**Where Have All the Soldiers Gone?** James J. Sheehan 2009 A critical study of the tumultuous history of Europe during the twentieth century analyzes how the continent's repudiation of violence in the wake of World War II has affected the region, led to a rejection of defense budgets in favor of social stability and economic growth, and caused a growing rift between the U.S. and Europe. Reprint.

*Welt-Fußball-Rekorde 2020* Keir Radnedge 2019-11-20

Maybe Esther Katja Petrowskaja 2018-01-30 An inventive, unique, and extraordinarily moving debut memoir that pieces together the fascinating story of one woman's family across twentieth-century Russia, Ukraine, Poland, and Germany. Katja Petrowskaja wanted to create a kind of family tree, charting relatives who had scattered across multiple countries and continents. Her idea blossomed into this striking and highly original work of narrative nonfiction, an account of her search for meaning within the stories of her ancestors. In a series of short meditations, Petrowskaja delves into family legends, introducing a remarkable cast of characters: Judas Stern, her great-uncle, who shot a German diplomatic attaché in 1932 and was sentenced to death; her grandfather Semyon, who went underground with a new name during the Bolshevik Revolution in Russia, forever splitting their branch of the family from the rest; her grandmother Rosa, who ran an orphanage in the Urals for deaf-mute Jewish children; her Ukrainian grandfather Vasily, who disappeared during World War II and reappeared without explanation forty-one years later—and settled back into the family as if he'd never been gone; and her great-grandmother, whose name may have been Esther, who alone remained in Kiev and was killed by the Nazis. How do you talk about what you can't know, how do you bring the past to life? To answer this complex question, Petrowskaja visits the scenes of these events, reflecting on a fragmented and traumatized century and bringing to light family figures who threaten to drift into obscurity. A true search for the past reminiscent of Jonathan Safran Foer's *Everything Is Illuminated*, Daniel Mendelsohn's *The Lost*, and Michael Chabon's *Moonglow*, *Maybe Esther* is a poignant, haunting investigation of the effects of history on one family.

Narration and Knowledge Arthur C. Danto 2007 Now in its third edition, *Narration and Knowledge* is a classic work exploring the nature of historical knowledge and its reliance on narrative. Analytical philosopher Arthur C. Danto introduces the concept of "narrative sentences," in which an event is described with reference to later events (for example, "the Thirty Years' War began in 1618") and discusses why such sentences cannot be understood until the later event happens (no one could have said in 1618 that "the Thirty Years' War began today"). Danto compares narrative and scientific explanation and explores the legitimacy of historical laws. He also argues that history is an autonomous and humanist discipline incapable of being reduced to scientific descriptions. Lydia Goehr's new introduction illustrates Danto's main arguments by questioning her very role, first, as an introducer of a book that has not yet been read by readers and, second, as an interpreter of a book written forty years ago. Frank Ankersmit's conclusion revisits the initial impact of the publication of *Narration and Knowledge* and considers its enduring legacy.

*Remains of the Summer* Tamara Bach 2016-06-01 The last thing either Jana, 13, or Louise, 17, is looking for on this hot and boring summer is a friend of totally the wrong age. But then one day, they abandon their responsibilities and irritating families, and head off in a "borrowed" car for a day by the lake. Their adventure is simple--beer, ice-cream, swimming, singing--but the friendship it forges between them turns out to be profound. When Jana experiences loss, it is only Louise's tender and funny postcards that can haul her out of depression--right out of her bedroom window and off on another adventure.

*Little Monkey* Marta Altés 2020-05-26 It's hard being a little monkey in a big troop, in an even bigger jungle -- and Monkey has had enough of always missing out! She's off to climb to the top of the tallest tree in the jungle and she's going to do it all on her own! Except that there's someone following close behind. Someone with claws and stripes and rather sharp teeth...

**The Damned Utd** David Peace 2014-04-01 "Probably the best novel ever written about sport." —The Times (UK) He was a real-life, working-class hero known as the "British Muhammad Ali"—because he had a big mouth and wasn't afraid to use it. But Brian Clough wasn't a boxer, he was a soccer coach, known for taking backwater teams and making them into champions. In towns where people had little else, the hard-drinking and scrappy Clough was a hero. He was especially beloved for telling it like it was on behalf of small-town teams everywhere—calling out the stars who played dirty, rival coaches he suspected of bribing referees, and the league that let them get away with it. And then one day Clough was offered a job coaching the big-city team he'd called the dirtiest—the perennial powerhouse Leeds United. *The Damned Utd* tells the story of the legendary Clough's tumultuous forty-four days trying to turn around a corrupt institution without being corrupted himself—the players who wouldn't play, the management that looked the other way, the wife and friends who stood by him as he fought to do the right thing. The inspiring story behind the movie of the same name, *The Damned Utd* has been called by The Times of London, "The best novel ever written about sport."

*The Carpet Makers* Andreas Eschbach 2013-07-30 Since the time of pre-history, carpetmakers tie intricate knots to form carpets for the court of the Emperor. These carpets are made from the hairs of wives and daughters; they are so detailed and fragile that each carpetmaker finishes only one single carpet in his entire lifetime. This art descends from father to son, since the beginning of time itself. But one day the empire of the God Emperor vanishes, and strangers begin to arrive from the stars to follow the trace of the hair carpets. What these strangers discover is beyond all belief, more than anything they could have ever imagined... Brought to the attention of Tor Books by Orson Scott Card, this edition of *The Carpet Makers* contains a special introduction by Orson Scott Card. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Under the Same Sky** Mojgan Shamsalipoor 2017-04-26 After fleeing their homeland, Australian refugee policies threaten to tear this young couple apart. An unforgettable story of love, hope and a quest for

freedom. At seventeen, all Mojgan Shamsalipoor wanted was to be safe from physical and sexual abuse, go to school, and to eventually marry for love. In Iran, she was denied all of this. Milad Jafari was a shy teenage boy who found his voice as a musician. But the rap music he loved was illegal in his country. All Milad's father, a key maker, builder and shopkeeper, wanted was for his family to live free from the fear of arrest, imprisonment or execution. To do that they all had to flee Iran. Mojgan and Milad met in Australia. But in the months between their separate sea voyages, the Australian government changed the way asylum seekers were treated. Though Milad is recognised as a refugee and will soon become a proud Australian citizen, Mojgan has been told she cannot stay here even though the threat of imprisonment and further abuse, or worse, means she can't return to Iran. **UNDER THE SAME SKY**, is a powerful insight into the human face of asylum seekers and the way history has shaped the lives of these two young people. It also shows the compassion alive in our suburbs. For Mojgan and Milad, their love keeps their hopes alive.

**Giant George** Dave Nasser 2011-08-04 In 2006, Dave and Christie Nasser welcomed a Great Dane puppy into their lives - the runt of a litter of thirteen who won over the hearts of his new owners with his soulful blue eyes. They named him George and he swiftly changed their lives. In February 2010 George was officially crowned tallest dog ever by the Guinness Book of World Records. Standing at almost five feet tall and seven feet long, George has come to dominate the Nassers' home. He has grown from a quivering misfit into a goofy giant - eager to play with everyone and boisterous to the point of causing chaos. Yet George is a big softie - a gentle giant frightened of water, of dogs a fraction of his size, and of being left alone. This is the full heart-warming story of Dave and Christie's life with George - his likes and dislikes, his diet, habits and quirks. It's also the story of their love for each other, of their struggle to start a family and of how they've had to adapt their home to accommodate their extraordinary pet. With appearances on Oprah, and George gaining worldwide attention, it's now time to tell the full story of what it's like to be the owners of the biggest dog in the world.

*Dinosaurs Stencil Book* Alice Pearcey 2005-09 Synopsis coming soon.....

**Brilliant Orange** David Winner 2012-06-04 The Netherlands has been one of the world's most distinctive and sophisticated football cultures. From the birth of Total Football in the sixties, through two decades of World Cup near misses to the exiles who remade clubs like AC Milan, Barcelona, Arsenal and Chelsea in their own image, the Dutch have often been dazzlingly original and influential. The elements of their style (exquisite skills, adventurous attacking tactics, a unique blend of individual creativity and teamwork, weird patterns of self-destruction) reflect and embody the country's culture and history. This book lays bare the elegant, fractured soul of the Dutch Masters and the culture that spawned them by exploring and analysing its key ideas, institutions, personalities and history in the context of wider Dutch society.

**America's Game** Michael MacCambridge 2008-11-26 It's difficult to imagine today—when the Super Bowl has virtually become a national holiday and the National Football League is the country's dominant sports entity—but pro football was once a ramshackle afterthought on the margins of the American sports landscape. In the span of a single generation in postwar America, the game charted an extraordinary rise in popularity, becoming a smartly managed, keenly marketed sports entertainment colossus whose action is ideally suited to television and whose sensibilities perfectly fit the modern age. America's Game traces pro football's grand transformation, from the World War II years, when the NFL was fighting for its very existence, to the turbulent 1980s and 1990s, when labor disputes and off-field scandals shook the game to its core, and up to the sport's present-day preeminence. A thoroughly entertaining account of the entire universe of professional football, from locker room to boardroom, from playing field to press box, this is an essential book for any fan of America's favorite sport.
