Little City by the River Karl Folk 2020-03-10 A little city located in the shadow of a great metropolis has mercifully been spared the ravages and destruction of war. But the shadows are lengthening. People from occupied countries have been deported to perform manual labor for the German economy. They are beginning to resent their isolated status, enforced by wearing special badges on their clothing, and bombed-out victims are coming to find a new home. A young German officer falls in love with a beautiful girl and plans to marry her. The racial laws of the land present insurmountable obstacles. People are finding ways to circumvent them, in the process exposing the hypocrisy of the whole Nazi ideology. However, this endangers them to severe consequences. The loss of a ruinous war puts an end to all this.

Letters After a Tour Through Some Parts of France, Italy, Switzerland, and Germany, in 1816

A New, Royal, and Authentic System of Universal Geography, Antient and Modern Thomas Bankes 1800

The Oxford Handbook of American Literary Realism Keith Newlin 2019-08-01 The scholarship devoted to American literary realism has long wrestled with problems of definition: is realism a genre, with a particular form, content, and technique? Is it a style, with a distinctive artistic arrangement of words, characters, and description? Or is it a period, usually placed as occurring after the Civil War and concluding somewhere around the onset of World War I? This volume aims to widen the scope of study beyond mere definition, however, by expanding the boundaries of the subject through essays that reconsider and enlarge upon such questions. The Oxford Handbook of American Literary Realism aims to take stock of the scholarly work in the area and map out paths for future directions of study. The Handbook offers 35 vibrant and original essays of new interpretations of the artistic and political challenges of representing life. It is the first book to treat the subject topically and thematically, in wide scope, with essays that draw upon recent scholarship in literary and cultural studies to offer an authoritative and in-depth reassessment of major and minor figures and the contexts that shaped their work. Contributors here tease out the workings of a particular concept through a variety of authors and their cultural contexts. A set of essays explores realism's genesis and its connection to previous and subsequent movements. Others examine the inclusiveness of representation, the circulation of texts, and the aesthetic representation of science, time, space, and the subjects of medicine, the New Woman, and the middle class. Still others trace the connection to other arts--poetry, drama, illustration, photography, painting, and film--and to pedagogic issues in the teaching of realism. As a whole, this volume forges exciting new paths in the study of realism and writers' unending labor to represent life accurately.

A Tour Through Part of France and Flanders 1768 An anonymous English travelogue detailing nine months spent in northern France and Flanders in the mid-eighteenth century. The author states in the preface that "every Englishman is inquisitive with regard to the religious ceremonies of foreign countries, and, therefore, I have in this work exerted myself to the utmost to satisfy this natural and laudable curiosity" (page ii), and most of the work is in fact occupied with the life and customs of various abbeys and convents. The work is particularly notable for its depiction of the lives of nuns, as well as the author's laudatory accounts of Jesuit colleges for the Catholic education of English students, such as St. Omer.

Mediterranean in September and October of 1995. This adventure was so special to both of us that when we excitedly related incidents to friends and family, they encouraged us to write down our memories before they faded into the inevitable, unreliable, and irretrievable gray matter, details lost forever. Most of the text comes from the journals that we maintained daily. Sometimes, however, depending on how tired we were or how much local wine we consumed, the journals were not as complete as they could have been and we probably have lost some details. In spite of that, we think that we have accurately captured most of the adventure.

Million Miles to Go John F. Lebda 2010-11-02 When young John Lebda waded ashore on that beach in North Africa during World War II, he had no idea he was walking into the biggest mess the world has ever seen. All he wanted was to find a way back home, but the road seemed to be a million miles long - across deserts, up mountains, over oceans and rivers, through many countries resembling hell. He knew he had the right stuff, but he had to have God on his side when the machine guns chattered, artillery crackled and bomb bursts were sent to put him down.

Somewhere Over There Francis H. Webster 2016-03-24 Decades before Americans became familiar with the term "embedded journalist," a young cartoonist named Francis Webster embodied that role when he served as a volunteer infantryman during World War I. Using his skills as an illustrator, he documented firsthand the harsh realities of combat life and regularly submitted visual dispatches of his experiences back to an Iowa newspaper. The first published collection of Webster's wartime chronicles, *Somewhere Over There* presents a unique view of World War I through a rare compilation of letters, diary entries, cartoons, sketches, and watercolors. As editor Darrek D. Orwig explains in his introduction, Webster gained valuable training as an illustrator when he worked for famed political cartoonist Jay "Ding" Darling during the early years of World War I. When the United States entered the conflict in 1917, Webster volunteered with the Iowa National Guard as it prepared for deployment on

the western front. His regiment would be part of the Forty-Second Rainbow Division, one of the first American units to arrive in France. Webster's accounts, rendered in words and pictures, capture the daily life of a citizen-soldier who trained in stateside camps, traversed the submarine-infested waters of the Atlantic Ocean, fought in muddy trenches, and recovered in hospitals from poisonous gas exposure. Webster suffered a mortal wound during the Meuse-Argonne Offensive in 1918, when he placed a fellow soldier's safety before his own. Webster's illustrations for the Des Moines Capital helped readers of the time learn what American soldiers were experiencing "over there" by bringing news from the western front to the home front. For nearly ninety years following his death, Webster's family treasured his collection of artwork and writings before donating it to the Iowa Gold Star Military Museum at Camp Dodge, where it resides today. This wartime assemblage is amplified by Orwig's enlightening commentary based on extensive research that places Webster's story within the wider narrative of American involvement in the "war to end all wars."
