Primary Obsessions Charles Demers 2020-09-26 The endearing and unflappable Dr. Annick Boudreau regularly confronts a myriad of mental health issues in her psychology practice at the West Coast Cognitive Behavioural Therapy Clinic in Vancouver, British Columbia. But even Annick is stunned when Sanjay, a young patient who suffers from Obsessive Compulsive Disorder, is arrested for the brutal murder of his roommate. While Sanjay is tortured by repeated violent thoughts, everything Annick knows about her patient and his illness has her convinced that he's innocent. But the police and prosecutor are convinced that they have caught the perpetrator and aren't interested in looking very hard. Unable to talk to the authorities because of doctor-patient confidentiality, Annick feels compelled to investigate on her own, finding herself drawn into the darker side of her postcard-perfect city in the process. Primary Obsessions is the first book in a series of mysteries starring Dr. Annick Boudreau and involving themes of mental health. Author (and longtime CBT patient) Charles Demers deftly reveals a particular aspect of psychology practice in each book, illuminating shadowy subject matter with masterful sensitivity and sharp wit. Primary Obsessions is an engrossing page-turner and a refreshing reboot of the sleuth genre.

Lawyers, Networks and Progressive Social Change Jacqueline Kinghan 2021-06-17 Written by a lawyer who works at the intersection between legal education and practice in access to justice and human rights, this book locates, describes and defines a collective identity for social justice lawyering in the UK. Underpinned by theories of cause lawyering and legal mobilisation, the book argues that it is vital to understand the positions that progressive lawyers collectively take in order to frame the connections they make between their personal

and professional lives, the tools they use to achieve social change, as well as ethical tensions presented by their work. The book takes a reflexive ethnographic approach to capture the stories of 35 lawyers working to positively transform law and policy in the UK over the last 50 years. It also draws on a wealth of primary sources including case reports, historic campaign materials and media analysis alongside wider ethnographic interviews with academics, students and lawyers and participant observation at social justice conferences, workshops and events. The book explains the way in which lawyers' networks facilitate their collective positioning and influence their strategic decision making, which in turn shapes their interactions with social activists, with other lawyers and with the state itself.
