A Political Solution John Robinson 2004-03 Like a bad dream in slow motion the water off the port quarter parted into a foamy spray to reveal the black curved dome of a submarine. From the wheelhouse, Barbara saw it a microsecond before its shattering impact cut Starfish in half. On the fore deck, Jack's back was to the working davit as he felt the impact of its arm sweep him overboard. Starfish's hull was penetrated forward of her wheelhouse. The vociferate howl of ripping metal briefly overran the quiet resolve of the fog-shrouded sea. With little resistance her bow section went down like a stone tossed by a small boy into a pond. The aft section struggled briefly as if protesting its pending death, and then silently dropped from the surface. Cold gray fog again reclaimed and covered the water. A muffled unheard cry of a solitary gull echoed the efforts of the Coast Guard to contact the doomed vessel on VHF radio.

Genesis Wave: Book Three John Vornholt 2002-02-11 "As a matter of cosmic history, it has always been easier to destroy than to create." -- Spock, The Wrath of Khan Sweeping across the Alpha Quadrant at a terrifying speed, a wave of Genesis energy has wiped out whole populations of entire planets, rearranging matter on a molecular level to create bizarre new landscapes and life-forms. The U.S.S. Enterprise™, commanded by Captain Jean-Luc Picard, managed to counter the threat, halting the wave in its tracks and stopping the alien race that had sent the wave crashing through the galaxy. In the process the crew saved trillions of souls and hundreds of inhabited planets from the mutagenic wave. Earth itself, as well as the Romulan Empire, was saved from obliteration. Now nothing is left to do but clean up the mess the Genesis Wave left behind. Or so it seems. Unknown to Picard and his crew, the use of the Genesis Wave on a galactic scale had weakened the walls between our dimension and one right next door, one that harbors a deadly threat to not only the survival of civilization throughout the galaxy, but the survival of reality itself. The Genesis Wave, Book Three, is the final volume of an apocalyptic adventure that pits the desperate crew of the Starship Enterprise against a disaster of universal proportions.
