The Powers of Speech David Bathrick 1995-01-01 In this definitive study, David Bathrick examines East German culture both before and after the fall of the Berlin Wall in November 1989. Bathrick argues that dissident East German writers were unique among East European literary intellectuals in that they attempted “to open up alternative spaces for public speech from within [the] framework” of Marxism and state socialism. According to Bathrick, “the fact that some of them had been censored, hunted, questioned, and ridiculed does not belie the fact that they were also—and sometimes even simultaneously—privileged, nurtured, courted, and coddled. . . . It was precisely their function on ‘both sides’ of the power divide, as official and nonofficial voices within the whole, which defined a particular kind of intellectual in the GDR.” Bathrick applies his insights into this “particular kind of intellectual” to a wide range of topics. He compares oppositional culture in East Germany to radical cultures elsewhere,

examines the complex political and cultural relations of East and West Germany, traces the anguished history of the East German avant-garde, and describes the troubled effort to develop a revolutionary theatrical tradition in East Germany. The book also includes nuanced insights into the collapse of the East German political order in the late 1980s and more recent revelations about the collaboration of allegedly oppositional writers with the Stasi (state police). In his treatment of these and other issues, Bathrick enters hotly contested territory. Yet he brings clarity and scrupulous fairness to these issues that are still very much alive in Germany—and elsewhere—today.

A Map of Home Randa Jarrar 2008-09-02 Nidali, the rebellious daughter of an Egyptian-Greek mother and a Palestinian father, narrates the story of her childhood in Kuwait, her teenage years in Egypt (to where she and her family fled the 1990 Iraqi invasion), and her family's last flight to Texas. Nidali mixes humor with a sharp, loving portrait of an eccentric middle-class family, and this perspective keeps her buoyant through the hardships she encounters: the humiliation of going through a checkpoint on a visit to her

father's home in the West Bank; the fights with her father, who wants her to become a famous professor and stay away from boys; the end of her childhood as Iraq invades Kuwait on her thirteenth birthday; and the scare she gives her family when she runs away from home. Funny, charming, and heartbreaking, *A Map of Home* is the kind of book *Tristram Shandy* or *Huck Finn* would have narrated had they been born Egyptian-Palestinian and female in the 1970s.

From Prejudice to Destruction Jacob Katz 1980 Explores the social, political, and religious conditions that gave rise to the antisemitic movement and examines its growth and development in Germany, France, Austria, and Hungary

The Decline and Fall of the Habsburg Empire, 1815-1918 Alan Sked 2015-12-14 A new and revised edition of Alan Sked's groundbreaking book which examines how the Habsburg Empire survived the revolutionary turmoil of 1848. 'The Year of Revolutions', saw the whole of Europe convulsed in turmoil and revolt. Yet the Habsburg Empire survived. As state after state succumbed to the violent winds of change that were sweeping the continent. How did the Habsburg Empire survive? How was the army able hold together while the rest of the empire collapsed in civil war, and how was it able to seize the political initiative In this new edition, Alan Sked reflects on the changed understanding of the period which resulted from the first appearance of this book, and widens the discussion to look at the Habsburg Empire alongside the decline of the Russian and German Empires, arguing that it is possible to understand their decline from a broad European perspective, as opposed to the overly narrow focus of recent explanations. Alan Sked makes us look at familiar events with new eyes in this radical, vigorously written classic which is essential reading for anyone interested in the history of nineteenth-century Europe.

Bücherei des Deutschen Ostens: Böhmisches Länder, Südosteuropa Bücherei des Deutschen Ostens (Herne, Arnsberg, Germany) 1982

Rembrandt as Educator JULIUS. LANGBEHN 2018-11 This seminal work of Volkisch thought from the late 19th century is an early representative of the Conservative Revolution, and offers a subtle and detailed analysis of the North German character during the Wilhelmine Period, arguing for a return to the natural aristocratic ethos as a means to combat the evils of cosmopolitan democratic culture.

Citizens of Nowhere Lorenzo Marsili 2018-05-15 Europe might appear like a continent pulling itself apart. Ten years of economic and political crises have pitted North versus South, East versus West, citizens versus institutions. And yet, these years have also shown a hidden vitality of Europeans acting across borders, with civil society and social movements showing that alternatives to the status quo already exist. This book is at once a narrative of the experience of activism and a manifesto for change. Through analysing the ways in which neoliberalism, nationalism and borders intertwine, Marsili and Milanese – co-founders of European Alternatives – argue that we are in the middle of a great global transformation, by which we have all become citizens of nowhere. Ultimately, they argue that only by organising in a new

transnational political party will the citizens of nowhere be able to struggle effectively for the utopian agency to transform the world.

One Year on a Bike Martijn Doolaard 2017 "Martijn Doolaard traded in the convenience of a car and the distractions of daily life for a cross-continental cycling journey: a biped adventure from Amsterdam to Singapore. Leaving behind repetitive routines, *One Year on a Bike* indulges in slow travel, the subtlety of a gradually changing landscape, and the lessons learned through travelling. Venturing through Eastern European fields of yellow rapeseed to the intimate hosting culture in Iran, *One Year on a Bike* is a vivid chronicle of what can happen when the norm is pointedly replaced by exceptional self-discoveries and beautiful sceneries. Doolaard shares the gear and knowledge that made his trip possible." -- Provided by publisher.

The Skin of the System Benjamin Robinson 2009-09-28 *The Skin of the System* objects to the idea that there is only one modernity—that of liberal capitalism. Starting from the simple conviction that whatever else East German socialism was, it was real, this book focuses on what made historical socialism different from social systems in the West. In this way, the study elicits the general question: what must we think in

order to think an other system at all? To approach this question, Robinson turns to the remarkable writer Franz Fühmann, the East German who most single-mindedly dedicated himself to understanding what it means to transform from fascism to socialism. Fühmann's own serial loyalties to Hitler and Stalin inform his existential meditations on change and difference. By placing Fühmann's politically alert and intensely personal literary inventions in the context of an inquiry into radical social rupture, *The Skin of the System* wrests the brutal materiality of twentieth-century socialism from attempts to provincialize both its desires and its failures as antimodern ideological follies.

The People's State Mary Fulbrook 2008-12-02 What was life really like for East Germans, effectively imprisoned behind the Iron Curtain? The headline stories of Cold War spies and surveillance by the secret police, of political repression and corruption, do not tell the whole story. After the unification of Germany in 1990 many East Germans remembered their lives as interesting, varied, and full of educational, career, and leisure opportunities: in many ways “perfectly ordinary lives.” Using the rich resources of the newly-

opened GDR archives, Mary Fulbrook investigates these conflicting narratives. She explores the transformation of East German society from the ruins of Hitler's Third Reich to a modernizing industrial state. She examines changing conceptions of normality within an authoritarian political system, and provides extraordinary insights into the ways in which individuals perceived their rights and actively sought to shape their own lives. Replacing the simplistic black-and-white concept of "totalitarianism" by the notion of a "participatory dictatorship," this book seeks to reinstate the East German people as actors in their own history.

Peter Moor's Journey to Southwest Africa Gustav Frenssen 1914

The Unwritten Order Peter Longerich 2016-08-01 The fact that the Holocaust was the result of conscious decisions made by the highest levels of the Third Reich has been under-emphasized. Although it would be a mistake to put the murder of the Jews down to Hitler's will alone, it is time to make clear that Hitler was the driving force behind radicalization of the National Socialist policy of extermination. Without Hitler there would be no Holocaust. This book offers documentary proof of Hitler's central role in the murder of European Jews. Various documents and fragments of documents have been pieced together and the codified language of the dictator has been deciphered."

Bertolt Brecht's Me-ti Bertolt Brecht 2016-07-14 Bertolt Brecht's Me-ti, which remained unpublished in his own lifetime, now appears for the first time in English. Me-ti counselled against 'constructing too complete images of the world'. For this work of fragments and episodes, Brecht accumulated anecdotes, poems, personal stories and assessments of contemporary politics. Given its controversial nature, he sought a disguise, using the name of a Chinese contemporary of Socrates, known today as Mozi. Stimulated by his humorous aphoristic style and social focus, as well as an engrained Chinese awareness of the flow of things, Brecht developed a practical, philosophical, anti-systematic ethics, discussing Marxist dialectics, Lenin, Hitler, Stalin, the Moscow trials, and the theories behind current events, while warning how ideology makes people the 'servants of priests'. Me-ti is central to an understanding of Brecht's critical reflections on Marxist dialectics and his commitment to change and the non-eternal, the philosophy which informs much of his writing and his most famous plays, such as The Good Person of Szechwan. Readers

will find themselves both fascinated and beguiled by the reflections and wisdom it offers. First published in German in 1965 and now translated and edited by Antony Tatlow, Brecht's *Me-ti: Book of Interventions in the Flow of Things* provides readers with a much-anticipated accessible edition of this important work. It features a substantial introduction to the concerns of the work, its genesis and context - both within Brecht's own writing and within the wider social and political history, and provides an original selection and organisation of texts. Extensive notes illuminate the work and provide commentary on related works from Brecht's oeuvre.

The African American Experience Salman Akhtar 2012-06-21 **The African American Experience: Psychoanalytic Perspectives** edited by Salman Akhtar brings together the contributions of distinguished mental health professionals and scholars of humanities to offer a multifaceted perspective on the transgenerational trauma of slavery, the hardship of single parent families, the ruthlessness of anti-black racism, and the crushing burden of poverty and social disenfranchisement on the African American individual. The book also sheds light on the resilience of spirit, the dignity of perseverance, and the glow of talent that is widespread in this group. It contains penetrating and informative biographical essays on Martin Luther King, Jr., Malcolm X, Mohammad Ali, Barack Obama, and Oprah Winfrey. Such discourse on human greatness is balanced by the considerations of daily joy and anguish on clinical and societal levels. This wide-ranging and nuanced volume on the history, culture, and psychosocial struggles of African American people fills an important gap in the literature on psychotherapy and psychoanalysis.

Heimat - A German Dream Elizabeth Boa 2000-09-21 The discourse of Heimat, meaning homeland or roots, has been a medium of debate on German identity between region and nation for at least a century. Four phases parallel Germany's discontinuous history: Heimat literature as a response to modernization and to regional tensions before the First World War; the inter-war period when Heimat divided into racist ideology, left-wing opposition, and inner resistance to the Third Reich; a post-war dialectic between escapist 1950s Heimat films and right-wing claims to the lost lands in the East to which anti-Heimat theatre and films in the 1960s and 1970s were a response, with the urban Heimat in GDR films adding a socialist twist; regionalism and green politics in the 1980s and German identity beyond Cold War divisions. A key point of reference in current debates on German history, Heimat looks likely to continue in postmodern and multicultural mode.

Heimat Goes Mobile Gabriele Eichmanns 2013-07-26 Heimat has been a crucial concept for the construction of identity in the German-speaking world. Seemingly impossible to translate, Heimat has served to describe feelings of comfort and belonging that are traditionally tied to a specific location, be it one's place of birth or childhood home. Yet, in a world characterized by ever increasing global influences and a fast-paced lifestyle, the notion of Heimat as a static, inflexible and rather exclusionary idea is becoming more and more obsolete and is giving way to new hybrid Heimat forms that encompass traditional as well as foreign elements. Thus, Heimat can no longer be perceived as a solely German concept but is rapidly merging binary opposites, shaping Germans' understandings of home in new and unexpected ways. The nine essays in this anthology explore these hybrid forms of Heimat in our globalized world from multiple angles. Some take a look at traditional genres of Heimat like the Heimatfilm or Heimatroman and examine how contemporary filmmakers (Tom Tykwer, Fatih Akın) and authors (Hans-Ulrich Treichel, Hugo Loetscher) have appropriated those genres to arrive at an updated version of Heimat in the 21st century. Other articles focus on gendered readings of Heimat and show how Mo Asumang's *Roots Germania* and Ula Stöckl's *Das alte Lied* emancipate the term from its nurturing, motherly qualities and instead provide women—including women of color—with powerful agency. Finally, contributors explore Heimat in the regional and historical contexts of East and West Germany, Switzerland

and Romania. In the process, this anthology inscribes itself into the ongoing discourse on Heimat and enriches it by showing how the current notion of Heimat transcends traditional boundaries of nation, culture and race.
