Vietnam's Children in a Changing World Rachel Burr 2006-03-24 Like the majority of children living in the global South today, a large number of Vietnamese youths work to help support their families. International human rights organizations have focused on these children, seeking to bring their lives into line with an understanding of childhood that is generally accepted in the developed world. In this ethnographic study, Rachel Burr draws on her daily observations of working children in Hanoi and argues that these youngsters are misunderstood by the majority of agencies that seek to help them. Most aid programs embrace a model of childhood that is based on Western notions of individualism and bountiful resources. They further assume that this model is universally applicable even in cultures that advocate a collective sense of self and in countries that do not share the same economic advantages. Burr presents the voices and experiences of Vietnamese children in the streets, in a reform school, and in an orphanage to show that workable solutions have become lost within the rhetoric propagated by aid organizations. The reality of providing primary education or adequate healthcare for all children, for instance, does not stand a chance of being achieved until adequate resources are put in place. Yet, organizations preoccupied with the child rights agenda are failing to acknowledge the distorted global distribution of wealth in favor of Western nations. Offering a unique, firsthand look at the experiences of children in contemporary Vietnam, this book also provides a broad analysis of how internationally led human rights agendas are often received at the local level.

Tourism, Diasporas and Space Tim Coles 2004-08-02 Diasporas result from the scattering of populations and cultures across geographical space and time. Transnational in nature and unbounded by space, they cut across the static, territorial boundaries more usually deployed to govern tourism. In a vibrant inter-disciplinary collection of essays from leading scholars in the field, this book introduces the main features and constructs of diasporas, and explores their implications for the consumption, production and practices of tourism. Three sets of mutually reinforcing relationships are explored: experiences of diaspora tourists the settings and spaces of diaspora tourism the production of diaspora tourism. Addressing the relationship between diasporic groups and tourism from both a consumer and producer perspective, examples are drawn from a wide spectrum of diasporic groups including the Chinese, Jewish, Southeast Asian, Croatian, Dutch and Welsh. Until now, there has been no systematic and detailed treatment of the relationships between diasporas, their consumptions and the tourist experience. However, here, Coles and Timothy provide a unique navigation of the nature of these inter-connections which is ideal for students of tourism, sociology, cultural studies.

Walk Through the Valley: The Spiritual Journey of a Vietnam War Medic Bruce McDaniel 2016-02-17 "In ways that I could not yet imagine, being at war would challenge my beliefs, confirming some and forcing me to rethink others, and being a veteran would forever affect and enrich my relationships with other people. On that March night in 1968 I did not yet understand that if I lived through my year in Vietnam a coming home process would follow, one that would continue a lifelong spiritual journey ..."--Back cover.

The American War in Contemporary Vietnam Christina Schwenkel 2009-07-13 Christina Schwenkel's absorbing study explores how the "American War" is remembered and commemorated in Vietnam today -- in official and unofficial histories and in everyday life. Schwenkel analyzes visual representations found in monuments and martyrs' cemeteries, museums, photography and art exhibits, battlefield tours, and related sites of "trauma tourism." In these transnational spaces, American and Vietnamese memories of the war intersect in ways profoundly shaped by global economic liberalization and the return of American citizens as tourists, pilgrims, and philanthropists.

Captured: An American Prisoner of War in North Vietnam (Scholastic Focus) Alvin Townley 2019-03-26 Alvin Townley, a critically acclaimed author of adult nonfiction, delivers a searing YA debut about American POWs during the Vietnam War. Naval aviator Jeremiah Denton was shot down and captured in North Vietnam in 1965. As a POW, Jerry Denton led a group of fellow American prisoners in withstanding gruesome conditions behind enemy lines. They developed a system of secret codes and covert communications to keep up their spirits. Later, he would endure torture and long periods of solitary confinement. Always, Jerry told his fellow POWs that they would one day return home together. Although Jerry spent seven and a half years as a POW, he did finally return home in 1973 after the longest and harshest deployment in US history. Denton's story is an extraordinary narrative of human resilience and endurance. Townley grapples with themes of perseverance, leadership, and duty while also deftly portraying the deeply complicated realities of the Vietnam War in this gripping narrative project for YA readers.

The Destruction of the Soviet Union D. Lockwood 2000-03-02 Is there a link between the collapse of the Soviet Union, the radical reforms in China and Vietnam, and the current crisis in East Asia? David Lockwood argues that the common factor in each is the crisis of state-controlled economies, besieged by the developing forces of globalization. This book examines the collapse of the Soviet Union not as the 'end of history', or the beginning of a 'new world order', but as an illustration of processes that are taking place the world over. The author concludes that it was globalization that brought down the communist system. Globalization continues to threaten state-controlled economies - from the remaining 'socialist' state to the NICs of East Asia.

Lyndon Johnson and Vietnam Herbert Y. Schandler 2014-07-14 This book examines the events that led up to the day--March 31, 1968--when Lyndon Johnson dramatically renounced any attempt to be reelected president of the United States. It offers one of the best descriptions of U.S. policy surrounding the Tet offensive of that fateful March--a historic turning point in the war in Vietnam that led directly to the end of American military intervention. Vietnam Joins the World: American and Japanese Perspectives James Morley 2016-09-16 Ten American and Japanese specialists offer a comprehensive analysis of one of the most dramatic developments in Asia today: the re-emergence of Vietnam - not as the belligerent champion of a militant ideology and socialist cause, but as an open, friendly country seeking a respected place in the world community. Basing their observations on five years of study, visits to Vietnam, and numerous interviews with knowledgeable officials, scholars and businessmen there and in the United States and Japan, the authors evaluate the political, economic, social and foreign policy changes that have been taking place in Vietnam over the past decade, trace the responses of the United States and Japan and offer a policy prescription for responding to the challenges of the future.

Vietnam, Now David Lamb 2008-08-06 When he left war-ravaged Vietnam some thirty years ago, journalist David Lamb averred "I didn't care if I ever saw the wretched country again." But in 1997, he found himself living in Hanoi, in charge of the Los Angeles Times's first peacetime bureau and in the midst of a country on the move, as it progresses toward a free-market economy and divorces itself from the restrictive, isolationist policies established at the end of the war. This was a new country; in *Vietnam, Now*, David Lamb brings it--and us--forward from its dark, distant past. From the myriad personalities entwined in the dark, distant history

of the war to those focused toward the future, Lamb reveals a rich and culturally diverse people as they share their memories of the country's past, and their hopes for a peacetime future. A portrait of a beautiful country and a remarkable, determined people, Vietnam, Now is a personal journey that will change the way we think of Vietnam, and perhaps the war as well.

The First Atomic Bomb Jim Mangi 2022-07-30 While German and Japanese scientists also laboured unsuccessfully to create an atomic bomb, by the summer of 1945, the American-led team was ready to test its first weapon. As the clock ticked down to the detonation time of 05.30 hours on 16 July 1945, the nervous team of technicians and scientists waited ten miles away from 'Ground Zero' deep in the New Mexico desert. No one knew how powerful the explosion would be or whether even at such a distance they would be safe from the blast. Even so, some chose to observe the detonation from a point four miles nearer at the control bunker; but then no one was even sure that the bomb would work. What if that is actually what happened? Under schedule pressure from the White House, the scientists assembled the device in part with tape and tissue paper, knowing some components were flawed. These are verifiable facts. It means that, as many of those who gathered in the New Mexico desert feared at the time, the bomb might not have worked during that first test. In *The First Atomic Bomb*, Jim Mangi explores what might happened in the event that the world's first atomic bomb had not been ready for use when it was. How would this have affected the end of the war in the Pacific, and indeed the Second World War as a whole? Would Emperor Hirohito's armed forces have battled on? When might Colonel Paul W. Tibbets, at the controls of his Boeing B-24 Superfortress Enola Gay have then made his historic flight over Hiroshima – and would that city even have remained the target? How

would Stalin and the Soviets have reacted to such developments, and how would this have played out in the post-war world?

War and Media Andrew Hoskins 2013-04-23 The trinity of government, military and publics has been drawn together into immediate and unpredictable relationships in a "new media ecology" that has ushered in new asymmetries in the waging of war and terror. To help us understand these new relationships, Andrew Hoskins and Ben O'Loughlin here provide a timely, comprehensive and highly readable survey of the field of war and media. War is diffused through a complex mesh of our everyday media. Paradoxically, this both facilitates and contains the presence and power of enemies near and far. The conventions of so-called traditional warfare have been splintered by the availability and connectivity of the principal locus of war today: the electronic and digital media. Hoskins and O'Loughlin identify and illuminate the conditions of what they term "diffused war" and the new challenges it raises for the actors who wage and counter warfare, for their agents and mechanisms of the new media and for mass publics. This book offers an invaluable review of the key literature and presents a fresh approach to the understanding of the dynamic relationships between war and media. It will be welcomed by a broad range of students taking courses on war and media and related modules, especially in media, communication and cultural studies, politics and international relations, sociology, journalism, and security studies.

Vietnam, I Love You Tom Lee 2011-11-21 Doctor Jimmy Capri was anxious. Doctor Maureen Mo Lally had coerced him into presenting their paper at a military medical meeting in Hanoi. He feared that returning to Vietnam would unmask the post traumatic stress disorder, PTSD that he suffered from his first tour at First Marines First Medical Battalion in Da Nang and that he had managed to submerge for over thirty-five years. The memories that had lain dormant did surface, including being shot and the details of his love affair with Mai Nguyen, a nurse at WHO Children's Hospital. What he didn't anticipate from his short stay in Vietnam, was a new love.

Buddhism and Politics in Twentieth Century Asia Ian Harris 2010-07-15 In this study, a team of international scholars assess the manner in which Buddhist organizations and individuals have resisted, come to terms with,

or in some cases allied themselves with the forces of war, modernity, westernization, nationalization, capitalism, communism, and ethnic conflict. By examining issues such as left-right divisions in the monastic order, the rise of organized lay movements, Buddhist social activism, as well as explicitly Buddhist inspired political activity, this book seeks to demonstrate that the emphasis on meditation and mental training is only one strand in this richly complex world historical tradition.
