A Dance Like Starlight Kristy Dempsey 2014-01-02 A story of little ballerinas with big dreams. Little ballerinas have big dreams. Dreams of pirouettes and grande jetes, dreams of attending the best ballet schools and of dancing starring roles on stage. But in Harlem in the 1950s, dreams don't always come true—they take a lot of work and a lot of hope. And sometimes hope is hard to come by. But the first African-American prima ballerina, Janet Collins, did make her dreams come true. And those dreams inspired ballerinas everywhere, showing them that the color of their skin couldn't stop them from becoming a star. In a lyrical tale as beautiful as a dance en pointe, Kristy Dempsey and Floyd Cooper tell the story of one little ballerina who was inspired by Janet Collins to make her own dreams come true.

Community Programs to Promote Youth Development Institute of Medicine 2002-02-12 After-school programs, scout groups, community service activities, religious youth groups, and other community-based activities have long been thought to play a key role in the lives of adolescents. But what do we know about the role of such programs for today's adolescents? How can we ensure that programs are designed to successfully meet young people's developmental needs and help them become healthy, happy, and productive adults? *Community Programs to Promote Youth Development* explores these questions, focusing on essential elements of adolescent well-being and healthy development. It offers recommendations for policy, practice, and research to ensure that programs are well designed to meet young people's developmental needs. The book also discusses the features of programs that can

contribute to a successful transition from adolescence to adulthood. It examines what we know about the current landscape of youth development programs for America's youth, as well as how these programs are meeting their diverse needs. Recognizing the importance of adolescence as a period of transition to adulthood, Community Programs to Promote Youth Development offers authoritative guidance to policy makers, practitioners, researchers, and other key stakeholders on the role of youth development programs to promote the healthy development and well-being of the nation's youth.

17,000 Classroom Visits Can't Be Wrong John V. Antonetti 2015-02-20 "Most educators are skilled at planning instruction and determining what they will do during the course of a lesson. However, to truly engage students in worthwhile, rigorous cognition, a profound shift is necessary: a shift in emphasis from teaching to learning. Put another way, we know that whoever is doing the work is also doing the learning—and in most classrooms, teachers are working much too hard. Authors John V. Antonetti and James R. Garver are the designers of the Look 2 Learning model of classroom walkthroughs. They've visited more than 17,000 classrooms—examining a variety of teaching and learning conditions, talking to students, examining their work, and determining their levels of thinking and engagement. From this vast set of data, they've drawn salient lessons that provide valuable insight into how to smooth the transition

from simply planning instruction to designing high-quality student work. The lessons John and Jim have learned from their 17,000 (and counting) classroom visits can't be wrong. They share those lessons in this book, along with stories of successful practice and practical tools ready for immediate classroom application. The authors also provide opportunities for reflection and closure designed to help you consider (or reconsider) your current beliefs and practices. Throughout, you will hear the voices of John and Jim—and the thousands of students they met—as they provide a map for shifting the classroom dynamic from teaching to learning."
