*Miller's Antiques Marks* Judith Miller 2018-01-31 Marks are one of the collector's most important tools when it comes to identifying and dating antiques. Of course, it is important to understand that they should never be relied upon completely, as many have been copied or faked. What you should rely on is experience. Handle as many antiques as you can and learn to combine your knowledge of marks with the knowledge of how an authentic piece looks and feels. Whether you are buying at auction, flea market or antique shop this is

the book you need to identify and date what you find. More than 6,000 marks are organized for quick, at-a-glance reference with full-colour sections on silver, Sheffield plate, bronze figures, ceramics, glass, costume jewellery, toys and dolls. This comprehensive guide can be kept handy to identify antique finds and value them from a catalogue of the most common marks that you will encounter, as well as any unidentified treasures you already own.

**Each Wild Idea** Geoffrey Batchen 2002-02-22 Essays on photography and the medium's history and evolving identity. In Each Wild Idea, Geoffrey Batchen explores a wide range of photographic subjects, from the timing of the medium's invention to the various implications of cyberculture. Along the way, he reflects on contemporary art photography, the role of the vernacular in photography's history, and the Australianness of Australian photography. The essays all focus on a consideration of specific photographs—from a humble combination of baby photos and bronzed booties to a masterwork by Alfred Stieglitz. Although Batchen views each photograph within the context of broader social and political forces, he also engages its own distinctive formal

attributes. In short, he sees photography as something that is simultaneously material and cultural. In an effort to evoke the lived experience of history, he frequently relies on sheer description as the mode of analysis, insisting that we look right at—rather than beyond—the photograph being discussed. A constant theme throughout the book is the question of photography's past, present, and future identity.

**Rameau's Nephew / D'alembert's Dream** Denis Diderot 1766-07-29 One of the key figures of the French Enlightenment, Denis Diderot was a passionate critic of conventional morality, society and religion. Among his greatest and most well-known works, these two dialogues are dazzling examples of his radical scientific and philosophical beliefs. In Rameau's Nephew, the eccentric and foolish nephew of the great composer Jean-Philippe Rameau meets Diderot by chance, and the two embark on a hilarious consideration of society, music, literature, politics, morality and philosophy. Its companion-piece,

D'Alembert's Dream, outlines a material, atheistic view of the universe, expressed through the fevered dreams of Diderot's friend D'Alembert. Unpublished during his lifetime, both of these powerfully controversial works show Diderot to be one of the most advanced thinkers of his age, and serve as fascinating testament to the philosopher's wayward genius.
