The Life and Speeches of Henry Clay Henry Clay 1859

Mystery of the White Lions Linda Tucker 2010-06-01 This is Linda Tucker's firsthand account of her journey into the mysteries of the most sacred animal on the African continent: the legendary White Lion. This book reveals the knowledge and ceremonies of Old Africa and the overwhelming love that has driven

her every action to save these magnificent beasts, against formidable odds...After being rescued from a life-threatening encounter with lions in the Timbavati game region by a medicine woman known as the "Lion Queen," Linda embarked on a journey into the mysteries of the White Lion. It is a mystical journey into the knowledge and ceremonies of Old Africa, in which humans and lions are able to cross the species barrier—in accordance with the most guarded secrets of Ancient Egypt and humankind's greatest riddle, the sphinx. Scientists in our day have established that humankind's most significant evolutionary leap occurred as a result of our ancestors' interaction with great cats. The White Lion is a genetic rarity of *Panthera leo*, and occurred in just one region on earth: Timbavati. Today White Lions form the center of the notorious "canned" trophy hunting industry—hand-reared captive lions, shot in enclosures for gross sums of money. By contrast, shamans believe that killing a "lion sun god" is the ultimate sacrilege. How the human species treats such precious symbols of God in nature may determine how nature treats the human species. Whether we view them as prophetic "Lions of God" or simply as rare genetic mutations, the story of the White Lions is a true legend unfolding in our own extraordinary times.

History Adam Hart-Davis 2012 Chronologically traces the course of human history and civilization from prehistoric times to the present day, covering key events, people, inventions and discoveries, and ideas and beliefs.

Dieper as die bloed Peet Venter 2013-06-01 Thys Krige sou kon deurgaan vir eksentriek. Daar is 'n vrou, ja, maar die is buite sy bereik. Sy missie in die polisie se speurafdeling het sy oorsprong in die moord op sy pa vyftien jaar gelede. Die reeksmoordenaar laat onder andere 'n wit roos op die slagoffer se bors. En die slagoffer se oe ... Die moordenaar doen ook nie veel moeite om hom te vermom vir die sekuriteitskamas nie. As dit 'n "e;hy"e; is, bygese. Uiteindelik vind Krige die moordenaar.

Professor Fungus en die robotkrisis Jaco Jacobs 2014-02-01 Professor Fungus se nuwe robot is briljant. Bennie en Jenny is baie beïndruk met die B-Bot. Daar is byna niks wat die blikbrein nie kan doen nie. Maar iewers is 'n skroef los. En toe die robot in die verkeerde hande beland, is daar GROOT probleme ...

Tears of the Desert Halima Bashir 2009-09-29 “[Halima Bashir’s] mesmerizing tale of against-all-odds

endurance is a piercing lament—and a clear-eyed call to action.”—Vogue “This memoir helps keep the Darfur tragedy open as a wound not yet healed.”—Elie Wiesel, author of *Night* Born into the Zaghawa tribe in the Sudanese desert, Halima Bashir received a good education away from her rural surroundings (thanks to her doting, politically astute father) and at twenty-four became her village’s first formal doctor. Yet not even Bashir’s degree could protect her from the encroaching conflict that would consume her homeland. Janjaweed Arab militias savagely assaulted the Zaghawa, often with the backing of the Sudanese military. Then, in early 2004, the Janjaweed attacked Bashir’s village and surrounding areas, raping forty-two schoolgirls and their teachers. Bashir, who treated the traumatized victims, some as young as eight years old, could no longer remain quiet. But breaking her silence ignited a horrifying turn of events. Raw and riveting, *Tears of the Desert* is the first memoir ever written by a woman caught up in the war in Darfur. It is a survivor’s tale of a conflicted country, a resilient people, and an uncompromising spirit. Praise for *Tears of the Desert* “This is a brave book. And a valuable one. Halima’s story of the atrocities and immeasurable losses she has endured must be told.”—Mia Farrow, actor and advocate “Vivid, poignant and brutally candid . . . *Tears of the Desert* is that rarest of literary endeavors, not just a book you read but a book you experience.”—The Washington Post Book World “An extraordinary memoir . . . Halima Bashir’s bravery contrasts with the world’s fecklessness and failures.”—Nicholas D. Kristof, *The New York Times* “Searing . . . *Tears of the Desert* gives voice to the unspeakable.”—USA Today “Powerful, harrowing and brave.”—The Economist “A luminous tale of growing up in rural Darfur . . . a wonderful and moving African memoir.”—The New York Review of Books

[The Serengeti Lion](#) George B. Schaller 2009-10-15 Based on three years of study in the Serengeti National Park, George B. Schaller’s *The Serengeti Lion* describes the vast impact of the lion and other predators on the vast herds of wildebeest, zebra, and gazelle for which the area is famous. The most comprehensive book available on the lion, this classic work includes the author’s findings on all aspects of lion behavior, including its social system, population dynamics, hunting behavior, and predation patterns. “If you have only enough time to read one book about field biology, this is the one I recommend.”—Edward O. Wilson, *Science* “This book conveys not only the fascination of its particular study of lion behavior but the drama and wonder and beauty of the intimate interdependence of all living things.”—*Saturday Review* “This is an important book, not just for its valuable information on lions, but for

its broad, open, and intelligent approach to problems that cut across the fields of behavior, populations, ecology, wildlife management, evolution, anthropology, and comparative biology.”—Richard G. Van Gelder, Bioscience

Saving the Last Rhinos Grant Fowlds 2020-05-05 The remarkable story of Grant Fowlds, who has dedicated his life to saving the imperiled rhinos, vividly told with Graham Spence, co-author of the bestselling *The Elephant Whisperer*. What would drive a man to ‘smuggle’ rhino horn back into Africa at great risk to himself? This is just one of the situations Fowlds has put himself in as part of his ongoing fight against poaching, in order to prove a link between southern Africa and the illicit, lucrative trade in rhino horn in Vietnam. Shavings of rhino horn are sold as a snake-oil “cures,” but a rhino’s horn has no magical, medicinal properties whatsoever. Yet it is for this that rhinoceroses are being killed at an escalating rate that puts the survival of the species in jeopardy. This corrupt, illegal war on wildlife has brought an iconic animal to the brink of extinction. Growing up on a farm in the eastern Cape of South Africa, Grant developed a deep love of nature, turning his back on hunting to focus on saving wildlife of all kinds and the environment that sustains both them and us. He is a passionate conservationist who puts himself on the front line of protecting rhinos in the wild—right now, against armed poachers—and in the long term, through his work with schoolchildren, communities, and policymakers.

OECD Trade Policy Studies Illegal Trade in Environmentally Sensitive Goods OECD 2012-09-20 In this report, evidence-based on customs data and information from licensing schemes is used to document the scale of illegal trade, as well as the economic and environmental impacts of such trade.

Emperors and Gladiators Thomas Wiedemann 2002-03-11 Of all aspects of Roman culture, the gladiatorial contests for which the Romans built their amphitheatres are at once the most fascinating and the most difficult for us to come to terms with. They have been seen variously as sacrifices to the gods or, at funerals, to the souls of the deceased; as a mechanism for introducing young Romans to the horrors of fighting; and as a direct substitute for warfare after the imposition of peace. In this original and authoritative study, Thomas Wiedemann argues that gladiators were part of the mythical struggle of order and civilisation against the forces of nature, barbarism and law breaking, representing the possibility of a

return to new life from the point of death; that Christian Romans rejected gladiatorial games not on humanitarian grounds, but because they were a rival representation of a possible resurrection.

Black, Bronze, Beautiful Adam Small 1975

Indian Mammals Vivek Menon 2014-06-20 An invaluable reference and exceptionally usable guide to the mammals of India. Covering the rich diversity of mammal species in India, from tigers, elephants, rhinos and whales to primates, rodents and bats, *Indian Mammals* is a comprehensive, field-ready and illustrated guide. Accompanied by superb full-colour photographs, supplementary illustrations and distribution maps, and based on impeccable scientific research reviewed by experts, *Indian Mammals* records details of virtually every mammal known to exist in India. The in-depth, up-to-date text by Vivek Menon, one of India's leading naturalists and an authority on Indian wildlife, describes key identification features, biometrics, behaviour, social strategies, habitat and distribution. Encyclopaedic in sweep yet accessible in approach, *Indian Mammals* includes the majestic and most sought after as well as the extraordinary and elusive mammals. Passionate wildlife watchers will appreciate the range of coverage and tips on identifying mammals, while naturalists will value the exacting detail needed to distinguish similar species in the field. Planned for easy reference, this compact guide is the essential resource for wildlifers of any age, from animal watchers and eco-tourists to active conservationists. ? More than 400 species of both land and water mammals with introductory pages on each order ? Over 1,000 carefully curated photographs ? Nearly 150 distribution maps ? Colour tabs for sections to facilitate ease of use ? The full index doubles up as a life-list ? Field notes reveal uncommon on-site experiences

Environmental Crime Rob White 2020-06 Environmental crime is arguably the most vital and destructive crime of the 21st century, especially in the light of climate change and shifts in social, economic and ecological circumstances that will accompany global warming. This two volume set explores the nature and dynamics of environmental crime and investigates a variety of topics including illegal fishing, poaching, wildlife crimes, animal abuse, climate change and ecocide as well as crimes related to waste, energy and contamination. Together with an original introduction by the editor, this collection provides researchers and students alike with a comprehensive overview of crimes pertaining to the environment.

Endangered Animals Richard P. Reading 2000 Presents unique case studies of 49 endangered species, which provide students with the conflicting issues surrounding conservation efforts.

The Man-eaters of Eden Robert Frump 2006 An in-depth look at the killer lions of Kruger National Park

Geek Abroad Piper Banks 2008-05-06 The Girl Genius is back and life has never been better! I, Miranda Bloom, finally have an almost-quasi-boyfriend, Dex McConnell, the lacrosse star of Orange Cove High. But when holiday break rolls around, and I jet off to visit my mother in London, Dex suddenly seems to lose all interest in me. Then there's Henry, the very cute and very available British guy, who complicates matters even more by making it clear that he's very interested in me. Things don't get any easier when classes start back up at Geek High. Between the dreaded math team competitions, an annoyingly love-struck best friend and a step-mother who seems to delight in making me miserable, it doesn't take a

genius to see that the semester ahead is going to be tough.

Zackie Mostert en die baie beroemde hond Jaco Jacobs 2014-09-01 Mevrou Langenhoven, Zackie-hulle se buurvrou, is WOEDEND! Zackie se hond het AL WEER haar pryswenner-petunias uitgegrawe ... en 'n NARE verrassing op haar grasperk gelos. Maar dan lees Zackie van 'n troeteldierkompetisie. Dalk kan hy vir almal bewys hy het die heel SLIMSTE en GEHOORSAAMSTE hond in Granaatstraat!

Feather to Fire Gregory Colbert 2007 Preface and postf. of v. 1 in English and Japanese; pref. of v. 2-4 in English.

Zoo Eric Baratay 2004 Wild animals have fascinated human observers since time immemorial. The story of our interest in collecting, classifying and dominating Nature so that its inner workings could be understood also looms large in the history of science, and thus it is surprising that the history of menageries, zoological gardens and the zoo as we know it today has been so poorly documented. This gap is addressed by Zoo, a comprehensive history of the zoo in the Western world.

Witboy in Berlin Deon Maas 2019-02-28 When opportunity strikes, television producer Deon Maas joins the boatloads of migrants heading for Germany. Faced with the choice of taking all his possessions along or selling everything, he opts for the latter. With a rucksack and his four dogs, he departs for the First World. Decadent Berlin blows his mind but also leaves him at a loss for words. As he crisscrosses the city, scratching at its pulsating underbelly, he marvels at German idiosyncrasies, and is roped into this new world by an array of vegan anarchists, eclectic musicians, football hooligans and graffiti artists. While settling in, he has to deal with everything from obnoxious bureaucrats to nosy neighbours. In the process, Maas debunks a few myths about the First World: it's not a perfect place where everything works, and German efficiency is definitely overrated. By confronting the loss of his support network and adapting to a different political and social context, he learns exactly how deep his African roots go.

The Social Life of the Lion J.A. Rudnai 2012-12-06 THE HABITAT Nairobi National Park lies to the south-southeast of the capital of Kenya, Nairobi, where the Athi Plains meet the Eastern escarpment of the Rift

Valley. These plains form part of the semi-arid highland plateau lying between the coast and the Rift Valley. Both the city itself, and the Park bordering it, are a meeting place of two generally distinct types of landscape and climate. While to the east-southeast are semi-arid plains with grasslands and scattered trees, the western-north western parts are higher, hilly, cooler, more humid and support lush forests. The combination of latitude-a little over one degree south of the Equator -and altitude-average of 1600 m. (5000-5500 ft.) -combine to give Nairobi a most equable climate where the temperature varies during the year between about 11 degrees and 27 degrees centigrade (mean minimum and mean maximum for eight years). However, considerable changes are usually experienced within each day and a rise from 14 degrees C at 0600 hours to 22 degrees at 1100 hours is not unusual. Nairobi Park has a unique concentration of wild animals living in their natural habitat less than 10 km. from the centre of a modern city of half a million people. The only interference with the natural course of events in the Park is that normally required for the proper management of a game park, such as maintenance of roads and dams, and, in this particular case, partial fencing towards the city.

know about wild animals

The Illegal Wildlife Trade Daan P. van Uhm 2016-11-15 In this book the author examines the illegal wildlife trade from multiple perspectives: the historical context, the impact on the environment, the scope of the problem internationally, the sociocultural demand for illegal products, the legal efforts to combat it, and several case studies from inside the trade. The illegal wildlife trade has become a global criminal enterprise, following in the footsteps of drugs and weapons. Beyond the environmental impact, financial profits from the illegal wildlife trade often fund organized crime groups and violent gangs that threaten public safety and security in myriad ways. This innovative volume covers several key questions surrounding the wildlife trade: why is there a demand for illegal wildlife products, which actors are involved in the trade, how is the business organized, and what are the harmful consequences. The author performed ethnographic fieldwork in three key markets: Russia, Morocco, and China, and has constructed a detailed picture of how the wildlife trade operates in these areas. Conversations with informants directly involved in the illegal business ensure unique insights into this lively black market. In the course of his journey the author follows the route of the illegal wildlife trade from poor poaching areas to rich business

districts where corrupt officials, legally registered companies, wildlife farms and sophisticated criminal organizations all have a share. A fascinating look inside the world of poachers, smugglers and traders.

People of the Eland Patricia Vinnicombe 2009 First published in 1976, *People of the Eland* was the first major step away from the outsiders view upon San rock art that had dominated studies of rock art for nearly a century. The book provides an account of the rock art of the Drakensberg Range and historical information on the mountain San themselves. The book aims to gain an insiders view of the rock art using San understandings of the world. While following this approach, it quickly became clear to Patricia Vinnicombe that the art was very far from simple depictions of daily life as had once seemed likely, but instead reflected the most deeply held San beliefs and symbols. This approach and this understanding has now become the standard for all those working with San rock art. Whilst this early knowledge of San art has been built upon considerably since 1976, *People of the Eland* remains a cornerstone of our current understanding. Reprinted here in full color, with the original artwork and photographs, *People of the Eland* remains a seminal work, the impact of which cannot be underestimated.

A Brown Afrikaner Speaks Adam Small 1971

Feesmaal E.A. Swanepoel 1997-01-01

Witboy in Africa Deon Maas 2010 City boy Deon Maas flees the suburbs in search of adventure and Africa is where he reckons he will find it. Over a period of 15 years he embarks on several journeys, once with his whole family in tow, to discover what it means to be African. He ends up ducking pirates in Madagascar, spending a night with oil thieves in Nigeria and narrowly escaping death at a roadblock in the Congo. Interwoven with his travel stories is his search for local music and the musical legends of the countries he visits. His stories are spiced with fascinating characters, strange sightings and... his cocky attitude! Anything but the typical tourist, Deon sets out to meet the locals and experience the underbelly of every new city. This means that he often ventures to places where he isn't meant to be and he ends up in a tight spot more than once. Impudent and blatantly honest, even ordering a hotel breakfast can become an adventure when Deon Maas is involved. His self-deprecating humor and offbeat take on most

situations make for an unforgettable reading experience. See an interview with the author:

Primate Ethology Desmond Morris 2011-12-31 This is a groundbreaking work which brought together studies of monkeys and apes from both the laboratory and the field. Many broad aspects of primate life, including facial expressions, sexual signals, grooming, play, social organization and parental care, are covered by the contributors and provided a whole new approach to primate behavior.

Suurlemoen! Jaco Jacobs 2015-01-04 Daar is 'n paar basiese reëls wanneer jy jou eerste band begin ... 1. Besluit vooraf watter soort musiek julle wil maak. 2. Neem jou tyd om lede vir jou band te kies. 3. Moenie op iemand in jou eie band verlief raak nie. Ons het al die reëls oortree ...

The Environmental Crime Crisis United Nations Environment Programme 2015-05-31 This report focuses on the far-reaching consequences of the environmental crime phenomenon we face today. The situation has worsened to the extent that illegal trade in wildlife's impacts are now acknowledged to go well beyond strictly environmental impacts - by seriously undermining economies and livelihoods, good governance, and the rule of law. The consequences are increasingly evident: illegal wildlife trafficking constitutes a barrier to the achievement of both sustainable development and environmental sustainability. The illegal trade in wildlife and environmental crime are now widely recognized as significant threats on a global scale, to be tackled with urgency. However the responses to date, in terms of impact on the ground, have been too modest, and inadequate to the scale and growth of the threat to wildlife and the environment. A fuller understanding of the phenomenon of illegal wildlife trade is necessary to design and further strengthen - and accelerate - an effective strategy to successfully tackle the issue at all levels and with all means possible. A global and holistic response needs to be implemented to support national, regional and international efforts by strengthening and synchronizing actions targeting coherent environmental legislation, poverty alleviation and demand reduction.

Rhino Revolution Clive Walker 2018-05-07 The rhino does not belong to us. It belongs to no one. All that we own is the responsibility of ensuring that it persists and that future books on the rhino are written about its expanded range and not its declining future. - Yolán Friedmann (Endangered Wildlife Trust) How is

South Africa going to sustain the cost of securing rhino while the belief continues to persist that the enemy lies elsewhere in Southeast Asia. The Walkers believe that the problem actually lies in South Africa's own backyard. This book discusses corruption and the criminal justice system, the need for more community engagement and the costs of protection. It also looks at how far we have come since the rhino wars in the 1980s and the rhino trade debate. We have to shift from the negative to an element of the positive. People are tired of seeing dead and dying rhino. There is some optimism due to the excellent work being undertaken by the state and the private sector at many levels in security, tourism, community involvement and environmental education, as well as NGO support. Rhino Revolution testifies to the many people doing just that. The rhino war in South Africa has entered its 10th year, and last year saw 662 rhino killed in Kruger alone - and over 1000 in total for South Africa. Clive and Anton Walker, authors of the bestselling Rhino Keepers (2012), have once again come up with a fresh, new look at the ongoing rhino crisis. With magnificent photographs and afterwords by John Hanks and Yolán Friedmann.
