**Nilgiri Mountain Railway (NMR)** V.M. Govind Krishnan 2018-03-01 This book is a tribute to the relentless campaign by railway enthusiasts and the public of the Nilgiri Hills to keep the beautiful engineering marvel in running condition. Their untiring effort continues to this day, and it is largely due to this, that the unique railway was recognized as a World Heritage Site by UNESCO on July 15, 2005. This is a rare compilation of published materials on NMR, analyzed and written in eloquent English, which will interest anyone who likes the NMR or people's initiatives to propel such actions to save the unique lifeline from oblivion. The book serves as an almanac on Nilgiri Mountain Railway (NMR) with the events chronologically arranged to depict the true picture and more so the public opinion which helped to thwart the Government's moves to close the line. ~ The New Indian Express

Hill Railways of the Indian Subcontinent Richard Wallace 2021-02-22 This book describes seven branch lines which climbed into the mountain ranges that span the length and breadth of the countries of India and Pakistan. Some - like the Darjeeling Himalayan - are well known, but others - like the Zhob Valley, Khyber Pass and Kangra Valley lines - are less so. Several of these railways were also the last bastions of steam operation in the sub-continent.

Unsurprisingly, as hill railways, most of them reached remarkable heights, many using ingenious feats of engineering to assist their climb into seemingly impenetrable terrain. These lines served diverse locations, each with its own characteristics, from the hostile territories of the North-West Frontier, along the spectacular foothills of the Himalayas, skirting the Western Ghats of the Deccan down to the gentle rolling landscape of the Nilgiris, or Blue Hills, of South India. The book gives the histories of the seven hill railways including summaries of their operations and routes. Maps and gradient charts for all seven railway lines are given as well as listings of the locomotives operating the hill railways.
