Kasher in the Rye Moshe Kasher 2012-03-28 Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Twelve Years a Slave Solomon Northup 2021-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Guide to Data-Centric System Threat Modeling National Institute National Institute of Standards and Technology 2016-03-31 NIST SP 800-154 March 2016 Threat modeling is a form of risk assessment that models aspects of the attack and defense sides of a particular logical entity, such as a piece of data, an application, a host, a system, or an environment. This publication examines data-centric system threat modeling, which is threat modeling that is focused on protecting particular types of data within systems. The publication provides information on the basics of data-centric system threat modeling so that organizations can successfully use it as

part of their risk management processes. The general methodology provided by the publication is not intended to replace existing methodologies, but rather to define fundamental principles that should be part of any sound data-centric system threat modeling methodology. Why buy a book you can download for free? First you gotta find it and make sure it's the latest version (not always easy). Then you gotta print it using a network printer you share with 100 other people - and its outta paper - and the toner is low (take out the toner cartridge, shake it, then put it back). If it's just 10 pages, no problem, but if it's a 250-page book, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. An engineer that's paid \$75 an hour has to do this himself (who has assistant's anymore?). If you are paid more than \$10 an hour and use an ink jet printer, buying this book will save you money. It's much more cost-effective to just order the latest version from Amazon.com This book is published by 4th Watch Books and includes copyright material. We publish compact, tightly-bound, full-size books (8 ♦ by 11 inches), with glossy covers. 4th Watch Books is a Service Disabled Veteran-Owned Small Business (SDVOSB), and is not affiliated with the National Institute of Standards and Technology. From Dope to Hope Kevin Hodge 2012-05-22 An expose of a life dramatically changed by the power of God. From Dope to Hope raises the conscious level of its readers while taking them on a journey. The prophet Ezekiel raised an intriguing question: “Can these bones live?” (Ezekiel 37:3). The Rev. Kevin Hodge is a radiant testimony to the fact that dead bones can live when the power of the Almighty God is at work. His book, From Dope to Hope penetrates the hearts of people from all walks of life. The Rev. Kevin Hodge is to be highly commended for his willingness to be transparent. Within From Dope to Hope, such transparency serves as a literary agent that liberates those in captivity for the glory of God’s kingdom. His testimony illustrates to the world abroad regarding the power and depth of the gospel of Jesus Christ. The acronym HOPE is “Hearing Other People’s Experiences.” From Dope to Hope is a profound and provocative testament that illustrates to the hopeless that the hand of our mighty God is not too short to save (Isaiah 59:1). From Dope to Hope is a must-read, especially for those in dire need of encouragement ... “For such a time as this!” —Rev. Dr. J. G. McCann, Sr.

When those who lost the money try to take it back, Allison starts to realize she's stumbled into something far worse than she imagined. To make it through, she'll have to run a gauntlet of corrupt politicians, hired thugs, a sociopathic dog-catcher, a foul-mouthed mob hit man and a pearly-toothed televangelist. Marginalised Communities in Higher Education Neil Harrison 2021 "Drawing on examples from nine countries across five continents, this book offers anyone interested in the future of higher education the opportunity to understand how communities become marginalised and how this impacts on their access to learning and their ability to thrive as students. Focusing on groups that suffer directly through discriminatory practices or indirectly through distinct forms of sociocultural disadvantage, this book brings to light communities about which little has been written and where research efforts are in their relative infancy. Each chapter documents the experiences of a group and provides insights that have a wider reach and gives voice to those that are often unheard. The book concludes with a new conceptualisation of the social forces that lead to marginalisation in higher education. This cutting-edge book is a must read for higher education researchers, policy makers, and students interested in access to education, sociology of education, development studies, and cultural studies"--
