Nowhere for Very Long Brianna Madia 2022-04-05 NEW YORK TIMES BESTSELLER • WALL STREET JOURNAL BESTSELLER • USA TODAY! BESTSELLER In this beautifully written, vividly detailed memoir, a young woman chronicles her adventures traveling across the deserts of the American West in an orange van named Bertha and reflects on an unconventional approach to life. A woman defined by motion, Brianna Madia bought a beat-up bright orange van, filled it with her two dogs Bucket and Dagwood, and headed into the canyons of Utah with her husband. *Nowhere for Very Long* is her deeply felt, immaculately told story of exploration—of the world outside and the spirit within. However, pursuing a life of intention isn't always what it seems. In fact, at times it was downright boring, exhausting, and even desperate—when Bertha overheated and she was forced to pull over on a lonely stretch of South Dakota highway; when the weather was bitterly cold and her water jugs froze beneath her as she slept in the parking lot of her office; when she worried about money, her marriage, and the looming question mark of her future. But Brianna was committed to living a life true to herself, come what may, and that made all the difference. *Nowhere for Very Long* is the true story of a woman learning and unlearning, from backroads to breakdowns, from married to solo, and finally, from lost to found to lost again . . . this time, on purpose.

The Eagle and the Dragon Serge Gruzinski 2014-12-23 In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were

different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.

Monkeys on the Road Mary Hollendoner 2021-12 After a decade in the corporate rat race, Mary was ready for a change. Too much stress and not enough time with her family left her feeling that her priorities were all wrong. So she and her husband quit their jobs, pulled their six-year-old daughter out of school, and moved into an old camper van. They planned to take a year off to drive south in search of a simpler life. What followed were three and a half years of heart-warming personal encounters, breath-taking wilderness campsites, and occasionally terrifying situations? ...In Mexico, an angry mob surrounded them on a remote road and threatened them with rocks, but just a few hours later, a local family welcomed them into their home, sharing everything they had. ...While barreling down the highway in Colombia, their van's battery exploded, filling their home-on-wheels with noxious fumes. Then the engine died entirely while parked in no-man's-land between Ecuador and Peru, leaving them stranded for a month in a tiny border town. ...They learned first-hand about South American politics when they got caught among thousands of Venezuelan refugees trying to cross the Colombian border, and again when a revolution erupted around them in Bolivia and trapped them in the capital city among protests and road blocks. Join them on these and other adventures in this feel-good read about a family trying to find their place in the world.

Reclaiming Our Health Michelle A. Gourdine 2011-04-26 “An interactive and empowering book” to help African American men and women create a new vision of better health and navigate the health care system (BET.com). According to the federal Office of Minority Health, African Americans “are affected by serious diseases and health conditions at far greater rates than other Americans.” In fact, African Americans suffer an estimated 85,000 excess deaths every year from diseases we know how to prevent: heart disease, stroke, cancer, high blood pressure, and diabetes. In this important and accessible book, Dr. Michelle Gourdine provides African Americans with the knowledge and guidance they need to take charge of their wellbeing. *Reclaiming Our Health* begins with an overview of the primary health concerns facing African Americans and explains who is at greatest risk of illness. Expanding on her career and life experiences as an African American physician, Dr. Gourdine presents key insights into the ways African American culture shapes health choices—how beliefs, traditions, and values can influence eating choices, exercise habits, and even the decision to seek medical attention. She translates extensive research into practical information and presents readers with concrete steps for achieving a healthier lifestyle, as well as strategies for navigating the health-care system. This interactive guide with illustrations is a vital resource for every African American on how to live a healthier and more empowered life, and an indispensable handbook for health-care providers, policy makers, and others working to close the health gap among people of color. Says Gourdine, “I wrote this book to empower our community to solve our own health problems and save our own lives.”

Social Capital Joonmo Son 2020-05-11 Social capital is a principal concept across the social sciences and has readily entered into mainstream discourse. In short, it is popular. However, this popularity has taken its toll. Social capital suffers from a lack of consensus because of the varied ways it is measured, defined, and deployed by different researchers. It has been put to work in ways that stretch and confuse

its conceptual value, blurring the lines between networks, trust, civic engagement, and any type of collaborative action. This clear and concise volume presents the diverse theoretical approaches of scholars from Marx, Coleman, and Bourdieu to Putnam, Fukuyama, and Lin, carefully analyzing their commonalities and differences. Joonmo Son categorizes this wealth of work according to whether its focus is on the necessary preconditions for social capital, its structural basis, or its production. He distinguishes between individual and collective social capital (from shared resources of a personal network to pooled assets of a whole society), and interrogates the practical impact social capital has had in various policy areas (from health to economic development). Social Capital will be of immense value to readers across the social sciences and practitioners in relevant fields seeking to understand this mercurial concept.

That was until I met Frankie, a wanderlust with a big heart who was ready to explore the world and wanted me by his side. With his dream and my organization skills, a year later we had sold everything we owned, gave notice on our apartment, moved into our self-converted van and hit the road. 20,000+ miles later, through so much trial and error, we are experts at living a nomadic life. We share our successes, struggles and setbacks weekly on our YouTube channel and interview other thriving nomads on our podcast (FnA Van Life). We've traveled pre and post-pandemic so can share how life on the road has changed, but how it is still the best way to live and travel that we've ever found. First, I'll guide you through the planning stages of van life. Things you can work on while you're still at your job like defining your dreams, downsizing, finding your rig, and building a tiny home on wheels. Then we'll hit the road and all your burning questions about where to sleep, how to camp for free, where to get internet, how to earn money, and so much more will be answered in detail with real-life examples from my own travels and experiences living a nomadic life. Economy and State Nina Bandelj 2013-05-08 Should governments be involved in economic affairs?

Challenging prevailing wisdom about the benefits of self-regulating markets, Nina Bandelj and Elizabeth Sowers offer a uniquely sociological perspective to emphasize that states can never be divorced from economy. From defining property rights and regulating commodification of labor to setting corporate governance standards and international exchange rules, the state continuously manages the functioning of markets and influences economic outcomes for individuals, firms and nations. The authors bring together classical interventions and cutting-edge contemporary research in economic sociology to discuss six broad areas of economy/state connection: property, money, labor, firms, national economic growth, and global economic exchange. A wealth of empirical examples and illustrations reveals that even if the nature of state influence on economy varies across contexts, it is always dependent on social forces. This accessible and engaging book will be essential reading for upper-level students of economic sociology, and those interested in the major economic dilemmas of our times. .

Van Life Sarah L. Leamy 2016-11-18 The housesitter backed out only days before the planned departure, so Little Stevie would be coming with them after all. Three months, two dogs, and one cat: What could go wrong? With her two friendly pups, and a somewhat feral cat called Stephen, Sarah explored the backroads of the Northwest. Passing through Colorado, Wyoming, Montana, Idaho, Washington and Oregon, this little family stumbled across little rural villages, lakes aplenty, and many a microbrewery, chatting to the locals along the way. Sarah's stories remind us of Bill Bryson, The Tao of Pooh, and Blue Highways, in a unique blend of anecdotes of the people met, historical facts, and aided by just a little imagination. Sarah Leamy is an award winning novelist, a freelance travel writer, and photographer.

Machine Habitus Massimo Airoidi 2021-12-13 We commonly think of society as made of and by humans, but with the proliferation of machine learning and AI technologies, this is clearly no longer the case. Billions of automated systems tacitly contribute to the social construction of reality by drawing algorithmic distinctions between the visible and the invisible, the relevant and the irrelevant, the likely and the unlikely – on and beyond platforms. Drawing on the work of Pierre Bourdieu, this book develops an original sociology of algorithms as social agents, actively participating in social life. Through a wide range of examples, Massimo Airoidi shows how society shapes algorithmic code, and how this culture in the code guides the practical behaviour of the code in the culture, shaping society in turn. The ‘machine habitus’ is

the generative mechanism at work throughout myriads of feedback loops linking humans with artificial social agents, in the context of digital infrastructures and pre-digital social structures. Machine Habitus will be of great interest to students and scholars in sociology, media and cultural studies, science and technology studies and information technology, and to anyone interested in the growing role of algorithms and AI in our social and cultural life.
