**I'm Glad My Mom Died** Jennette McCurdy 2022-08-09 #1 NEW YORK TIMES BESTSELLER #1 INTERNATIONAL BESTSELLER A heartbreaking and hilarious memoir by iCarly and Sam & Cat star Jennette McCurdy about her struggles as a former child actor—including eating disorders, addiction, and a complicated relationship with her overbearing mother—and how she retook control of her life. Jennette McCurdy was six years old when she had her first acting audition. Her mother's dream was for her only daughter to become a star, and Jennette would do anything to make her mother happy. So she went along with what Mom called "calorie restriction," eating little and weighing herself five times a day. She endured extensive at-home makeovers while Mom chided, "Your eyelashes are invisible, okay? You think Dakota Fanning doesn't tint hers?" She was even showered by Mom until age sixteen while sharing her diaries, email, and all her income. In *I'm Glad My Mom Died*, Jennette recounts all this in unflinching detail—just as she chronicles what happens when the dream finally comes true. Cast in a new Nickelodeon series called *iCarly*, she is thrust into fame. Though Mom is ecstatic, emailing fan club moderators and getting on a first-name basis with the paparazzi ("Hi Gale!"), Jennette is riddled with anxiety, shame, and self-loathing, which manifest into eating disorders, addiction, and a series of unhealthy relationships. These issues only get worse when, soon after taking the lead in the *iCarly* spinoff *Sam & Cat* alongside Ariana Grande, her mother dies of cancer. Finally, after discovering therapy and quitting acting, Jennette embarks on recovery and decides for the first time in her life what she really wants. Told with refreshing candor and dark humor, *I'm Glad My Mom Died* is an inspiring story of resilience, independence, and the joy of shampooing your own hair.

*My Mother, Your Mother* Dennis McCullough 2009-10-13 What's the right thing to do for mom and dad as

they get older? Thanks to advances in science and medicine, more of our parents are living longer than ever before. And though we are rewarded with more time with the people we love, we are also faced with new sets of complications—more diseases, more disability, more need for support and careful judgments. Yet while our health care system may help people live to an older age, it doesn't perform so well when decline eventually sets in. We want to do the best thing but are overwhelmed with the staggering choices we face. Geriatrician Dennis McCullough has spent his life helping families to cope with their parents' aging and eventual final passage, experiences he faced with his own mother. In this comforting and much-needed book, he recommends a new approach, which he terms "Slow Medicine." Shaped by common sense and kindness, grounded in traditional medicine yet receptive to alternative therapies, Slow Medicine advocates for careful anticipatory "attending" to an elder's changing needs rather than waiting for crises that force acute medical interventions—an approach that improves the quality of elders' extended late lives without bankrupting their families financially or emotionally. As Dr. McCullough argues, we need to learn that time and kindness are sometimes more important and humane at these late stages than state-of-the-art medical interventions. *My Mother, Your Mother* will help you learn how to: —form an early and strong partnership with your parents and siblings; —strategize on connecting with doctors and other care providers; —navigate medical crises; —create a committed Advocacy Team; —reach out with greater empathy and awareness; and —face the end-of-life time with confidence and skill. Although taking care of those who have always cared for us is not an easily navigated time of life, *My Mother, Your Mother* will help you and your family to prepare for this complex journey. This is not a plan for getting ready to die; it is a plan for understanding, for caring, and for helping those you love live well during their final years. And the time to start is now.

**Mommy Burnout** Dr. Sheryl G. Ziegler 2018-02-20 The ultimate must-read handbook for the modern mother: a practical, and positive tool to help free women from the debilitating notion of being the "perfect mom," filled with funny and all too relatable true-life stories and realistic suggestions to stop the burnout cycle, and protect our kids from the damage burnout can cause. Moms, do you feel tired? Overwhelmed? Have you continually put off the things you need to do for you? Do you feel like it's all worth it because your kids are happy? Are you "over" being a mother? If you answered yes to these questions, you're not alone. Parents today want to create the ideal childhood for their children. Women strive to be the picture-perfect Pinterest mother that looks amazing, hosts the best birthday parties in town, posts the most "liked" photos, and serves delicious, nutritious home-cooked meals in her neat, organized home after ferrying the kids to school and a host of extracurricular activities on time. This drive, while noble, can also be destructive, causing stress and anxiety that leads to "mommy burnout." Psychologist and family counselor Dr. Sheryl Ziegler is well-versed in the stress that moms face, and the burden of guilt they carry because they often feel like they aren't doing enough for their kids' happiness. A mother of three herself, Dr. Z—as she's affectionately known by her many patients—recognizes and understands that modern moms are all too often plagued by exhaustion, failure, isolation, self-doubt, and a general lack of self-love, and their families are also feeling the effects, too. Over the last nineteen years working with families and children, Dr. Z has devised a prescriptive program for addressing "mommy burnout"—teaching moms that they can learn to re-energize themselves and still feel good about their families and their lives. In this warm and empathetic guide, she examines this modern epidemic among mothers who put their children's happiness above their own, and offers empowering, proven

solutions for alleviating this condition, saving marriages and keeping kids happy in the process.

*Would You Do That to Your Mother?* Jeanne Bliss 2018-05-08 Customer experience pioneer Jeanne Bliss shows why “Make Mom Proud” companies outperform their competition. Her 5-step guide to customer experience and culture transformation makes this achievement possible. Bliss urges companies to make business personal to earn ardent fans and admirers, by focusing on one deceptively simple question: “Would you do that to your mother?” “Make Mom Proud” companies give customers the treatment they desire, and employees the ability to deliver it. They turn “gotcha” moments into “we’ve got your back” moments by rethinking business practices, and they enable employees to be part of the solution to fix customer frustrations. Bliss scoured the marketplace seeking companies who excel at living their core values, grounded in what we all learned as kids. She offers a five-step plan for evaluating your current behaviors and implementing actions at every level of the organization. Step 1. “Be the Person I Raised You to Be” Understand how you are hiring, developing and trusting employees to bring the best version of themselves to work. Vail resorts, for example, the world's largest ski resort operator, banned the three words “Our policy is...” from their vocabulary, freeing employees to take spirited actions to deliver “the experience of a lifetime.” Step 2. “Don’t Make Me Feed You Soap” Learn the eight key frustrations that bind us as customers (waiting, fear, anxiety, the black hole of no communication, etc.) and how to apply actions from companies who are delivering a seamless, frictionless and easy experience. Step 3. “Put Others Before Yourself” Determine if your focus is on helping customers achieve their goals – and evaluate how that is fueling your growth. Canada's Mayfair Diagnostics, for example, spent over a year studying the emotions of patients entering an imaging clinic, so they could redesign their welcome to deliver warmth and caring over procedure and process. The newly designed clinic achieved profitability in record time. Step 4. “Take the High Road” Learn how companies who do the right thing rise above the competition. Virgin Hotels, for example, named #1 U.S. hotel by Conde Nast Reader's Choice

Awards, walked away from price gouging at the mini bar, so you'll never pay more for that Snickers bar than what you'd pay at the corner market. Step 5. "Stop the Shenanigans!" Evaluate your current company behaviors and identify the key actions that you can begin immediately. With 32 case studies and examples from more than 85 companies, this is a practical and easy to follow guide for your experience and culture transformation. Filled with comics to snapshot our experiences as customers, a "mom lens" to reflect continuously on your performance, and a "make-mom-proud-ometer" quiz – the book makes Bliss's approach accessible and approachable. Join the movement to #MakeMomProud by applying this book across your organization. Whether you're contemplating your company's returns policy, its social media presence, or its big-picture strategy, this approach will help your company anticipate both employee and customer needs, extend patience, and show respect at all times.

**Mommy, Where Do Babies Come From?** Robert Roper 2020-09-21 Explaining a child's beginning, is sometimes difficult and considered taboo. *My Mom's Having a Baby!* Dori Hillestad Butler 2007-03 Told through the voice of the excited big sister, an informative look at how babies come about traces the embryo's development, explains conception, and shows the process of her mother going into labor.

**Close to Mommy's Heart** Mary Cromwell-Hillenburg 2008-08 Did you know that a baby's heartbeat can be detected 18 to 21 days after conception? Did you know that God says in Jeremiah 1:5 that "Before I formed you in the womb, I knew you; Before you were born I sanctified you.?" I didn't know those things when I had my abortions. I believed the Lie-that until a baby takes its first breath, it isn't a child. Close to Mommy's Heart will teach children that life begins at the moment of conception. It is also written for us post-abortive mothers and others who share the pain of abortion. God has made a way for us. We can experience healing and peace as we release the guilt and shame of our sin and receive forgiveness from Him who died for it. Close to Mommy's Heart is a blessing you will want to share with everyone you know. Mary Cromwell-Hillenburg served for more than 11 years at the Life Pregnancy Care Center in Concord, NC, as a board member, client services director, and finally as executive director for approximately seven years. As a post-abortive woman herself, she has been able to share a message of hope and healing to thousands of women and teenagers throughout the years. Her poems, articles and stories (both serious and humorous) have been published in magazines and local newspapers, and most recently in Mature Living Magazine. She often speaks at local churches, community functions, and pro-life rallies, and she counsels women who are suffering from the aftermath of abortion. She has four children and eight grandchildren and lives in North Carolina. The mortal, Alexis, becomes immortal, living in the Realm of Twilight, a parallel dimension. Arian, Alexis' wife, sacrifices herself to save her husband. For Arian's interference, Arian is trapped herself in the Realm of Twilight and is forced to endure seeing Alexis throughout time be reincarnated and married to whomever he chooses never will she have that option as she has been entombed alive. Imprisoned for 300 years, Arian finally has the chance to escape, providing that she can contact Alexis in the modern day, for he has reincarnated as Sebastian Simons. And if she does contact him, he has a family. If her spell can be broken, will she age her 300 years? The witches are immortal as well and have the same possibility of capturing and killing her husband, rather than imprisonment. Is her love and sacrifice, ideals of the past, still pertinent after 300 years? Magic and fortune telling has mesmerized humanity for centuries. **DELVE INTO THE REALM OF TWIGLIGHT** is steeped with poetic spells tantalizing the reader with an array of topics depicting resurrection, cloaking, memory loss and, of course, love potions.

**Mommy, Do You Love Me?** Jeanne Willis 2008 Little Chick asks if his mommy loves him, no matter what he looks like, or how he behaves.

**Daddy's Little Girl and Mommy's Little Boy** Zester Hatfield 2005 Mr. Hatfield with all of his years of experience in marriage, parenting, family, missions and in the Church pulls no punches in calling Christ's Bride to return to His Truth (God's revealed Law-Word) regarding discipleship (men and women of faith and grace) in Manhood and Womanhood, outrageously successful spousal relations, parenting with training in romance, sexual satisfaction, love and marriage! He is calling all believers, especially men, to confession and repentance and to receive, understand and apply these Truths in the Power of the Holy Spirit as the only acceptable response in which God will revive and reform the Family and the Church in the 21st Century! Not for the weak-kneed, weak-minded or humanistically influenced, this is for Christ's Bride as we prepare for and anticipate His return! These applications of God's revealed Law-Word and His uncommon common sense in the lives of America's postmodern Christian culture and especially the promise of duplicating of these successes for love and marriage in our children, is exciting and challenging to the point of precedent setting magnitudes. The reader will experience riveting and exciting challenges to the status quo of our present day Christian culture. "Based on interviews with more than 1000 adults nationwide, the survey discovered that less than one out of every five adults believes that children under the age of 13 are being "superbly" or "pretty well" prepared for life emotionally, physically, spiritually, intellectually or physically. Fewer than one out of every twenty adults believes that America's youngsters are receiving above average preparation in all five of those areas of life." Americans Agree: "Kids Are Not Being Prepared for Life," The Barna Group-October 26, 2004 The couples, who discover the answers to the moral morass of our postmodern Christian culture, are those who know that the future of their children is in jeopardy and that we are in a war for the control of that future! Sadly, the statistics of broken homes, divorces, adultery, domestic violence, drugs and promiscuity - to mention

only some of the ills of our culture - are almost equally divided between "Christian" families and non-Christian families. This is unacceptable as a comparison and must change. Consequently, fathers and mothers of faith and grace are those - who are and or who will experience - God's promise of victory over these fruits of our fallen nature and live a marriage experience that captures the best of God's gifts of love, sex and romance in marriage. Daddy's Little Girl and Mommy's Little Boy brings us clear evidence of just how America's Christian couples can have this victory in their marriage and how to duplicate this success in their sons and daughters.

But you will never do it perfectly. Throw perfect out of your vocabulary. Just toss it out the window and keep on driving, because, sister, it ain't an option for you anymore. We've been fed a huge pack of lies. We've been told that we can bring home the bacon, fry it up in the pan, and feed

our smiling, happy family with it. I am here to tell you that the quickest way to end up on a therapist's couch or crying into your glass of pinot noir at your girlfriend's house is to think that "perfect" and "working mother" belong in the same sentence. They don't. No one has it all. Save yourself the doctor's bill and the AA meetings and just accept the fact that if you choose to work and be a mom, life will be far from perfect.

**Mad Mothers, Bad Mothers, and What a "Good" Mother Would Do** Sarah LaChance Adams 2014-05-20 When a mother kills her child, we call her a bad mother, but, as this book shows, even mothers who intend to do their children harm are not easily categorized as *ÒmadÓ* or *Òbad.Ó* Maternal love is a complex emotion rich with contradictory impulses and desires, and motherhood is a conflicted state in which women constantly renegotiate the needs mother and child, the self and the other. Applying care ethics philosophy and the work of Emmanuel Levinas, Maurice Merleau-Ponty, and Simone de Beauvoir to real-world experiences of motherhood, Sarah LaChance Adams throws the inherent tensions of motherhood into sharp relief, drawing a more nuanced portrait of the mother and child relationship than previously conceived. The maternal example is particularly instructive for ethical theory, highlighting the dynamics of human interdependence while also

affirming separate interests. LaChance Adams particularly focuses on maternal ambivalence and its morally productive role in reinforcing the divergence between oneself and others, helping to recognize the particularities of situation, and negotiating the difference between one's own needs and the desires of others. She ultimately argues maternal filicide is a social problem requiring a collective solution that ethical philosophy and philosophies of care can inform.

**What to Do When I'm Gone** Suzy Hopkins 2018-04-03 A mother's advice to her daughter--a guide to daily living, both practical and sublime--with full-color illustrations throughout. One sleepless night while she was in her early twenties, illustrator/writer Hallie Bateman had a painful realization: her mom would die, and after she died she would be gone. The prospect was devastating, and also scary--how would she navigate the world without the person who gave her life? She thought about all the motherly advice she would miss--advice that could help her through the challenges to come, including the ordeal of losing a parent. The next day, Hallie asked her mother, writer Suzy Hopkins, to record step-by-step instructions for her to follow in the event of her mom's death. The list began: "Pour yourself a stiff glass of whiskey and make some fajitas" and continued from there, walking Hallie through the days, months, and years of life after loss, with motherly guidance and support, addressing issues great and small--from choosing a life partner to baking a quiche. The project became a way for mother and daughter to connect with humor, openness, and gratitude. It led to this book. Combining Suzy's wit and heartfelt advice with Hallie's quirky and colorful style, *What to Do When I'm Gone* is the illustrated instruction manual for getting through life without one's mom. It's also a poignant look at loss, love, and taking things one moment at a time. By turns whimsical, funny, touching, and above all pragmatic, it will leave readers laughing and teary-eyed. And it will spur conversations that enrich family members' understanding of one another.

**Mommy's Choice** Scott Curtis 2007-12 Curtis pens a story of the strong bond that builds between a mother and her son, a story of love and friendship that grows deeper with each passing year. They share a closeness and a bond that can survive anything, or so they thought.

Do Men Mother? Andrea Doucet 2018-04-13 The first edition of *Do Men Mother?* (2006) was awarded the John Porter Tradition of Excellence Book Award from the Canadian Sociological Association and remains one of the most widely cited books on primary caregiving fathers and stay-at-home fathers. This second edition of *Do Men Mother?* builds on interviews conducted between 2000 and 2004 with 101 fathers and 14 mother/father couples, and follow-up interviews with six of the mother/father couples about a decade later. It charts how fathers and mothers navigate and negotiate parental and breadwinning responsibilities and calls attention to the generative changes that occur for men when they share responsibilities for their children's care. Working closely with Sara Ruddick's *Maternal Thinking* (1989), Doucet advocates for a wider maternal lens that

focuses on entanglements between dependence/independence/inter-dependence and argues that fathers' stories expand how we think about mothering and caregiving. In this expanded second edition, with a new Preface and two new chapters, Doucet takes on three revisiting projects: returning to interview several research participants; re-entering scholarly fields of work, care, and parenting in shifting neoliberal contexts; and rethinking her approach to knowledge making, concepts, and narratives. Bringing together what she calls "diffractive" readings of feminist philosopher Lorraine Code's ecological approach to knowledge making and historical sociologist Margaret Somers' genealogical and relational approach to concepts and her non-representational approach to narratives, Doucet lays out an innovative ecological and non-representational approach to knowledge making, concepts, and narratives about care work and paid work. This book calls for greater attention not only to what we claim to know, but also to how we come to know, write about, and intervene in shifting practices, concepts, and narratives of work and care, the politics of care, and growing crises of care.
