Learner-Based Teaching - Resource Books for Teachers Colin Campbell 2013-09-27
The book provides seventy language practice activities which use the wealth of knowledge, experience, and expertise that learners bring with them to the classroom.

Exploring Vocabulary Dee Gardner 2013-08-15 Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics, primarily designed for those beginning postgraduate studies, or taking an introductory MA course as well as advanced undergraduates. Titles in the series are also ideal for language professionals returning to academic study. The books take an innovative 'practice to theory' approach, with a 'back-to-front' structure. This leads the reader from real-world problems and issues, through a discussion of intervention and how to engage with these concerns, before finally relating these practical issues to theoretical foundations. Additional features include tasks with commentaries, a glossary of key terms, and an annotated further reading section. Vocabulary is the foundation of language and language learning and as such, knowledge of how to facilitate learners' vocabulary growth is an indispensable teaching skill and curricular component. Exploring Vocabulary is designed to raise teachers' and students' awareness of the interplay between the linguistic, psychological, and instructional aspects of vocabulary acquisition. It focuses on meeting the specific vocabulary needs of English language learners in whatever instructional contexts they may be in, with a special emphasis on addressing the high-stakes needs of learners in academic settings and the workplace. Dee Gardner also introduces a new Common Core Vocabulary, constructed from two of the most well-known and contemporary corpora of English—the British National Corpus and the Corpus of Contemporary American English. Exploring Vocabulary is an essential book for undergraduate and postgraduate students studying vocabulary within Applied Linguistics, TESOL, or Teacher Education, as well as any teacher working with English language learners.

The Q Book J Morgan 2004 A teacher's resource book containing a collection of

activities centered on giving language learning students interactive classroom practice in the structure and use of questions.

Vocabulary John Morgan 1986

Thinking Theologically about Language Teaching Cheri L. Pierson 2017-08-31 Christians can often overlook the need to bring their daily vocations in accord with the reality created, sustained, and purposed through Christ. This is no less true for language teachers, who find themselves at a difficult interdisciplinary crossroads where the paths of linguistics, culture and education merge. This challenge should not discourage these educators, but instead aid them in their journey to form a pedagogy rooted in theological truths from Scripture, one that provides a nuanced approach that glorifies God in a manner specific to the language classroom. The contributors of this book outline why and how theology must inform teaching methods so that Christian language educators might better serve their students with both faith and excellence, thereby pointing them to the communicative God whose image they bear.

Spoken Language and Applied Linguistics Michael McCarthy 1998-12-03 This book argues for putting spoken language at the centre of the syllabus.

Teaching Other Subjects Through English – Resource Books for Teachers Sheelagh Deller 2013-01-10 CLIL (Content and Language Integrated Learning) has attracted great interest in recent years, especially in Europe but increasingly more widely in the world. More Grammar Games Rinvoluceri 1995 Cognitive, affective and drama activities for EFL students This resource book for teachers contains an exciting collection of activities which present and practise vital grammatical content in an original way. Each game is clearly introduced with a summary specifying the area of grammar to be practised, the level it is aimed at, the time required and the material needed. The activity is then presented using a step-by-step approach.

Georgetown University Round Table on Languages and Linguistics (GURT) 1991: Linguistics and Language Pedagogy James E. Alatis 1992-04-01

Establishing Predominance of English for Specific Purposes within Adult English Language Teaching Nijolė Burkšaitienė 2019-01-22 English for Specific Purposes (ESP) has accumulated substantial tradition in practice, research and theory. It is a common approach in English Language Teaching (ELT) among adults today, starting with high schools, then in academia, pre and in-service training, and life-long learning programs. The role of ESP in each of these is to facilitate work in today's inevitably international business and scientific environment. It provides language training based on the precise simulation of communicative situations found in the surroundings for which learners are preparing, including, for example, domain specific vocabulary, syntactic and morphological structures, text and speech content structuring, stylistics, intercultural competence. At present, when English is present either as a foreign or second

language, learning General English (GE) is to a large degree accomplished before learners start needing English for their jobs. In this way, ESP does not complete GE, but builds upon the foundations laid by it in learners' prior education. ESP is a channel of communication for the contemporary academia and economics. However, even so, these are still early days for ESP, as it does not yet have a recognised place within academia. Only very recently have we begun to witness the occasional but encouraging emergence of ESP academic courses and departments. This book thus explores practice and research conducted and under way in this field of ELT in order to assist its recognition as an autonomous academic discipline.

Debrett's New Guide to Etiquette and Modern Manners John Morgan 2007-04-01 There is no better time than now for a definitive guide to contemporary

civilized living. As traditional codes of behavior have given way to an increasingly informal society, many people are disconcerted by the current lack of guidelines. The established rules are as important as ever, but need adaptation for the complications and developments of the twenty-first century. The Debrett's New Guide to Etiquette and Modern Manners cuts through the confusion to combine the very best of traditional standards of conduct with acceptable modern innovations. Packed with no-nonsense step-by-step advice, it covers everything from basic table manners to how to equip yourself at the grandest royal and diplomatic gatherings. Written with clarity and wit, this book celebrates the charm, beauty, and fascination of classic good manners, and their enduring role in a civilized society.

Storybuilding - Resource Books for Teachers Jane Spiro 2013-07-15 This very popular series gives teachers practical advice and guidance, together with resource ideas and materials for the classroom.
