Political Parties Richard Gunther 2002-03-07 This book, with contributions from leading scholars in the field, presents a critical overview of much of the recent literature on political parties. It systematically assesses the capacity of existing concepts, typologies, and methodological approaches to deal with contemporary parties. It critically analyses the 'decline of parties' literature both from a conceptual perspective and - with regard to antiparty attitudes among citizens - on the basis of empirical analyses of survey data. It systematically re-examines the underpinnings of rational-choice analyses of electoral competition, as well as the misapplication of standard party models as the 'catch-all party.' Several chapters reexamine existing models of parties and party typologies, particularly with regard to the capacity of commonly used concepts to capture the wide variation among parties that exist in old and new democracies today, and with regard to their ability to deal adequately with the new challenges that parties are facing in rapidly changing political, social and technological environments. In particular, two detailed case studies demonstrate how party models are significant not only as frameworks for scholarly research, but also insofar as they can affect party performance. Other chapters also examine in detail how corruption and party patronage have contributed to party decline, as well as the public attitudes towards parties in several countries. In the aggregate, the various contributions to this volume reject the notion that a 'decline of party' has progressed to such an extent as to threaten the survival of parties as the crucial intermediary actors in modern democracies. The contributing authors argue, however, that parties are facing a new set of sometimes demanding challenges. Not only have parties differed significantly in their ability to successfully meet these challenges, but the core concepts, typologies, party models and methodological approaches that have guided research in this area over the past 40 years have met with only mixed success in adequately capturing these recent developments and serving as fruitful frameworks for analysis. This book is intended to remedy some of these shortcomings.

Borderlands Orientalism or How the Savage Lost his Nobility Dominik Gutmeyr 2017 In Russia's cultural memory, the Caucasus is a potent point of reference, to which many emotions, images, and stereotypes are attached. The book gives a new reading of the development of Russia's perception of its borderlands and presents a complex picture of the encounter between the Russians and the indigenous population of the Caucasus. The study outlines the history of a region standing in between Russian reveries and Russian imperialism. Historical Dictionary of Albania Robert Elsie 2010-03-19 Albania is not well known by outsiders; it was deliberately closed to the outside world during the communist era. Now it has thankfully become free

again, its borders are open and it can be visited, and it is increasingly integrating with the rest of Europe and beyond. Unfortunately, Albania has had its share of problems in the post-communist era; it's a land of destitution and despair, thanks in part to the Albanian mafia, which has turned the country into one of blood-feuds, kalashnikovs, and eternal crises. Yet, Albania is, in essence, a European nation like any other and will soon, it is to be hoped, advance and take its proper place in Europe and the world. The second edition of the Historical Dictionary of Albania relates the history of this little-known country through a detailed chronology, an introduction, a bibliography, appendixes, and over 700 cross-referenced dictionary entries on significant persons, places, and events; institutions and organizations; and political, economic, social, cultural, and religious facets.

In one famous scene, Ion, conscripted into the Serbian army, and his brother, conscripted into the Bulgarian army, come face-to-face one night on the battlefield. The author, Petre M. Andreevski, was a Macedonian poet, novelist and playwright who won numerous awards for his works, many of which have been translated into other languages. *Pirey* is his most famous novel and was a best seller in Macedonia. This is the first translation of *Pirey* into English.

The Secret Life of Saeed Imīl Ḥabībī 1985 This contemporary classic, the story of a Palestinian who becomes a citizen of Israel, combines fact and fantasy, tragedy and comedy. Saeed is the comic hero, the luckless fool, whose tale tells of aggression and resistance, terror and heroism, reason and loyalty, the qualities that typify the hardships and struggles of Arabs in Israel. An informer for the Zionist state, his stupidity, candor, and cowardice make him more of a victim than a villain; but in a series of tragicomic episodes, he is gradually transformed from a disaster-haunted, gullible collaborator into a Palestinian-no hero still, but a simple man intent on survival and, perhaps, happiness. The author's own anger and sorrow at Palestine's tragedy and his acquaintance with the absurdities of Israeli politics (he was once a member of Israel's parliament himself) are here transmuted into satire both biting and funny. Translated by Anton Shammas into Hebrew, *The Secret Life of Saeed* won Israel's foremost Prize for Literature; a stage version played to great acclaim for a decade.

Orientalism and War Tarak Barkawi 2013-01-08 Orientalism is a system of truths that imagines the world can be meaningfully understood in terms of a distinction between "West" and "East" from the Greek and Persian Wars onwards. It is also about an institutionalised community of experts who represent with authority this world of East and West, as for example in media and policy discussions of the Islamic sources of terrorism. The papers in this volume, which include chapters by Bruce Cumings, Susan Jeffords, and John Mowitz among others, explore three dimensions of the relations between Orientalism and war. The first concerns the representations of "Self" and "Other" that mark the participation of Orientalism in war and which, for example, suffuse media coverage of the War on Terror. Second are the ways in which war is productive of Orientalisms. It is in and through violent conflict that various Western and Eastern identities are defined and come to be taken for granted. The third is about the inverse relation: how Orientalisms amount to acts of war. By redefining politics and identities in such a way as to require a West that brings order to an unstable, violent East, Orientalism is productive of war. Patrick Porter closes the volume in an afterword about the themes explored in these papers and questions for further reflection.

Europe and the Black Sea Region Dominik Gutmeyr 2019-05 When the scientific study of the Black Sea Region began in the late 18th and early 19th centuries, initially commissioned by adjacent powers such as the Habsburg and the Russian empires, this terra incognita was not yet considered part of Europe. The eighteen chapters of this volume show a broad range of thematic foci and theoretical approaches - the result of the enormous richness of the European macrocosm and the BSR. The microcosms of the many different case studies under scrutiny, however, demonstrate the historical dimension of exchange between the allegedly opposite poles of 'East' and 'West' and underscore the importance of mutual influences in the development of Europe and the BSR.

The Modern Arabic Literary Language Jaroslav Stetkevych 2006 The Modern Arabic Literary Language is a thoughtful examination of the changes that the Arabic language has undergone in its transition from its roots in classical Arabic to a language able to meet the demands of twentieth-century life. In this volume a respected and masterful scholar of the Arabic language Jaroslav Stetkevych notes the ways that new words have been incorporated into the language, ranging from deriving new terms from existing roots (for example, the word for "newspaper" derives from the word meaning "sheet to write on") to downright assimilation of foreign words. Also noting the changes in grammar and semantics, Stetkevych illustrates how literary Arabic has become a more flexible language. Originally published in 1970, this volume is a clear assessment of lexical and stylistic developments in Modern Literary Arabic. This classic book is an important resource for scholars and advanced students of Arabic language and linguistics who wish to study the complexities of language change and lexical expansion.

predictable to a large extent once we know the range of possible cognitive structures from which they are derived. The author uses as his example the structure of predicative possession, and shows how most of the possessive constructions to be found in the world's languages can be traced back to a small set of basic conceptual patterns. Using grammaticalization theory Heine describes how each affects the word order and morphosyntax of the resulting possessive construction.

Cultural Translation in Early Modern Europe Peter Burke 2007-03-29 This groundbreaking 2007 volume gathers an international team of historians to present the practice of translation as part of cultural history. Although translation is central to the transmission of ideas, the history of translation has generally been neglected by historians, who have left it to specialists in literature and language. This book seeks to achieve an understanding of the contribution of translation to the spread of information in early modern Europe. It focuses on non-fiction: the translation of books on religion, history, politics and especially on science, or 'natural philosophy', as it was generally known at this time. The chapters cover a wide range of languages, including Latin, Greek, Russian, Turkish and Chinese. The book will appeal to scholars and students of the early modern and later periods, to historians of science and of religion, as well as to anyone interested in translation studies.

The Balkan Wars from Contemporary Perception to Historic Memory Katrin Boeckh 2017-01-10 This book explores the historical role of the Balkan Wars. In Eastern Europe, the two Balkan Wars of 1912/13 had greater importance than the First World War for the construction of nations and states. This volume shows how these "short" wars profoundly changed the sociopolitical situation in the Balkans, with consequences that are still felt today. More than one hundred years later, the successors of the belligerent states in Southeastern Europe memorialize the wars as heroic highlights of their respective pasts. Furthermore, the metaphor that the Balkans were Europe's "powder keg", perpetuated at the beginning of the twentieth century in the face of these wars, was reactivated in both the West and the East up through the Yugoslav wars of the 1990s. The authors entangle the hitherto exclusive national master narratives and analyse them cogently and trenchantly for an international readership. They make an indispensable contribution to the proper integration of the Balkan Wars into the European historical memory of twentieth-century warfare.
