions around the world. He exposes the secret space programs used by the breakaway civilizations and reveals the clash of civilizations—a virtual secret war going on around us. He investigates the current space secrecy that involves UFOs, suppressed technologies and the hidden oligarchs who control planet Earth for their own gain and profit. Farrell probes the mystery surrounding Dr. Kurt Debus and his links to NASA and Werner von Braun. He uncovers the covert operations of Richard Bissell, the flying saucer designs of Alfred Loedding and T. Townsend Brown, and strange activity on Mars involving UFOs. He explains the magneto-hydrodynamic anti-gravity drives that would easily power such craft. He includes a continued discussion of "emulational" technologies (those that can imitate acts of god/nature, like earthquakes and storms) from the standpoint of the culture of "full spectrum dominance" and the culture of "plausible deniability." Farrell includes plenty of astounding accounts, documents and speculation on the amazing alternative history of hidden conflicts, secret oligarchies and super technology.

*American Cosmic* D.W. Pasulka 2019-01-18 More than half of American adults and more than seventy-five percent of young Americans believe in intelligent extraterrestrial life. This level of belief rivals that of belief in God. *American Cosmic* examines the mechanisms at work behind the thriving belief system in extraterrestrial life, a system that is changing and even supplanting traditional religions. Over the course of a six-year ethnographic study, D.W. Pasulka interviewed successful and influential scientists, professionals, and Silicon Valley entrepreneurs who believe in extraterrestrial intelligence, thereby disproving the common misconception that only fringe members of society believe in UFOs. She argues that widespread belief in aliens is due to a number of factors including their ubiquity in modern media like *The X-Files*, which can influence memory, and the believability lent to that media by the search for planets that might support life. *American Cosmic* explores the intriguing question of how people interpret unexplainable experiences, and argues that the media is replacing religion as a cultural authority that offers believers answers about non-human intelligent life.

*UFOs and the Deep State* Kevin D. Randle 2021 "The Deep State exists without a doubt, and it has perpetrated a consistent mission to hide, obscure, and delete information as it pertains to UFOs and alien interactions. Should unelected officials be making the decisions on disclosure? Is there a secret space program that has been developing technologies not of this world for decades?

What have the Airforce and other agencies been hiding? This and more is explored in this book"--

A. D. : After Disclosure Richard M. Dolan 2010-11-01 "About what might happen after an announcement is made that UFOs are real, ... [it] is the first work of non-fiction to tackle [the] questions about the new winners and losers in government, science, religion, media, culture, law, education, and politics"-- Dust jacket.

UFOs for the 21st Century Mind Richard M. Dolan 2014-01-21 This is the new must-have UFO book. For beginners and experienced researchers alike, historian Richard Dolan covers the full range of this incredibly complex topic in his uniquely engaging style. He offers fresh insights on everything connected to UFOs: ancient aliens, modern encounters, abductions, channelers, the politics and cover-up, the black budget world, the bizarre science, the social dimensions (read YouTube and Facebook), the future, and much more. Toward that end, Dolan gives practical insights on how to distinguish and investigate UFOs in today's world, where we are flooded with claims and videos and data of all types. In addition, as one of ufology's pioneers in the deep analysis of the cover-up, he offers an original perspective on how it all works and why the cover-up, despite being so entrenched and insidious, is nevertheless bound to end. He also writes on the nature of contact, speculating on who these "Others" might be. Finally, Dolan takes the reader through the "weird science" of UFOs, covering everything from propulsion to spacetime to consciousness and more. UFOs for the 21st Century Mind is a roadmap pointing the way forward in a field filled with uncertainty and obfuscation. In so doing, it is set to reposition an ancient phenomenon into a contemporary state of mind, reminding you just why the greatest mystery of our time is also one of the most important. Contents: Introduction 1. What Are UFOs? 2. Theories of Ancient Visitation 3. Into Modernity: Airships, Foo Fighters, and Flying Saucers, 1896 to 1969 4. UFO Secrecy and Those Who Fought It 5. Digging Deeper-The Breakaway Civilization 6. High Strangeness-UFOs from 1970 to 1990 7. UFOs, 1991 to the Present 8. Contact and Abduction 9. The Growth of Ufology 10. Who Are They? What Do They Want? 11. Weird Science: Propulsion, Energy, Spacetime, and Consciousness 12. Into the Future, Into Ourselves Conclusion 486 p. Illustrated Endorsements: "In a field that can be so confusing, so complex, Richard Dolan has taken his many years of thinking about UFOs and written a completely fresh overview of the entire subject. . . . This is an ambitious work that truly ties the many different aspects of the subject together. It's rare to find something like this, especially considering the care and thoroughness that went into it." -- George Noory, host of Coast to Coast AM. "As a follow-up to his previous books exploring the relationship between UFOs and the National Security State, historian Richard Dolan widens his perspective to explore all aspects of this provocative phenomenon. In this role, he takes us on a journey that brings to life the subtlety and depth of this rich subject, a truly captivating read." -- H. E. Puthoff, Ph.D., Director, Institute for Advanced Studies at Austin "UFOs For the 21st Century Mind represents a new kind of book - one that clearly and intelligently addresses literally every aspect and implication of the most maligned, misunderstood and compelling subject in human history. Richard Dolan's newest work is perfect reading for serious students of ufology as well as the absolute beginner. Inspired, particularly well written, and the product of a first class mind for this or any other century." --Peter Robbins, coauthor of the U.K. bestseller, Left At East Gate: A First-Hand Account of the Rendlesham Forest UFO Incident, Its Cover-up and Investigation "This is an invaluable treatment of the known facets and seemingly endless implications

regarding UFOs, with a much-appreciated focus on the human experience. A job well done, Richard." -- Sam Maranto, Investigative Researcher

**Encounter in Rendlesham Forest** Nick Pope 2014-04-15 An in-depth look at the Rendlesham Forest UFO Incident includes coverage of its 1980 tracking by military radar and the experiences of witnesses who came in contact with the landed object's hull. 40,000 first printing.

UFOs and Abductions David Michael Jacobs 2000 A surprising collection of writings on the subject of UFOs and alien abduction challenges serious scientists to explore this field, presenting the various recurring themes and unsolved puzzles surrounding our fascination with these unexplained phenomena.

**TRINITY** Jacques Vallée 2021-05-07 Hard evidence has existed since 1945 for the actual recovery of unidentified flying craft in the United States, according to a new research book, "TRINITY: The Best-Kept Secret" written by two seasoned analysts of the global patterns behind the UFO phenomenon. Italian investigative journalist Paola Leopizzi Harris and French-born information scientist Dr. Jacques F. Vallée have teamed up to uncover the details of a New Mexico crash in 1945, fully two years before the well-known incident at Roswell and the famous sighting by pilot Kenneth Arnold in 1947. Over several site investigation surveys Harris and Vallée reconstructed the historic observations by three witnesses, two of whom are still living, who described to them the circumstances of the crash, with details of the recovery of a nearly-intact flying vehicle and its occupants by an Army detachment. Combining their long experience in field research around the world, the authors have documented the step-by-step efforts by the military to remove the object, an avocado-shaped craft weighting several tons, from the property where it crash-landed during a storm. Surprisingly, the literature of the field only includes a few passing mentions about the case, and only one (foreign) TV documentary has mentioned it, but the correlation between the crash of the extraordinary object and the explosion of the first atom bomb at White Sands, less than 20 miles away, has been missed. Harris and Vallée suggest that the correlation is significant for physical, geographic and biological reasons, quite apart from the obvious strategic implications. The witnesses were able to observe not only the actual crash of the object on their property but every step of the military efforts to lift it and take it away. Fearing retaliation, they remained silent for some 60 years about what they had seen and done over those nine days at the site while the recovery was proceeding. When placed in the context of the history of chemical and physical analysis of retrieved UFO debris--an area where Harris and Vallée have long collaborated--the devices observed by the witnesses raise a number of very important scientific questions. The Honorable Paul Hellyer, former Minister of National Defence of Canada, has stated: "Paola Harris and Jacques Vallée have spent much effort doing field research on location (...) It is now time that their discovery be revealed to the world."

CIA's Role in the Study of UFOs, 1947-90 Gerald Haines 2018-01-20 An extraordinary 95 percent of all Americans have at least heard or read something about UFOs, and 57 percent believe they are real. In late 1993, after being pressured by UFOlogists for the release of information on UFOs, the CIA ordered a review of all Agency files. Using CIA records compiled from that review in 1994, this study traces CIA interest and involvement in the UFO controversy from the late 1940s to 1990. It chronologically examines the Agency's efforts to solve the mystery of UFOs, its programs that had an impact on UFO sightings, and its attempts to conceal CIA involvement in the entire UFO issue. What emerges from this examination is that, while Agency concern over UFOs was substantial until the early 1950s, CIA has since paid only limited and peripheral attention to the phenomena. *The CIA and the U-2 Program, 1954-1974* Gregory W. Pedlow 1998-08-01 A comprehensive & authoritative history of the CIA's manned overhead reconnaissance program (MORP), which from 1954 to 1974 developed & operated 2 extraordinary aircraft, the U-2 & the A-12 OXCART. Describes not only the program's technological & bureaucratic aspects, but also its political & international context. The MORP, along with other overhead systems that emerged from it, changed the CIA's work & structure in ways that were both revolutionary & permanent. The formation of the Directorate of S&T in the 1960s, principally to develop & direct reconnaissance programs, is the most obvious legacy of the events in this study.

*UFO Cover-up* Lawrence Fawcett 1990-07 Using recently declassified government files, the authors present a compelling argument that the government knows a great deal more about UFOs than it has shared with the public, and has in fact deliberately concealed the findings of more than 30 years of investigations. *They Are Already Here* Sarah Scoles 2020-03-03 An anthropological look at the UFO community, told through first-person experiences with researchers in their element as they pursue what they see as a solvable mystery—both terrestrial and cosmic. More than half a century since Roswell, UFOs have been making headlines once again. On December 17, 2017, the New York Times ran a front-page story about an approximately five-year Pentagon program called the Advanced Aerospace Threat Identification Program. The article hinted, and its sources clearly said in subsequent television interviews, that some of the ships in question couldn't be linked to any country. The implication, of course, was that they might be linked to other solar systems. The UFO community—those who had been thinking about, seeing, and analyzing supposed flying saucers (or triangles or chevrons) for years—was surprisingly skeptical of the revelation. Their incredulity and doubt rippled across the internet. Many of the people most invested in UFO reality weren't really buying it. And as Scoles did her own digging, she ventured to dark, conspiracy-filled corners of the internet, to a former paranormal research center in Utah, and to the hallways of the Pentagon. In *They Are Already Here* we meet the bigwigs, the scrappy upstarts, the field investigators, the rational people, and the unhinged kooks of this sprawling community. How do they interact with each other? How do they interact with "anomalous phenomena"? And how do they (as any group must) reflect the politics and culture of the larger world around them? We will travel along the Extraterrestrial Highway (next to Area 51) and visit the UFO Watchtower, where seeking lights in the sky is more of a spiritual quest than a "gotcha" one. We meet someone who, for a while, believes they may have communicated with aliens. Where do these alleged encounters stem from? What are the emotional effects on the experiencers? Funny and colorful, and told in a way that doesn't require one to believe, Scoles brings humanity to an often derided and misunderstood community. After all, the truth is out there . . .

*The Day After Roswell* Philip Corso 2012-12-11 Since 1947, the mysterious crash of an unidentified aircraft at Roswell, New Mexico, has fueled a firestorm of speculation and controversy with no conclusive evidence of its extraterrestrial origin -- until now. Colonel Philip J. Corso (Ret.), a member of President Eisenhower's National Security Council and former head of the Foreign Technology Desk at the U.S. Army's Research & Development department, has come forward to tell the whole explosive story. Backed by documents newly declassified through the Freedom of Information Act, Colonel Corso reveals for the first time his personal stewardship of alien artifacts from the crash, and discloses the U.S. government's astonishing role in the Roswell incident: what was found, the cover-up, and how these alien artifacts changed the course of

20th century history.

**The Hynek UFO Report** J. Allen Hynek 2020-01-01 The ultimate guide to Project Blue Book by one of the lead astronomers for the US Air Force program to investigate UFO sightings—and featured in History Channel's Project Blue Book. Originally released in 1977, this new edition by the world's foremost authority on UFOs distills 12,000 sightings and 140,000 pages of Project Blue Book evidence into a coherent explanation. A US Air Force-sponsored UFO-basher for years, Hynek had completely changed his tune by the late 1960s. Whether you believe in little green men or an official government cover-up policy, The Hynek UFO Report is required reading. Have UFOs really been reported by every nation across the globe? Can all the eyewitness reports simply be fantasy? Are we victims of mass hallucination or just plain lies? Have close encounters actually occurred? Is the government concealing deep secrets at a hidden location? The Hynek UFO Report is rational, logical, and realistic. It is for anyone interested in UFOs, the possibility of extraterrestrial life, and the role of the US government in hiding the truth from the public.

**Summary: The Alien Agendas by Richard Dolan** Quick Savant Warning! This mind-expanding book may change you forever. This is a summary and study-aid book. Of the many books on Aliens and UAP, Richard Dolan's new book stands alone. One of the world's leading historians on UFOs, Dolan studied abductees' reports and categorized the different alien types and likely agendas. He reviews the most convincing evidence and speculates on just who the aliens may be and want. Dolan's analysis begins with our ancient pre-history and continues with our possible genetic modifications and monitoring by extraterrestrials. He also reveals the long history of interaction with perfectly human-looking beings but who seemed like they were from out of town, way out of town. Such interactions never let up. Who are they? He scrutinizes the suspicious grays, short and tall, and other types, including mysterious reptilians, mind-controlling insectoids, rapidly evolving hybrids, and a motley crew of others. Dolan steps forward to ascertain their peculiar psychology, technological prowess, and way of interacting with people. Unsettling "ultimate plans" start to come into focus. He argues that the alien presence becomes especially important at this time on planet Earth. Accelerating the transformation of human civilization into something we are only beginning to comprehend is the nature of the game. Dolan points to a combination of radical new technologies permeating a new social order that ultimately might make human civilization akin to alien civilizations. Embedded in sophisticated science and technology, we progress towards a tightly centralized and controlled new world order.

*The Alien Agendas* Richard Dolan 2020-11-17 Of the many books on UFOs and aliens, this one may be unique. Richard Dolan, one of the world's leading historians of the UFO subject, has analyzed the different alien types and agendas based on longstanding patterns observed by witnesses. This is both a careful review of the best evidence we have of human-alien interaction, as well as a bold speculation of just who the aliens are and what they want. Dolan's analysis starts with our ancient pre-history and potential genetic modifications and monitoring by extraterrestrials. He also studies the long history of interaction with perfectly human-looking beings who somehow did not seem as though they were "from here." Such interactions have continued through the present day. Who are these beings? He also analyzes reports of gray aliens and other types, including reptilian types, insectoid types, hybrid beings, and a range of others. With a view toward understanding their psychology, their technological capabilities, and the nature of their interactions with people,

he speculates as to what ultimate plans may be. He argues that the alien presence is especially important now. This is because of the rapid transformation of human civilization into something we have never before experienced. We still don't have a proper name for what we are going through, but it includes a combination of radical new technologies with a new social order that ultimately might make human civilization much more like the societies that these other beings already have. One that combines a tightly centralized and controlled social order with sophisticated science and technology.

**The Myth and Mystery of UFOs** Thomas Eddie Bullard 2010 Bullard shows how ongoing grassroots interest in UFOs stems both from actual personal experiences and from a cultural mythology and also how UFOs have catalyzed the evolution of a new but highly fractured belief system that borrows heavily from the humanpast and mythic themes.

*UFO Secrets Inside Wright-Patterson* Thomas J. Carey 2019-06-01 "Carey and Schmitt show that good, old-fashioned investigative reporting is still alive and well." -Cheryll Jones, former anchor, CNN News The true nature of what actually crashed in Roswell, New Mexico, in 1947 remains classified. Only a select few have ever had access to the truth about what became known as Area 51. But what happened to the remnants of that crash is shrouded in even greater mystery. What began in the high desert of New Mexico ended at Wright-Patterson, an ultra-top-secret Air Force base in Dayton, Ohio. The physical evidence of extraterrestrial visitation was buried deep within this nuclear stronghold. How tragic that such seismic news should be kept from the people of the world . . . pieces of history, now quickly dwindling into oblivion as the last of the secret-keepers passes on. In addition to its rich history of military service to our nation, Wright-Patterson also stands as the secret tomb of one of the greatest occurrences in recorded history. Be prepared . . . the real Area 51-Wright-Patterson's vault-is about to be opened. *UFO Secrets Inside Wright-Patterson* is a thoroughly researched work that includes: New eyewitness accounts from the late Leonard Stringfield's files about the crash retrieval evidence stored at Wright-Patterson New testimonies from the late Emmy-award-winning TV reporter Carl Day concerning physical evidence of crashed UFOs stored in underground facilities at Wright-Patterson Newly discovered Project Blue Book files from Wright-Patterson including photos and Air Force investigations of UFOs.

**The Resonance of Unseen Things** Susan Lepselter 2016-03-03 *The Resonance of Unseen Things* offers an ethnographic meditation on the "uncanny" persistence and cultural freight of conspiracy theory. The project is a reading of conspiracy theory as an index of a certain strain of late 20th-century American despondency and malaise, especially as understood by people experiencing downward social mobility. Written by a cultural anthropologist with a literary background, this deeply interdisciplinary book focuses on the enduring American preoccupation with captivity in a rapidly transforming world. Captivity is a trope that appears in both ordinary and fantastic iterations here, and Susan Lepselter shows how multiple troubled histories-of race, class, gender, and power-become compressed into stories of uncanny memory. "We really don't have anything like this in terms of a focused, sympathetic, open-minded ethnographic study of UFO experiencers. . . . The author's semiotic approach to the paranormal is immensely productive, positive, and, above all, resonant with what actually happens in history." -Jeffrey J. Kripal, J. Newton Rayzor Professor of Religion, Rice University "Lepselter relates a weave of intimate

alien sensibilities in out-of-the-way places which are surprisingly, profoundly, close to home. Readers can expect to share her experience of contact with complex logics of feeling, and to do so in a contemporary America they may have thought they understood." –Debbora Battaglia, Mount Holyoke College "An original and beautifully written study of contemporary American cultural poetics. . . . The book convincingly brings into relief the anxieties of those at the margins of American economic and civic life, their perceptions of state power, and the narrative continuities that bond them to histories of violence and expansion in the American West." –Deirdre de la Cruz, University of Michigan

Project Beta Greg Bishop 2005-02-08 The author of *Wake Up Down There!* describes how New Mexico physicist Paul Bennewitz was targeted by the government as part of a massive scheme of disinformation and covering up the real truth about UFOs. Original. 12,500 first printing.

**The Secret Space Program and Breakaway Civilization** Richard M. Dolan 2016-08-16 Is there a secret space program that is connected in some way to UFOs? In this booklet, historian Richard Dolan delves into this question, one of the most discussed in ufology today. Providing a wealth of data and context for the reader, he offers his own conclusion: yes, there is indeed such a program. But this program is not a simple extension of the normal operations of the U.S. government or military, much less of NASA. Instead, it seems to be the product of what Dolan has previously termed a "breakaway civilization," a radically advanced and increasingly separate structure that has access to classified science and data denied to the rest of us. Adapted from his classic lecture at the Secret Space Program and Breakaway Civilization conference in San Mateo, this is now offered as a volume in the Richard Dolan Lecture Series.

*UFOs* John B. Alexander, Ph.D. 2011-02-15 Foreword by Jacques F. Vallee Introduction by Burt Rutan Commentary by Tom Clancy A never-before-heard firsthand account of a government insider's experience on the cutting edge of UFO exploration While still on active duty in the U.S. Army during the 1980s, Colonel John B. Alexander, Ph.D., created an interagency group to explore the controversial topic of UFOs. Participants came from the Army, Navy, Air Force, CIA, NSA, DIA, and the aerospace industry. All members held Top Secret clearance. What they discovered was not at all what was expected. *UFOs* covers the numerous cases they saw, and answers questions like: • What was really in Hanger 18? • Did a UFO land at Holloman Air Force Base? • What happened at Roswell? • What is Majestic 12? • What is the Aviaary? • What does the government know about UFOs? • What has happened with disclosure in other countries? • Has the U.S. reverse engineered a UFO? • Why don't presidents get access to UFO info? *UFOs* is at once a complete account of Alexander's findings, and a call to action. There are no conspiracy theories here—only hard facts—but they are merely the beginning. Serious research is needed in order to understand and anticipate the workings of UFOs, and John Alexander is leading the charge.
