Ancient Epistolary Fictions Patricia A. Rosenmeyer 2001-04-30 A comprehensive look at the use of imaginary letters in Greek literature, first published in 2001.

Reconsidering Constitutional Formation II Decisive Constitutional Normativity Ulrike Müßig 2020-10-08 This second volume of ReConFort, published open access, addresses the decisive role of constitutional normativity, and focuses on discourses concerning the legal role of constitutional norms. Taken together with ReConFort I (National Sovereignty), it calls for an innovative reassessment of

constitutional history drawing on key categories to convey the legal nature of the constitution itself (national sovereignty, precedence, justiciability of power, judiciary as constituted power). In the late 18th and early 19th centuries, constitutional normativity began to complete the legal fixation of the entire political order. This juridification in one constitutional text resulted in a conceptual differentiation from ordinary law, which extends to alterability and justiciability. The early expressions of this 'new order of the ages' suggest an unprecedented and irremediable break with European legal tradition, be it with British colonial governance or the French ancien régime. In fact, while the shift to constitutions as a hierarchically 'higher' form of positive law was a revolutionary change, it also drew upon old liberties. The American constitutional discourse, which was itself heavily influenced by British common law, in turn served as an inspiration for a variety of constitutional experiments - from the French Revolution to Napoleon's downfall, in the halls of the Frankfurt Assembly, on the road to a unified Italy, and in the later theoretical discourse of twentieth-century Austria. If the constitution states the legal rules for the law-making process, then its Kelsenian primacy is mandatory. Also included in this volume are the French originals and English translations of two vital documents. The first - Emmanuel Joseph Sieyès' *Du Jury Constitutionnaire* (1795) - highlights an early attempt to reconcile the democratic values of the French Revolution with the pragmatic need to legally protect the Revolution. The second - the 1812 draft of the Constitution of the Kingdom of Poland - presents the 'constitutional propaganda' of the Russian Tsar Alexander I to bargain for the support of the Lithuanian and Polish nobility. These documents open new avenues of research into Europe's constitutional history: one replete with diverse contexts and national experiences, but above all an overarching motif of constitutional decisiveness that served to complete the juridification of sovereignty. Książki 2003

International Investment Law Guiguo Wang 2014-12-05 Increasing and intensified cross-border economic exchange such as trade and investment is an important feature of globalization. In the past, a distinction could be made between capital importing and exporting countries, or host and home countries for foreign direct investment (FDI). Due to globalization, FDI is presently made by and in both developed and developing countries. Differences in political, economic and legal systems and culture are no longer obstacles for FDI, and to varying degrees the economic development of almost all countries is closely linked with the inflow of FDI. This book conducts critical assessments of aspects of current international law on FDI, focusing on cases decided by the tribunals of the International Centre for Settlement of Investment Disputes (ICSID) and other tribunals as well as decisions of annulment ad hoc committees of the ICSID. In examining such cases, Guiguo Wang takes into account the Chinese culture and China's practice in the related areas. The book explores topics including: the development and trend of international investment law; unilateral, bilateral and multilateral mechanisms for encouraging and protecting FDIs; determination of qualified investors and investments and consent as conditions for protection; relative and absolute standards of treatment; determination of expropriation in practice; assessment of compensation for expropriation; difficulties in enforcing investment arbitral awards; and alternatives for improving the existing system. The book will be of great use and interest to scholars, practitioners and students of international investment law and international economic law, Asian law, and Chinese studies.

Chrześcijaństwo a kultura polska Marian Jaworski 1988

Kurjer Warszawski, Książka, Jubileuszowa Ozdobiona 247 Rysunkami ... 1821-1896 1896

Letters from Ancient Egypt Edward Frank Wente 1990 This book provides translations of most of the letters that have survived reasonably intact from the Old Kingdom through the Twenty-first Dynasty of ancient Egypt. An introduction provides information relating to ancient Egyptian epistolography and discussion regarding the transmission of letters. The organization of the book is basically chronological, with separate sections devoted to royal letters and letters sent by and to the vizier. Also included are several model letters that were used in the education of the Egyptian scribe.--Publisher description.

Chinese Law: Context and Transformation Jianfu Chen 2015-12-22 This book examines the historical and politico-economic context in which Chinese law has developed and transformed, focusing on the underlying factors and justifications for changes. It attempts to sketch the main trends in legal modernisation in China.

Nation and History Peter Brock 2006-12-15 The important scholarly achievements of Polish historians remain largely unknown outside Poland. In *Nation and History*, editors Peter Brock, John Stanley, and Piotr J. Wróbel have brought together twenty-four essays on Polish historians from the Enlightenment to the Second World War, an era of unparalleled changes in every aspect of Polish life. From the late eighteenth century until 1918, the Polish state was partitioned between its three neighbours: Russia, Prussia (Germany), and Austria. Polish historiography throughout this period tended to focus on the

reasons behind the old Polish state's decline and fall. This shaped Polish historians' vision of their country's past and created the burden of not only having to discuss the state, but the issue of 'nation' – its essence, its shape, and its failure. The contributors to this volume – from Poland and abroad – closely examine the role played by historians in both the documenting and shaping of Poland's history. While featuring different approaches, *Nation and History* serves as the most comprehensive work on Polish historiography written in English.

History of Money Glyn Davies 2010-09-15 This is a straight-forward, readable account, written with the minimum of jargon, of the central importance of money in the ordinary business of the life of different people throughout the ages from ancient times to the present day. It includes the Barings crisis and the report by the Bank of England on Barings Bank; up-to-date information on the state of Japanese banking and the changes in the financial scene in the US. It also touches on the US housing market and the problem of negative equity. The paradox of why more coins than ever before are required in an increasingly cashless society is clearly explained, as is the role of the Euro coin as the lowest common denominator in Europe's controversial single currency system. The final section provides evidence to suggest that for most of the world's richer countries the era of persistent inflation may well be at an end. This new edition is updated and takes account of important recent developments such as the independence of the Bank of England, the introduction of Euro notes and coins from 1st of January 2002 and developments in electronic money.

The Jurist 1827

Applied Algebraic Dynamics Vladimir Anashin 2009-06-02 This monograph presents recent developments of the theory of algebraic dynamical systems and their applications to computer sciences, cryptography, cognitive sciences, psychology, image analysis, and numerical simulations. The most important mathematical results presented in this book are in the fields of ergodicity, p-adic numbers, and noncommutative groups. For students and researchers working on the theory of dynamical systems, algebra, number theory, measure theory, computer sciences, cryptography, and image analysis.

Patrons, Brokers, and Clients in Seventeenth-century France Sharon Kettering 1986 Provides current information on the four hundred most common concerns about pregnancy, including maternal illness, birth defects, diagnostic and therapeutic procedures, and ethical issues

Women, Communism, and Industrialization in Postwar Poland Malgorzata Fidelis 2010-06-21 Malgorzata Fidelis' study of female industrial workers in postwar Poland proves that women were central to the making of communist society.

Przewodnik bibliograficzny 2006

The Coming Spring Stefan Żeromski 2007-01-01 Żeromski's last novel tells the story of Cezary Baryka, a young Pole who finds himself in Baku, Azerbaijan, a predominantly Armenia city, as the Russian Revolution breaks out. He becomes embroiled in the chaos caused by the revolution, and barely escapes with his life. Then, he and his father set off on a horrendous journey west to reach Poland. His father dies en route, but Cezary makes it to the newly independent Poland. Here he struggles to find his place in the turmoil of the new country. Cezary sees the suffering of the poor and the working classes, yet his experiences in the newly formed Soviet Union make him deeply suspicious of socialist and communist solutions. Cezary is an outsider among both the gentry and the working classes, and he cannot find where he belongs. Furthermore, he has unsuccessful and tragic love relations. The novel ends when,

despite his profound misgivings, he takes up political action on behalf of the poor.

Książka 1903

The Black Swan Nassim Nicholas Taleb 2007-04-17 The Black Swan is a standalone book in Nassim Nicholas Taleb's landmark Incerto series, an investigation of opacity, luck, uncertainty, probability, human error, risk, and decision-making in a world we don't understand. The other books in the series are Fooled by Randomness, Antifragile, and The Bed of Procrustes. A black swan is a highly improbable event with three principal characteristics: It is unpredictable; it carries a massive impact; and, after the fact, we concoct an explanation that makes it appear less random, and more predictable, than it was. The astonishing success of Google was a black swan; so was 9/11. For Nassim Nicholas Taleb, black swans underlie almost everything about our world, from the rise of religions to events in our own personal lives. Why do we not acknowledge the phenomenon of black swans until after they occur? Part of the answer, according to Taleb, is that humans are hardwired to learn specifics when they should be focused on generalities. We concentrate on things we already know and time and time again fail to take into consideration what we don't know. We are, therefore, unable to truly estimate opportunities, too vulnerable to the impulse to simplify, narrate, and categorize, and not open enough to rewarding those who can imagine the "impossible." For years, Taleb has studied how we fool ourselves into thinking we know more than we actually do. We restrict our thinking to the irrelevant and inconsequential, while large events continue to surprise us and shape our world. In this revelatory book, Taleb explains everything we know about what we don't know, and this second edition features a new philosophical and empirical essay, "On Robustness and Fragility," which offers tools to navigate and exploit a Black Swan world. Elegant, startling, and universal in its applications, The Black Swan will change the way you look at the world. Taleb is a vastly entertaining writer, with wit, irreverence, and unusual stories to tell. He has a polymathic command of subjects ranging from cognitive science to business to probability theory. The Black Swan is a landmark book—itself a black swan. Praise for Nassim Nicholas Taleb "The most prophetic voice of all."—GQ Praise for The Black Swan "[A book] that altered modern thinking."—The Times (London) "A masterpiece."—Chris Anderson, editor in chief of Wired, author of The Long Tail "Idiosyncratically brilliant."—Niall Ferguson, Los Angeles Times "The Black Swan changed my view of how the world works."—Daniel Kahneman, Nobel laureate "[Taleb writes] in a style that owes as much to Stephen Colbert as it does to Michel de Montaigne. . . . We eagerly romp with him through the follies of confirmation bias [and] narrative fallacy."—The Wall Street Journal "Hugely enjoyable—compelling . . . easy to dip into."—Financial Times "Engaging . . . The Black Swan has appealing cheek and admirable ambition."—The New York Times Book Review From the Hardcover edition.

Pan Tadeusz Adam Mickiewicz 1930
