Clothing Matters Emma Tarlo 1996-09 What do I wear today? The way we answer this question says much about how we manage and express our identities. This detailed study examines sartorial style in India from the late nineteenth century to the present, showing how trends in clothing are related to caste, level of education, urbanization, and a larger cultural debate about the nature of Indian identity. Clothes have been used to assert power, challenge authority, and instigate social change throughout Indian society. During the struggle for independence, members of the Indian elite incorporated elements of Western style into their clothes, while Gandhi's adoption of the loincloth symbolized the rejection of European power and the contrast between Indian poverty and British wealth. Similar tensions are played out today, with urban Indians adopting "ethnic" dress as villagers seek modern fashions. Illustrated with photographs, satirical drawings, and magazine advertisements, this book shows how individuals and groups play with history and culture as they decide what to wear.

What Artists Wear Charlie Porter 2022-05-17 An eye-opening and richly illustrated journey through the clothes worn by artists, and what they reveal to us. From Yves Klein's spotless tailoring to the kaleidoscopic costumes of Yayoi Kusama and Cindy Sherman, from Andy Warhol's denim to Martine Syms's joy in dressing, the clothes worn by artists are tools of expression, storytelling, resistance, and creativity. In *What Artists Wear*, fashion critic and art curator Charlie Porter guides us through the wardrobes of modern artists: in the studio, in performance, at work or at play. For Porter, clothing is a way in: the wild paint-splatters on Jean-Michel Basquiat's designer clothing, Joseph Beuys's shamanistic felt hat, or the functional workwear that defined Agnes Martin's life of spiritual labor. As Porter roams widely from Georgia O'Keeffe's tailoring to David Hockney's bold color blocking to Sondra Perry's intentional casual wear, he weaves his own perceptive analyses with original interviews and contributions from artists and their families and friends. Part

love letter, part guide to chic, with more than 300 images,? What Artists Wear ?offers a new way of understanding art, combined with a dynamic approach to the clothes we all wear. The result is a radical, gleeful inspiration to see each outfit as a canvas on which to convey an identity or challenge the status quo.

Terrorism, Insurgency and Indian-English Literature, 1830-1947 Alex Tickell 2013-06-17 "This book is an interdisciplinary study of representations of terrorism and political violence in the fiction and journalism of colonial India. Focusing on key historical episodes such as the Calcutta "Black Hole," the anti-thuggee campaigns of the 1830s, the 1857 rebellion, and anti-colonial terrorism in Edwardian London, it argues that exceptional violence was integral to colonial sovereignty and that the threat of violence mutually defined discursive relations between colonizer and colonized. Moving beyond previous studies of colonial discourse, and drawing on contemporary analyses of terrorism, Tickell examines texts by both colonial and Indian authors, tracing their contending engagements with terrorizing violence in selected newspapers, journals, novels and short stories. The study includes readings of several significant early Indian-English works for the first time, from dissident periodicals like Hurrish Chunder Mookerjis Hindoo Patriot (1856-66) and Shyamji Krishnavarmas Indian Sociologist (1905-9) to neglected fictions such as Kylas Dutts parable of anti-colonial rebellion "Forty-Eight Hours of the Year 1945" (1845) and Sarath Kumar Ghoshs The Prince of Destiny (1909). These are examined alongside works by better-known Anglo-Indian authors such as Philip Meadows Taylor's Confessions of a Thug (1838), Flora Annie Steel's On the Face of the Waters (1897), Rudyard Kiplings short fictions and novels by Edmund Candler and E.M. Forster. The study concludes with an analysis of Indian-English fiction of the 1930s, notably Mulk Raj Anands Untouchable (1935), and goes on to read Gandhis philosophy of ahimsa (non-violence) as a strategic response to a colonial and nationalist terror-politics."

Trade Shows From One Country To The Next Larry Kulchawik 2015-04-17 Shows from One Country to the Next is a guidebook to help recalculate your thinking when marketing in multiple countries. "Trade Shows from One Country to the Next" delves into international marketing differences, with a focus specifically on global trade shows. Rather than concentrate on details about marketing, this book focuses on the needed adjustments that need be made, physically and culturally, when presenting your products and services at an international trade show. Although dedicated to trade show design and regulations, much of the information in this book speaks to effective communication skills that are required when spending a week or less marketing your services abroad. This book will not only appeal to exhibit managers, show organizers, venues and exhibit suppliers, but to those who market anything outside of their country of origin. Effective communication is the key! There is no right way, there is no wrong way, there is only a different way! Understand and respect what is different, and you are on your way to success with international marketing. Larry Kulchawik has served in the trade marketing industry for 45 years. As the first American president of IFES (International Federation of Exposition Services) he has met trade show supplier experts from around the world who have shared their opinions about achieving trade show marketing success in their countries.

Pseudo-English Cristiano Furiassi 2015-03-10 This volume focuses on how English, through false Anglicisms, influences several European languages, including Italian, Spanish, French, German, Danish and Norwegian. Studies on false Gallicisms are also included, thus showing how English may be affected by false borrowings.

Making Foreign People Pay Ali Cem Budak 2019-05-29 First published in 1999, Making Foreign People Pay deals with the recovery of monetary claims in cross-border legal relations and contains the results of a comparative empirical research of debt recovery procedures of three countries with different socio-legal environments, Germany, England and Turkey. In order to analyse judicial debt recovery of cross-border claims, court statistics and files have been evaluated. The data show an infrequent use of the courts in all three countries. It seems that legal efforts aiming at facilitating international procedures have not been successful. But court procedures for the recovery of monetary claims are now to a large extent interchangeable with what may be called 'privatised methods of debt collection', including modern financial services such as factoring, forfaiting and commercial debt collection. Empirical evidence shows that such privatization of debt collection is a strong trend in cross-border debt collection. The book is an empirical contribution to the ongoing discussion of globalization processes and describes an important field of the globalization of law.

Uniformity of Customs Administration in the European Union Kathrin Limbach 2015-11-19 Uniform customs administration is of great importance for the EU and the competitiveness of EU businesses in global trade. However, the EU's so-called executive federalism raises the potential for the non-uniform application of EU customs law. This problem has already arisen in the European Communities – Selected Customs Matters WTO dispute settlement. Therefore, the central research question of this book concerns the challenge presented to executive federalism in the EU Customs Union by the WTO. It also examines those safeguard measures for uniform customs administration which are in operation. Valuable empirical analysis of the decision-making procedures and practices of the national customs authorities allows for the fullest understanding of the operation of the customs administration. An important feature of the exploration is its analysis of the reform of EU customs law and of the effectiveness of the European Union's strategies to enhance uniform customs administration. That analysis helps to identify potential weak points in the decentralised administration of EU customs law and suggests ways in which it might be improved. Scholarly, rigorous and timely, this important study will be required reading for all scholars of EU customs law.

Language Ideologies in Transition Mika Lähteenmäki 2010 The articles collected in this volume address linguistic diversity in Russia and Finland from different perspectives and aim to provide both theoretical and empirical knowledge concerning recently emerged multilingual and multicultural developments. The topics include representations and conceptualisations of multilingualism, the language education of immigrants, the linguistic rights of ethnic minorities, language policy, and ideologies underlying multilingual activities. Linguistic and cultural diversity is approached from different theoretical and methodological perspectives (e.g. discourse analysis, ethnography). The focus is on both micro and macro level phenomena. The articles show how the ideologies that underlie language policies and also various grass-root multilingual practices are conditioned by broader political, historical and socio-cultural contexts.

Colonial Intimacies Ann Marie Plane 2018-09-05 In 1668 Sarah Ahhaton, a married Native American woman of the Massachusetts Bay town of Punkapoag, confessed in an English court to having committed adultery. For this crime she was tried, found guilty, and publicly whipped and shamed; she contritely promised that if her life were spared, she would return to her husband and "continue faithfull to him during her life yea although hee should beat her againe." These events, recorded in the court documents of colonial Massachusetts, may appear unexceptional; in fact, they reflect a rapidly changing world. Native American marital relations and domestic lives were anathema to English Christians; elite men frequently took more than one wife, while ordinary people could dissolve their marriages and take new partners with relative ease. Native marriage did not necessarily involve cohabitation, the formation of a new household, or mutual dependence for subsistence. Couples who wished to separate did so without social opprobrium, and when adultery occurred, the blame centered not on the "fallen" woman but on the interloping man. Over time, such practices changed, but the emergence of new types of "Indian marriage" enabled the legal, social, and cultural survival of New England's native peoples. The complex interplay between colonial power and native practice is treated with subtlety and wisdom in *Colonial Intimacies*. Ann Marie Plane uses travel narratives, missionary tracts, and legal records to reconstruct a previously neglected history. Plane's careful reading of fragmentary sources yields both conclusive and fittingly speculative findings, and her interpretations form an intimate picture, moving and often tragic, of the familial bonds of Native Americans in the first century and a half of European contact.

Style and Structure in Biblical Hebrew Narrative Jerome T. Walsh 2001 Style matters! The pages of the Hebrew Bible are filled with stories -- short or long, amusing or sad, histories, fables, and morality tales. The ancient narrators use a variety of stylistic devices to structure, to connect, and to separate their tales -- and thus to establish contexts within which meaning comes to light. What are these devices, and how do they guide our reading and our understanding of the text? This book explores some of the answers and shows that it's a matter of style. Fr. Jerome T. Walsh, Ph. D., is also author of *1 Kings in the literary commentary series Berit Olam: Studies in Hebrew Narrative & Poetry* (The Liturgical Press, 1996) of which he is also an associate editor. He has contributed to such reference works as *The New Jerome Biblical Commentary* and *The Anchor Bible Dictionary* and frequently publishes articles and reviews in professional journals of biblical studies. He is a member of the Society of Biblical Literature and of the Catholic Biblical Association of

America, with which he has collaborated on the second edition of the New American Bible translation of the Old Testament. He is head of the department of theology and religious studies at the University of Botswana.

British Politics Bill Jones 2020-11-03 Fully updated and expanded, the second edition of this still compact text on British politics expertly analyses the major changes in British political life, placing them revealingly within the context of the evolution of British society from absolute monarchy to representative democracy. The author considers each of the major components of British politics in digestible chapters, such as the Monarchy and the House of Lords, the Commons, voting behaviour, parties and pressure groups, the prime minister and cabinet, devolution, local government, and foreign policy. The book includes two new chapters on the EU referendum and Brexit, and the extraordinary December 2019 election, as well as coverage of events such as the coronavirus pandemic, and the respective travails of the increasingly split two major political parties. This readable and comprehensive introduction will be of key interest to A-level students, undergraduates and those new to the study of British politics.

Letters to the Cyborgs Judyth Baker 2016-06-30 Letters to the Cyborgs describes a frightening future about to land on our doorsteps, based on inventions, science and technology we have today. Each story details the political, social, and environmental destruction of our world as Artificial Intelligence takes over the planet. With intelligence, insight and humor, Baker examines what it means to be human in a world where Cyborgs and robots rule. Ranging from chilling visions of Armageddon to haunting stories of the power of human love, with some comic relief thrown in to make the truth easier to handle, this groundbreaking collection of short stories faces the questions scientists, politicians and corporations are ignoring: when Artificial Intelligence becomes "self-aware" and is a thousand times more intelligent than any human being, what happens next? Scientists tell us that this "Singularity" will occur by 2030. "What is human?" will become the most important question in history as humans become 51% or more machine.

Ethical issues in the fashion industry Barbara Beltran Torres 2021-09-13 Essay from the year 2021 in the subject Business economics - Business Ethics, Corporate Ethics, grade: 1,0, University of Applied Sciences Landshut, language: English, abstract: Since the last decades have been a significant strengthening in ethical concern among consumers, which has led to an increase in demand for "ethical" choices in the marketplace. The textile and clothing (T&C) industry is one of the industries with a significant impact on ecological and social footprints on our planet, mainly driven by resource, and labour-intensive practices and driving the largest carbon footprint throughout the value chains. This study contributes to current knowledge of sustainability in the textile and clothing industry. This study first portrays the importance of sustainability and business ethics in the fashion industry based on the extant

literature. Second, it seeks to provide a current status of the problematic on sustainable and ethical practices in the fashion industry taking as an example the Swedish multinational clothing retail company, H&M, well-known for its wide controversies. The analysis research is aligned to international organisations' standards and principles, and it is mainly divided into four dimensions implemented by the United Nations: respect for human rights, labour, environmental protection, and anti-corruption.

The Reception of Jonathan Swift in Europe Hermann J. Real 2005-10-20 Jonathan Swift has had a profound impact on almost all the national literatures of Continental Europe. The celebrated author of acknowledged masterpieces like *A Tale of a Tub* (1704), *Gulliver's Travels* (1726), and *A Modest Proposal* (1729), the Dean of St Patrick's, Dublin, was courted by innumerable translators, adaptors, and retellers, admired and challenged by shoals of critics, and creatively imitated by both novelists and playwrights, not only in Central Europe (Germany and Switzerland) but also in its northern (Denmark and Sweden) and southern (Italy, Spain, and Portugal) outposts, as well as its eastern (Poland and Russia, Hungary, Romania, and Bulgaria) and Western parts - from the beginning of the eighteenth century to the present day.

Art Matters Julie Ault 1999-09 A collection of intensive discussions about the role of visual arts in public life The past decade has seen American culture deeply divided by debates over social identity, public morality, communal values and freedom of expression. A key focus of these polarizing discussions has been the role of visual arts in public life. In *Art Matters*, five leading cultural critics and two prominent contemporary artists show the ways that this debate has profoundly reshaped our view of American culture. Lucy Lippard investigates the extraordinary recent transformations in visual art; Michele Wallace takes on high art, popular culture, and African American identity; David Deitcher discusses queer culture and AIDS; Carole S. Vance ponders censorship and sexually explicit imagery; and Lewis Hyde considers democracy and culture. Projects by artists Julie Ault and Andrea Fraser provide a context for these debates. *Art Matters* also offers a close examination of attempts to develop alternative funding sources for artists, focusing specifically on the influential private foundation *Art Matters*-a foundation which became an important proponent for new forms of art and for protecting freedom of expression through its funding and advocacy efforts.
