The Adventures of Three Englishmen and Three Russians in South Africa Jules Verne 1876 Jules Gabriel Verne (8 February 1828 - 24 March 1905) was a French novelist, poet, and playwright best known for his adventure novels and his profound influence on the literary genre of science fiction. Verne was born to bourgeois parents in the seaport of Nantes, where he was trained to follow in his father's footsteps as a lawyer, but quit the profession early in life to write for magazines and the stage. His collaboration with the publisher Pierre-Jules Hetzel led to the creation of the Voyages extraordinaires, a widely popular series of scrupulously researched adventure novels including Journey to the Center of the Earth (1864), Twenty Thousand Leagues Under the Sea (1870), and Around the World in Eighty Days (1873). Verne is generally considered a major literary author in France and most of Europe, where he has had a wide influence on the literary avant-garde and on surrealism. His reputation is markedly different in Anglophone regions, where he has often been labeled a writer of genre fiction or children's books, largely because of the highly abridged and altered translations in which his novels are often reprinted. Verne has been the second most-translated author in the world since 1979, ranking between Agatha Christie and William Shakespeare. He has sometimes been called the "Father of Science Fiction", a title that has also been given to H. G. Wells and Hugo Gernsback. Ellen Elizabeth Frewer (1848-1940)

Germany's Underground Allen Dulles 2019-12-06 *Germany's Underground*, first published in 1947, is the classic inside look at German resistance movements attempting to overthrow Adolph Hitler and the Nazi regime. Author Allen Dulles, younger brother of John Foster Dulles, was the OSS chief of station in Bern Switzerland, and had extensive personal contacts with members of the German underground. Following the war's end, he was stationed in Germany, providing him with access to captured secret Nazi documents. He was also able to interview the handful of surviving men and women involved in attempts to overthrow the Nazis or assassinate Hitler. *Germany's Underground* is a fascinating look at the individuals involved in the German resistance as well as an examination of morality and ethics in the midst of a brutal police state. Allen Dulles was appointed director of the U.S. CIA in 1953, a position he held until 1961. Dulles, born in 1893, passed away in 1969.

Perception and the Physical World Dieter Heyer 2002-05-22 Perception is a subject of great current interest and one that is likely to escalate over coming years. The focus of this book is on conceptual and philosophical issues of perception, including the classic notion of unconscious inferences in perception. The book consists of contributions from a group of international researchers who spent a year together as distinguished fellows at the German Centre for Advanced Study.

Random Curves Neal Koblitz 2009-05-03 Neal Koblitz is a co-inventor of one of the two most popular forms of encryption and digital signature, and his autobiographical memoirs are collected in this volume. Besides his own personal career in mathematics and cryptography, Koblitz details his travels to the Soviet Union, Latin America, Vietnam and elsewhere; political activism; and academic controversies relating to math education, the C. P. Snow "two-culture" problem, and mistreatment of women in academia. These engaging stories fully capture the experiences of a student and later a scientist caught up in the tumultuous events of his generation.

The Memoirs of Bridget Hitler Bridget Hitler 1979 Naive, Irish and seventeen years old, Bridget Dowling fell in love with Adolf Hitler's dashing half-brother, Alois. They left Ireland to marry and settled in England, in Liverpool, in 1910. This revealing and intimate account of Bridget's relationship with the Hitler family makes fascinating reading. Adolf's 'missing year' is plausibly accounted for: in 1912 Alois and Bridget meet the future Fuhrer off the train at Liverpool's Lime Street station. He is dirty, disheveled and ill and is a difficult guest in their home for several months. Bridget's marriage breaks down and Alois disappears; at eighteen, their son, William Patrick, decides to renew contact with his German uncle. Tension builds up when he makes several visits to Germany, finally deciding to seek employment there from 'Uncle Adolf'. Bridget follows him to Berlin in 1937. Her meeting with the Fuhrer at his idyllic residence in the Bavarian alps show just how far the 'spineless' young man of 1912 has changed. How she, and later her son, manage to escape the watchful eyes of Adolf and his bodyguards, makes this a gripping adventure story. These Memoirs cast new light on Adolf Hitler and his immediate family, particularly his extraordinary relationship with his niece. The unusually informal photographs portray a new side of the Fuhrer.--Page 2 of cover.

Canaris Michael Mueller 2017-01-30 This biography of the Nazi intelligence chief who spied both for and against Hitler examines the life of one of WWII's most intriguing figures. An early supporter of Adolph Hitler, Wilhelm Canaris became chief of German military intelligence before secretly turning against the Nazi regime at the start of World War II. Throughout his career, few who knew him ever

understood his plans. Even today, historians find Wilhelm Canaris a man of mystery among Hitler's top lieutenants. The great protector of German opposition to Hitler, Canaris was also the one who prepared the Third Reich's major expansion plans. While he motivated those who were eager to bring down Hitler, he also hunted them as conspirators—one of the many contradictions he was forced to live with in order to stay in control of the Nazi spy network. This superbly researched biography follows Canaris's career from his first dabbling in the intelligence business during World War I through his time as head of the Abwehr to his execution in 1945 for his role in the July Plot. A highly readable account, it tells the story of an apparently old-fashioned naval officer, drawn into the web of the Nazi regime.

The Service Reinhard Gehlen 1972 So startling and dramatic are these memoirs, the entire history of World War II will have to be rewritten because of them. Gehlen's revelations cannot fail to embarrass governments, cast doubts on famous leaders and causes, frighteningly underscore the fantastic power of espionage in world affairs. *The Service* is the memoir of General Reinhard Gehlen, legendary spymaster-in-chief, Hitler's head of military espionage in Russia who, as the war ended, transferred his mammoth files and network of spies to the service of the United States, ultimately to become chief of the official West German intelligence agency.

Revolutionary Women in Russia, 1870-1917 Anna Hillyar 2000 Most studies of the development of Marxism in Russia concentrate on male revolutionaries. It is only in the past twenty five years that scholars have begun to investigate the women who dedicated themselves to the cause of revolution. What then of the women who joined the revolutionary movement, and particularly the Bolshevik party, in their thousands? *Revolutionary women in Russia* is the first sustained analysis of female involvement in the revolutionary era of Russian history. By placing women centre stage, without exaggerating their involvement, this study enriches our understanding of women and revolutionary politics, and also provides a revealing insight in to this momentous period of Russian history. *Revolutionary women in Russia* is a powerful study of working women and Russian Marxism, which aims to engage readers with descriptions of 'real' revolutionary women. Based on a variety of sources that have not been previously translated into English, this book will appeal to all those with an interest in the Russian Revolution, twentieth-century history and gender studies.

Memoirs of a British Agent R. H. Bruce Lockhart 2011-04-30 When first published in 1932, this memoir was an immediate classic, both as a unique eyewitness account of Revolutionary Russia and as one man's story of struggle, and tragedy set against the background of great events. Aged 25, Lockhart became the British Vice-Consul to Moscow in 1912. With revolution in the air, it was dangerous, decadent posting. The 'Boy Ambassador' became an eyewitness to pivotal events and in 1918 was charged with establishing a diplomatic understanding with the Bolsheviks, to ensure that Russia remained in the war against Germany. It was a precarious mission: Whitehall could not be seen support revolutionaries; Lockhart grew wary of his masters' secret machinations; while Lenin and Trotsky's cordial relations with the British agent never quite dispelled their mistrust of the nation he represented. When Lockhart met Moura Budberg, who became the great love of his life, he was in an increasingly vulnerable position. In September 1918 he would be falsely accused of a counter-revolutionary plot to overthrow the Bolsheviks, and sent to the Loubianka. His account even inspired a Hollywood movie.

From his evocative descriptions of revolutionary Moscow, where the champagne flowed as the bourgeoisie trembled, to his audiences with Trotsky and his brushes with death, this is a vivid, unique memoir.

A Century of Violence in Soviet Russia Alexander N. It has numerical questions and their solutions clearing the concepts of Fourier transform, Hilbert transform, modulation, synchronization, signal-to-noise ratio analysis and many more. All the solutions have step-by-step approach for easy understanding. This book will be of great interest to the students of electronics and electrical communications engineering.

Failure of a Revolution: Germany 1918-1919 Sebastian Haffner 2019-08-16 The masterfully told story of what happened in Germany following its defeat in the first world war: the Kaiser's exit from the stage, the sailors' mutiny, the spreading of the revolution and its betrayal by its own chosen socialist leaders. Haffner recounts the murder of Karl Liebknecht and of Rosa Luxemburg — and the deliberate creation of those relentless counter-revolutionary forces that became the nightmare of the Third Reich. More than a brilliant historical study: it has vital lessons for our own day. "Haffner's history of the revolution is unrivalled — tight, precise, passionately rational, brilliantly formulated." — Profil/Wien "No-one else has described and analysed the events of 1918/19 that were decisive for the century as well and as convincingly as Sebastian Haffner." — Tagespiegel "For Haffner, the revolution was a social-democratic revolution. That it was nevertheless ultimately suppressed bloodily by social-democratic politicians confirms Haffner's suspicion that this was a case of betrayal." — Norddeutscher Rundfunk(North German Radio) "Haffner's book is one of the few that breaks open previously locked doors and shines a light on dark corners of our past." — Kölner Stadt-Anzeiger "Sebastian Haffner's brilliant intellect clarifies contrasts and similarities in situations, motivations and deeds and describes lucidly and dramatically the main lines of the complex developments from September 1918 to January 1919." — Dieter Wunderlich "Those who know Haffner's method of making the writing of history an inspection of the past motivated by the present, will appreciate this book." — zitty/Berlin

Social Dreaming, Associative Thinking and Intensities of Affect Julian Manley 2018-08-23 This book describes a way of sharing dreams in a group, called 'social dreaming'. It explores how the sharing of real, night time dreams, in a group, can offer information on and insight into ourselves and the worlds we live in and share. It investigates how we can turn dream images, and ideas and feelings that arise from these images, into conscious thought, before describing the ways in which these can be used. Using a background of the psychosocial combined with a philosophical lens influenced by the work of Gilles Deleuze, Julian Manley shows how social dreaming can be understood as a Deleuzian 'rhizome of affects', a web or a root design where things interconnect in a random and spontaneous fashion rather than in a sequential or linear way. He illustrates how social dreaming can link dreams together into a collage of images, and compares this to the rhizome, where clusters of emotional intensity - which emerge from the dream images - weave and interconnect with other clusters, forming a web of

interlinked dream images and emotions. From the basis of this rhizome emerges an interpretation of social dreaming as a 'body without organs' and the social dreaming matrix as a 'smooth space' where meanings emerge from the way these images form connections, and come and go according to our emotions at any particular moment.

How Successful is Naturalism? Georg Gasser 2013-05-02 Naturalism is the reigning creed in analytic philosophy. Naturalists claim that natural science provides a complete account of all forms of existence. According to the naturalistic credo there are no aspects of human existence which transcend methods and explanations of science. Our concepts of the self, the mind, subjectivity, human freedom or responsibility is to be defined in terms of established sciences. The aim of the present volume is to draw the balance of naturalism's success so far. Unlike other volumes it does not contain a collection of papers which unanimously reject naturalism. Naturalists and anti-naturalists alike unfold their positions discussing the success or failure of naturalistic approaches. "How successful is naturalism? shows where the lines of agreement and disagreement between naturalists and their critics are to be located in contemporary philosophical discussion. With contributions of Rudder Lynne Baker, Johannes Brandl, Helmut Fink, Ulrich Frey, Georg Gasser & Matthias Stefan, Peter S.M. Hacker, Winfried Löffler, Nancey Murphy, Josef Quitterer, Michael Rea, Thomas Sukopp, Konrad Talmont-Kaminski and Gerd Vollmer.

Implosion Peter Koenig 2008-01 there, at the main entrance of the World Bank was this large inscription " Our Dream is a World Free of Poverty." He couldn't go wrong, he thought. Today, he often thinks the sentence should have been completed: " And we make sure it will just remain a dream." In this riveting economic thriller, Paul Jordon, a renegade World Banker, and Moni Cheng, an Andean woman who leads a socio-environmental nongovernmental organization in the Peruvian Amazon, endure kidnappings, bombings, and deadly chases in their fight against boundless capitalism, destructive economic policies, and corporate greed that are wreaking worldwide social injustice and destroying the globe's richest zones of biodiversity. Together, Jordon and Cheng expose corporate ruthlessness, military brutality, and Machiavellian economic policies of the foremost financial ivory towers of Washington, the World Bank, and the International Monetary Fund. With other visionaries from around the globe, Jordon and Cheng untiringly disseminate truth and candid information about the calamities caused by this cruel machinery. And against all odds, they mobilize the power of the people. Richly detailed, grounded in actual events and statistics, and complete with notes from author and former World Bank economist Peter Koenig, *Implosion* is both an unsettling, gripping novel and a powerful commentary on the realities of the modern world's corporatocracy.

Peoples of the World Mirella Ferrera 2006 Whether white, black, red or yellow, whatever religion or language, whether city dwellers or country folk, sedentary or nomadic, rich or poor, the peoples of the world are the creators of such diverse civilizations that even researchers have not yet fully mapped them. To document the beauty and richness of this heritage and to celebrate the variety of human types and cultures, the volume *Peoples of the World* presents a narrative supported by splendid photographs to describe the Earth's most anthropologically interesting ethnic groups. They range from the Maori to

the Rom, from the Maasai to the Inuit, demonstrating the diversity of humankind.

Adults in the Room Yanis Varoufakis 2017-10-03 A Number One Sunday Times Bestseller What happens when you take on the establishment? In *Adults in the Room*, the renowned economist and former finance minister of Greece Yanis Varoufakis gives the full, blistering account of his momentous clash with the mightiest economic and political forces on earth. After being swept into power with the left-wing Syriza party, Varoufakis attempts to renegotiate Greece's relationship with the EU—and sparks a spectacular battle with global implications. Varoufakis's new position sends him ricocheting between mass demonstrations in Athens, closed-door negotiations in drab EU and IMF offices, and furtive meetings with power brokers in Washington, D.C. He consults and quarrels with Barack Obama, Emmanuel Macron, Christine Lagarde, the economists Larry Summers and Jeffrey Sachs, and others, as he struggles to resolve Greece's debt crisis without resorting to punishing austerity measures. But despite the mass support of the Greek people and the simple logic of Varoufakis's arguments, he succeeds only in provoking the fury of Europe's elite. Varoufakis's unvarnished memoir is an urgent warning that the economic policies once embraced by the EU and the White House have failed—and spawned authoritarianism, populist revolt, and instability throughout the Western world. *Adults in the Room* is an extraordinary tale of brinkmanship, hypocrisy, collusion, and betrayal that will shake the global establishment to its foundations.
