Christoph Niemann Christoph Niemann 2019-06-27 This elaborate book features over 160 ink and pencil drawings by Christoph Niemann, each a story of an unfamiliar place. They are observations on traveling, arriving and immersing oneself, on the melancholy of being on the road and the adventure of discovering new destinations among them New York, Paris, Hong Kong, Amsterdam, Seville and Kyoto. Regardless of their subjects, these are all iconic sketches, capable of grasping the magic, light and mood of a place in a handful of virtuoso strokes. In Niemann's own words, in *Souvenir* over time memories change. Most things fade, while others become more significant. Connections arise that one wasn't aware of originally. Sometimes a drawing can capture all this in a new and surprising way. And with some luck, the picture feels as authentic as the moment itself. Christoph Niemann is one of the world's most in-demand artists. *Der Tagesspiegel*, Berlin Co-published with *Diogenes*, Zurich Exhibitions: *Literaturhaus München*, Munich, 9 November 2018 to 3 February 2019 *Deutsche Oper Berlin*, to July 2019

The Third Industrial Revolution Jeremy Rifkin 2011-10-04 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a

dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful "Third Industrial Revolution." He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an "energy internet," just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players – heads of state, global CEOs, social entrepreneurs, and NGOs – who are pioneering its implementation around the world.
