problems; yet the infrastructure and rules of web site design are still in their infancy. Bonded Labor Siddharth Kara 2014-05-06 Siddharth Kara's Sex Trafficking has become a critical resource for its revelations into an unconscionable business, and its detailed analysis of the trade's immense economic benefits and human cost. This volume is Kara's second, explosive study of slavery, this time focusing on the deeply entrenched and wholly unjust system of bonded labor. Drawing on eleven years of research in India, Nepal, Bangladesh, and Pakistan, Kara delves into an ancient and ever-evolving mode of slavery that ensnares roughly six out of every ten slaves in the world and generates profits that exceeded \$17.6 billion in 2011. In addition to providing a thorough economic, historical, and legal overview of bonded labor, Kara travels to the far reaches of South Asia, from cyclone-wracked southwestern Bangladesh to the Thar desert on the India-Pakistan border, to uncover the brutish realities of such industries as hand-woven-carpet making, tea and rice farming, construction, brick manufacture, and frozen-shrimp production. He describes the violent enslavement of millions of impoverished men, women, and children who toil in the production of numerous products at minimal cost to the global market. He also follows supply chains directly to Western consumers, vividly connecting regional bonded labor practices to the appetites of the world. Kara's pioneering analysis encompasses human trafficking, child labor, and global security, and he concludes with specific initiatives to eliminate the system of bonded labor from South Asia once and for all.

Hollywood Highbrow Shyon Baumann 2018-06-05 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie "art." Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

The Evolution of American Urban Society Howard P. Chudacoff 1981 In over three centuries of growth and change, American cities have exerted forces that have been both centrifugal -- pulling people, resources, and interest toward them -- and centripetal -- sending out goods, services, and ideas. The story of how these forces evolved over time encompasses almost every aspect of American history. Always cognizant of change over time, this book explores the ways that urban development influenced people's lives and on the ways people shaped the urban environment. A city is simultaneously a social, economic, and political entity, and Howard P. Chudacoff and Judith E. Smith have taken care to examine each of these dimensions of urban life. Their focus is on urban society: its institutions, its activities, and, especially, its people. In this, the Sixth Edition, Chudacoff and Smith pay particular attention to issues of race, ethnicity, gender, the built environment, regional differentials, and emerging cultural forms such as rock and rap music. Finance and Financiers in European History 1880-1960 Youssef Cassis 2002-06-20 A highly distinguished team of contributors addresses the complex and crucial role of finance in European history during the period 1880-1960.

Capitals of Capital Professor of Economic History Youssef Cassis 2006-11-23 International financial centres have come to represent a major economic stake. Yet no historical study has been devoted to them. Professor Cassis, a leading financial historian, attempts to fill this gap by providing a comparative history of the most important centres that constitute the capitals of capital - New York, London, Frankfurt, Paris, Zurich, Amsterdam, Tokyo, Hong Kong, Singapore - from the beginning of the industrial age up to the present. The book has been conceived as a reflection on the dynamics of the rise and decline of international financial centres, setting them in their economic, political, social, and cultural context. While rooted in a strong and lively historical narrative, it draws on the concepts of financial economics in its analysis of events. It should widely appeal to business and finance professionals as well as to scholars and students in financial and economic history.

Humble by Nature Kate Humble 2021-07-01 'You'd have to have a heart of stone not to be

touched by Kate's enthusiasm for her new way of life' - Daily Mail In 2007, after 20 years of living in London, Kate Humble and her husband Ludo decided it was time to leave city life behind them. Three years later, now the owner of a Welsh smallholding, Kate hears that a nearby farm is to be broken up and sold off. Another farm lost; another opportunity for a young farmless farmer gone. Desperate to stop the sale, Kate contacts the council with an alternative plan - to keep the farm working and to run a rural skills and animal husbandry school alongside it. Against all odds, she succeeds. Here, in *Humble by Nature*, Kate shares with us a highly personal account of her journey from London town house to Welsh farm. Along the way we meet Bertie and Lawrence the donkeys, Myfanwy and Blackberry the pigs and goats Biscuit and Honey, not forgetting a dog called Badger and his unladylike sidekick Bella. And we are introduced to the tenant farmers Tim and Sarah, the locals who helped and some who didn't, and a whole host of newborn lambs. Full of the warmth and passion for the natural world that makes Kate such a sought after presenter, *Humble By Nature* is the story of two people prepared to follow their hearts and save a small part of Britain's farming heritage, whatever the consequences.

Affective Health and Masculinities in South Africa Hans Reihling 2020-04-24 *Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
