Rethinking Prestige Branding Wolfgang Schaefer 2015-05-03 What makes someone covet a Kelly bag? Why are Cirque Du Soleil or Grey Goose so successful despite breaking all the conventions of their categories? What does Gucci's approach to marketing have in common with Nespresso's? And why do some people pay a relative fortune for Renova toilet paper or Aesop detergent even though they hardly ever 'advertise' and seem to have none of the 'functional performance advantages' conventional marketers would seek to demonstrate? Prestige brand experts JP Kuehlwein and Wolfgang Schaefer have dedicated themselves to studying what drives the success of prestige brands. Rethinking Prestige Branding collects their insights. Uncovering the secrets of why and how some brands are created more equal than others, Rethinking Prestige Branding includes over 100 case studies from Apple and Abercrombie & Fitch to Tate Modern and Tesla. The Dictionary of Brand Marty Neumeier 2004

The Brand Flip Marty Neumeier 2015-07-24 Best-selling brand expert Marty Neumeier shows you how to make the leap from a company-driven past to the consumer-driven future. You'll learn how to flip your brand from offering products to offering meaning, from value protection to value creation, from cost-based pricing to relationship pricing, from market segments to brand tribes, and from customer satisfaction to customer empowerment. In the 13 years since Neumeier wrote *The Brand Gap*, the influence of social media has proven his core theory: "A brand isn't what you say it is - it's what they say it is." People are no longer consumers or market segments or tiny blips in big data. They don't buy brands. They join brands. They want a vote in what gets produced and how it gets delivered. They're willing to roll up their sleeves and help out—not only by promoting the brand to their friends, but by contributing content, volunteering ideas, and even selling products or services. At the center of the book is the Brand Commitment Matrix, a simple tool for organizing the six primary components of a brand. Your brand community is your tribe. How will you lead it?

Managing Brand Equity David A. Aaker 2009-12-01 The most important assets of any business are intangible: its company name, brands, symbols, and slogans, and their underlying associations, perceived quality, name awareness, customer base, and proprietary resources such as patents, trademarks, and channel relationships. These assets, which comprise brand equity, are a primary source of competitive advantage and future earnings, contends David Aaker, a national authority on branding. Yet, research shows that managers cannot identify with confidence their brand associations, levels of consumer awareness, or degree of customer loyalty. Moreover in the last decade, managers desperate for short-term financial results have often unwittingly damaged their brands through price promotions and unwise brand extensions, causing irreversible deterioration of the value of the brand name. Although several companies, such as Canada Dry and Colgate-Palmolive, have recently created an equity management position to be guardian of the value of brand names, far too few managers, Aaker concludes, really understand the concept of brand equity and how it must be implemented. In a fascinating and insightful examination of the phenomenon of brand equity, Aaker provides a clear and well-defined structure of the relationship between a brand and its symbol and slogan, as well as each of the five underlying assets, which will clarify for managers exactly how brand equity does contribute

value. The author opens each chapter with a historical analysis of either the success or failure of a particular company's attempt at building brand equity: the fascinating Ivory soap story; the transformation of Datsun to Nissan; the decline of Schlitz beer; the making of the Ford Taurus; and others. Finally, citing examples from many other companies, Aaker shows how to avoid the temptation to place short-term performance before the health of the brand and, instead, to manage brands strategically by creating, developing, and exploiting each of the five assets in turn

Obsessed Emily Heyward 2020-06-09 The 2020 Porchlight Marketing & Sales Book of the Year The cofounder and chief branding officer of Red Antler, the branding and marketing company for startups and new ventures, explains how hot new brands like Casper, Allbirds, Sweetgreen, and Everlane build devoted fan followings right out of the gate. We're in the midst of a startup revolution, with new brands popping up every day, taking over our Instagram feeds and vying for our affection. Every category is up for grabs, and traditional brands are seeing their businesses erode as hundreds of small companies encroach on their territory, each hoping to become the next runaway success. But it's not enough to have a great idea, or a cool logo. Emily Heyward founded Red Antler, the Brooklyn based brand and marketing company, to help entrepreneurs embed brand as a driver of business success from the beginning. In Obsessed, Heyward outlines the new principles of what it takes to build and launch a brand that has people queuing up to buy it on opening day. She takes you behind the scenes of the creation of some of today's hottest new brands, showing you:

- How Casper was able to upend the mattress industry by building a beloved brand where none had existed before
- How the dating app Hinge won a fanatical user base and great word-of-mouth with the promise that the app was "designed to be deleted"
- Why luggage startup Away, now valued at \$1.4 billion, could build their brand around love of travel by launching with just one product--a hard-shell carry-on suitcase--rather than a whole range of luggage offerings.

Whether you're starting a new business, launching a new product line, or looking to refresh a brand for a new generation of customers, Obsessed shows you why the old rules of brand-building no longer apply, and what really works for today's customers.

Brands and Branding Rita Clifton 2009-04-01 With contributions from leading brand experts around the world, this valuable resource delineates the case for brands (financial value, social value, etc.) and looks at what makes certain brands great. It covers best practices in branding and also looks at the future of brands in the age of globalization. Although the balance sheet may not even put a value on it, a company's brand or its portfolio of brands is its most valuable asset. For well-known companies it has been calculated that the brand can account for as much as 80 percent of their market value. This book argues that because of this and because of the power of not-for-profit brands like the Red Cross or

Oxfam, all organisations should make the brand their central organising principle, guiding every decision and every action. As well as making the case for brands and examining the argument of the anti-globalisation movement that brands are bullies which do harm, this second edition of Brands and Branding provides an expert review of best practice in branding, covering everything from brand positioning to brand protection, visual and verbal identity and brand communications. Lastly, the third part of the book looks at trends in branding, branding in Asia, especially in China and India, brands in a digital world and the future for brands. Written by 19 experts in the field, Brands and Branding sets out to provide a better understanding of the role and importance of brands, as well as a wealth of insights into how one builds and sustains a successful brand.

Brands on a Mission Myriam Sidibe 2020-05-10 Brands on a Mission explores the importance of creating a performance culture that is built on driving impact through purpose, and the type of talent required to drive these transformational changes within companies – from CEO to brand developers. Using evidence from interviews and stories from over 100 CEOs, thought leaders and brand managers, the book presents an emergent model that organisations can follow to build purpose into their growth strategy – and shows how to bridge the gap between Brand Say and Brand Do. Readers will learn from the real experts in the field: how Paul Polman, former CEO of Unilever, built purpose into the DNA of his company; what keeps Alan Jope (new CEO, Unilever) and Emmanuel Faber (CEO, Danone) awake at night; and how brand developers from Durex, Dove, Discovery and LIXIL have made choices and the reasons behind them. In this book you will learn how a soap brand Lifebuoy taught one billion people about hygiene, how a beer is tackling gender-based violence, and how a toothpaste is tackling school absenteeism amongst many others. Renowned experts like Peter Piot (Director, London School of Health and Tropical Medicine), Michael Porter (Professor, Harvard School of Business), Jane Nelson (Director, Corporate Responsibility Initiative, Harvard Kennedy School) and Susie Orbach (leading feminist and formerly professor, London School of Economics) also share examples, data and their everyday experiences of helping corporates create a culture of purpose. And leading NGOs and UN experts like Lawrence Haddad (Executive Director, GAIN) and Natalia Kanem (Executive Director of UNFPA) will recount how the public and private sector have worked together to create an accelerated path to reaching the Sustainable Development Goals by 2030. The book provides a clear pathway of how to take brands through the journey of developing impactful social missions and driving business growth, and is an essential guide for both managers and students alike.

Brand Admiration C. Whan Park 2016-10-03 Brand Admiration uses deep research on consumer psychology, marketing, consumer engagement and communication to develop a powerful, integrated perspective and innovative approach to brand management. Using numerous real-world examples and backed by research from top notch academics, this book describes how companies can turn a product, service, corporate, person or place brand into one that customers love, trust and respect; in short, how to

make a brand admired. The result? Greater brand loyalty, stronger brand advocacy, and higher brand equity. Admired brands grow more revenue in a more efficient way over a longer period of time and with more opportunities for growth. The real power of Brand Admiration is that it provides concrete, actionable guidance on how brand managers can make customers (and employees) admire a brand. Admired brands don't just do the job; they offer exactly what customers need (enabling benefits), in way that's pleasing, fun, interesting, and emotionally involving (enticing benefits), while making people feel good about themselves (enriching benefits). Providing these benefits, called 3 Es, is foundational to building, strengthening and leveraging brand admiration. In addition, the authors articulate a common-sense and action based measure of brand equity, and they develop dashboard metrics to diagnose if there are any 'canaries in the coal mine', and if so, what to do next. In short, Brand Admiration provides a coherent, cohesive approach to helping the brand stand the test of time. A well-designed, well-managed brand becomes a part of the public consciousness, and ultimately, a part of the culture. This trajectory is the fruit of decisions made from an integrated strategic standpoint. This book shows you how to shift the process for your brand, with practical guidance and an analytical approach.

How Brands Become Icons D. B. Holt 2004-09-15 Coca-Cola. Harley-Davidson. Nike. Budweiser. Valued by customers more for what they symbolize than for what they do, products like these are more than brands--they are cultural icons. How do managers create brands that resonate so powerfully with consumers? Based on extensive historical analyses of some of America's most successful iconic brands, including ESPN, Mountain Dew, Volkswagen, Budweiser, and Harley-Davidson, this book presents the first systematic model to explain how brands become icons. Douglas B. Holt shows how iconic brands create "identity myths" that, through powerful symbolism, soothe collective anxieties resulting from acute social change. Holt warns that icons can't be built through conventional branding strategies, which focus on benefits, brand personalities, and emotional relationships. Instead, he calls for a deeper cultural perspective on traditional marketing themes like targeting, positioning, brand equity, and brand loyalty--

and outlines a distinctive set of "cultural branding" principles that will radically alter how companies approach everything from marketing strategy to market research to hiring and training managers. Until now, Holt shows, even the most successful iconic brands have emerged more by intuition and serendipity than by design. With *How Brands Become Icons*, managers can leverage the principles behind some of the most successful brands of the last half-century to build their own iconic brands. Douglas B. Holt is associate professor of Marketing at Harvard Business School.

A Master Class in Brand Planning Judie Lannon 2011-02-25 In 1988, on Stephen King's retirement JWT published 'The King Papers' a small collection of Stephen King's published writings spanning 1967-1985. They remain timelessly potentially valuable but are an almost unexploited gold mine. This book is comprised of a selection of 20-25 of Stephen King's most important articles, each one introduced by a known and respected practitioner who, in turn, describes the relevance of the particular original idea to the communications environment of today. The worth of this material is that, although the context in which the original papers were written is different, the principles themselves are appropriate to marketing communications in today's more complex media environment. The book will serve as a valuable reference book for today's practitioners, as well as a unique source of sophisticated, contemporary thinking.

Connective Branding Claudia Fisher 2010-04-01 This book bridges the gap between strengthening the 'employee brand' and the building 'external brand image' by synthesizing the two approaches. The result is a blurring of the boundaries and assigning creative powers to both. A customer has a number of interactions with the company, and each of these interactions has an impact on the brand equity account – either positive or negative. Examples of interactions include: the product itself, the purchasing process, the consumption experience, the 'face' of the organization, the call center, media etc. The real issue for the company is how to translate the optimized 'ideal' customer journey into effective company programmes, how to track their progress and their actual impact on brand equity, customer satisfaction and loyalty. This book takes a holistic view to brand management and distills this complex system into palatable chunks, involving all functions of the company. The book demonstrates the effect of an organization that facilitates and rewards employee brand commitment on 'external brand equity' (eg: customer satisfaction and loyalty) and 'internal brand equity' (eg: product improvement and innovation potential resident in the organization). While the more obvious benefits of this approach include the usual suspects such as increased sales and revenues, less obvious benefits include employee stress reduction through the elimination of tensions and incongruity between external and internal value systems. The result is a significant contribution to creativity, brand commitment, overall employee satisfaction and, finally, a company's ability to attract and retain talent. The above is achieved via a very practical, step-by-step guide, lavishly illustrated with case studies from over 100 fascinating brands (the authors have researched and surveyed companies such as: Aer Lingus, BMW, BP, Deutsche Bank, Ducati, Edun, Google, innocent drinks, Lacoste, Lego, Manner, Maggi, Orange, Old Mutual, Rabobank, Sony, SOS Childrens Villages, Siemens, Thomas Sabo, TED/United, TUI, UBS, Vauxhall, Wal-Mart, Wikimedia, any many more) the authors are able to paint a very real picture of the issues facing business and provide powerful solutions. Refreshingly, this book draws on examples from across the globe, giving the book cultural depth. Each case helps demonstrate the arguments put forward by the authors. After reading this book the audience should be able to answer the following questions: How can I build a strong brand? Where do I start? Which analyses do I have to conduct? Who needs to be involved? How can I make sure every part of the organisation lives the brand? How can I revive the brand? How can I create a new and relevant connection between the brand and key target audiences? How can I develop and expand the brand? How can future orientation become part of the brand? How can I best structure the brand portfolio? Which role should each of the brands adapt in order to optimise results? How do I best manage

the brand? How do I cultivate and empower brand enthusiasts in the organisation? How do I foster and leverage networked collaboration?
