The Art of Homemaking Daryl V. Hoole It is intended that women be happy and successful in their homemaking. Being a homemaker is a divine appointment and is a woman's greatest calling. It should be rich in the rewards of joy, satisfaction and accomplishment. All too often, however, women feel confused, distraught or bored with their role as homemakers. They frequently dread each day, live for the time when their children will be raised so they can be released from it all, or they escape from their responsibilities to their home and family and return to the business world. Other women do enjoy their homemaking activities but find their work consumes most of their day and there is little time for other interests. Many women are wonderful homemakers and managers but are eager for new ideas and skills to make their homemaking even more effective and satisfying. To all of these women, this book offers a practical guide to happier homemaking. It recalls to mind the significance of homemaking and gives their attitude a lift. When the suggestions concerning order and

efficiency, methods and approaches are applied, coupled with the workable plan which systematizes the routine duties, women will find their interest in homemaking greatly increasing and that there will be time to get their work done and enjoy creative activities, family fun and personal development. This is not just a book on how to keep house; it offers a way of life which will bring joy and satisfaction to the homemaker and rich, happy experiences to every family member.

Latin as the Language of Science and Learning Philipp Roelli 2021-11-22 This book investigates the role of the Latin language as a vehicle for science and learning from several angles. First, the question what was understood as 'science' through time and how it is named in different languages, especially the Classical ones, is approached. Criteria for what did pass as scientific are found that point to 'science' as a kind of Greek Denkstil based on pattern-finding and their unbiased checking. In a second part, a brief diachronic panorama introduces schools of thought and authors who wrote in Latin from antiquity to the present. Latin's heydays in this function are clearly the time between the twelfth and eighteenth centuries. Some niches where it was used longer are examined and reasons sought why Latin finally lost this lead-role. A third part seeks to define the peculiar characteristics of scientific Latin using corpus linguistic approaches. As a result, several types of scientific writing can be identified. The question of how to transfer science from one linguistic medium to another is never far: Latin inherited this role from Greek and is in turn the ancestor of science done in the modern vernaculars. At the end of the study, the importance of Latin science for modern science in English becomes evident.

The Muslim World After 9/11 Angel Rabasa 2004-11-17 Momentous events since September 11, 2001-Operation Enduring Freedom, the global war on terrorism, and the war in Iraq-have

dramatically altered the political environment of the Muslim world. Many of the forces influencing this environment, however, are the products of trends that have been at work for many decades. This book examines the major dynamics that drive changes in the religio-political landscape of the Muslim world—a vast and diverse region that stretches from Western Africa through the Middle East to the Southern Philippines and includes Muslim communities and diasporas throughout the world—and draws the implications of these trends for global security and U.S. and Western interests. It presents a typology of ideological tendencies in the different regions of the Muslim world and identifies the factors that produce religious extremism and violence. It assesses key cleavages along sectarian, ethnic, regional, and national lines and examines how those cleavages generate challenges and opportunities for the United States. Finally, the authors identify possible strategies and political and military options for the United States to pursue in response to changing conditions in this critical and volatile part of the world.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

The Bible in Buffalo Country Sally K. May 2020-10-08 Arriving in the remote Arnhem Land Aboriginal settlement of Oenpelli (Gunbalanya) in 1925, Alf and Mary Dyer aimed to bring Christ to a former buffalo shooting camp and an Aboriginal population many whites considered difficult to control. *The Bible in Buffalo Country: Oenpelli Mission 1925-1931* represents a snapshot of the tumultuous first six years of the Church Missionary Society's mission at Oenpelli and the superintendency of Alfred Dyer between 1925 and 1931. Drawing together documentary and photographic sources with local community memory, a story emerges of miscommunication, sickness, constant logistical issues, and an Aboriginal community choosing when and how to engage with the newcomers to their land. This book provides a fascinating and detailed record of the primary sources of the mission, placed alongside the interpretation and insight of local Traditional Owners. Its contents include the historical and archaeological context of the primary source material, the vivid mission reports and correspondence, along with stunning photographs of the mission and relevant maps, and finally the oral history of Esther Manakgu, presenting Aboriginal memory of this complex era. *The Bible in Buffalo Country* emerged from community desire for access to the source documents of their own history and for their story to be known by the broader Australian public. It is intended for the benefit of communities in western Arnhem Land and is also a rich resource for historians of Aboriginal history (and other scholars in relevant disciplines).

Disavowing Disability Andrew McKendry 2021-06-30 *Disavowing Disability* examines the role that disability, both as a concept and an experience, played in seventeenth-century debates about salvation and religious practice. Exploring how the use and definition of the term

'disability' functioned to allocate agency and culpability, this study argues that the post-Restoration imperative to capacitate 'all men'—not just the 'elect'—entailed a conceptual circumscription of disability, one premised on a normative imputation of capability. The work of Richard Baxter, sometimes considered a harbinger of 'modernity' and one of the most influential divines of the Long Eighteenth Century, elucidates this multifarious process of enabling. In constructing an ideology of ability that imposed moral self-determination, Baxter encountered a germinal form of the 'problem' of disability in liberal theory. While a strategy of 'inclusionism' served to assimilate most manifestations of alterity, melancholy presented an intractability that frustrated the logic of rehabilitation in fatal ways. This title is also available as Open Access on Cambridge Core.

A Very Punchable Face Colin Jost 2020-07-14 NEW YORK TIMES BESTSELLER • In these hilarious essays, the Saturday Night Live head writer and Weekend Update co-anchor learns how to take a beating. “I always wanted to punch his face before I read this book. Now I just want to kick him in the balls.”—Larry David NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *Cosmopolitan* • *Vulture* • *Parade* If there's one trait that makes someone well suited to comedy, it's being able to take a punch—metaphorically and, occasionally, physically. From growing up in a family of firefighters on Staten Island to commuting three hours a day to high school and “seeing the sights” (like watching a Russian woman throw a stroller off the back of a ferry), to attending Harvard while Facebook was created, Jost shares how he has navigated the world like a slightly smarter Forrest Gump. You'll also discover things about Jost that will surprise and confuse you, like how Jimmy Buffett saved his life, how Czech teenagers attacked him with potato salad, how an insect laid eggs inside his legs, and how he competed in a twenty-five-man match at WrestleMania (and almost won). You'll go behind the scenes at SNL and Weekend Update (where he's written some of the most memorable sketches and jokes of the past fifteen years). And you'll experience the life of a touring stand-up comedian—from performing in rural college cafeterias at noon to opening for Dave Chappelle at Radio City Music Hall. For every accomplishment (hosting the Emmys), there is a setback (hosting the Emmys). And for every absurd moment (watching paramedics give CPR to a raccoon), there is an honest, emotional one (recounting his mother's experience on the scene of the Twin Towers' collapse on 9/11). Told with a healthy dose of self-deprecation, *A Very Punchable Face* reveals the brilliant mind behind some of the dumbest sketches on television, and lays bare the heart and humor of a hardworking guy—with a face you can't help but want to punch.

The History of Sexuality, Vol. 2 Michel Foucault 2012-04-18 In this sequel to *The History of Sexuality, Volume I: An Introduction*, the brilliantly original French thinker who died in 1984 gives an analysis of how the ancient Greeks perceived sexuality. Throughout *The Use of Pleasure* Foucault analyzes an irresistible array of ancient Greek texts on eroticism as he tries to answer basic questions: How in the West did sexual experience become a moral issue? And why were other appetites of the body, such as hunger, and collective concerns, such as civic duty, not subjected to the numberless rules and regulations and judgments that have defined, if not confined, sexual behavior?
