We Are on Our Own Miriam Katin 2020-08-28 A stunning memoir of a mother and her daughter's survival in WWII and their subsequent lifelong struggle with faith In this captivating and elegantly illustrated graphic memoir, Miriam Katin retells the story of her and her mother's escape on foot from the Nazi invasion of Budapest. With her father off fighting for the Hungarian army and the German troops quickly approaching, Katin and her mother are forced to flee to the countryside after faking their deaths. Leaving behind all of their belongings and loved ones, and unable to tell anyone of their whereabouts, they disguise themselves as a Russian servant and illegitimate child, while literally staying a few steps ahead of the German soldiers. We Are on Our Own is a woman's attempt to rebuild her earliest childhood trauma in order to come to an understanding of her lifelong questioning of faith. Katin's faith is shaken as she wonders how God could create and tolerate such a wretched world, a world of fear and hiding, bargaining and theft, betrayal and abuse. The complex and horrific experiences on the run are difficult for a child to understand, and as a child, Katin saw them with the simple longing, sadness, and curiosity she felt when her dog ran away or a stranger made her mother cry. Katin's ensuing lifelong struggle with faith is depicted throughout the book in beautiful full-color sequences. We Are on Our Own is the first full-length graphic novel by Katin, at the age of sixty-three.

Godard On Godard Jean-luc Godard 1986-03-22 Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for La Gazette du Cinéma to his later writings for Cahiers du Cinéma, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

American Opinion of Soviet Russia Meno Lovenstein 2007-03 PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Raoul Walsh Marilyn Moss 2011-06-01 Raoul Walsh (1887–1980) was known as one of Hollywood's most adventurous, iconoclastic, and creative directors. He carved out an illustrious career and made films that transformed the Hollywood studio yarn into a thrilling art form. Walsh belonged to that early generation of directors—along with John Ford and Howard Hawks—who worked in the fledgling film industry of the early twentieth century, learning to make movies with shoestring budgets. Walsh's generation invented a Hollywood that made movies seem bigger than life itself. In the first ever full-length biography of Raoul Walsh, author Marilyn Ann Moss recounts Walsh's life and achievements in a career that spanned more than half a century and produced upwards of two hundred films, many of them cinema classics. Walsh originally entered the movie business as an actor, playing the role of John Wilkes Booth in D. W. Griffith's *The Birth of a Nation* (1915). In the same year, under Griffith's tutelage, Walsh began to direct on his own. Soon he left Griffith's company for Fox Pictures, where he stayed for more than twenty years. It was later, at Warner Bros., that he began his golden period of filmmaking. Walsh was known for his romantic flair and playful persona. Involved in a freak auto accident in 1928, Walsh lost his right eye and began wearing an eye patch, which earned him the suitably dashing moniker "the one-eyed bandit." During his long and illustrious career, he directed such heavyweights as Humphrey Bogart, James Cagney, Errol Flynn, and Marlene Dietrich, and in 1930 he discovered future star John Wayne.

Synthetic Worlds Esther Leslie 2006-01-16 This revealing study considers the remarkable alliance between chemistry and art from the late eighteenth century to the period immediately following the Second World War. *Synthetic Worlds* offers fascinating new insights into the place of the material object and the significance of the natural, the organic, and the inorganic in Western aesthetics. Esther Leslie considers how radical innovations in chemistry confounded earlier alchemical and Romantic philosophies of science and nature while profoundly influencing the theories that developed in their wake. She also explores how advances in chemical engineering provided visual artists with new colors, surfaces, coatings, and textures, thus dramatically recasting the way painters approached their work. Ranging from Goethe to Hegel, Blake to the Bauhaus, *Synthetic Worlds* ultimately considers the astonishing affinities between chemistry and aesthetics more generally. As in science, progress in the arts is always assured, because the impulse to discover is as immutable and timeless as the drive to create.

The Francophone Bande Dessinée 2005-01-01 Known as France's Ninth Art, the bande dessinée has a status far surpassing that of the equivalent English-language comic strip. This publication, one of the first predominantly in English on the subject, provides a thorough introduction to questions of BD history, context and bibliography. Theoretical issues – including the reception of the early proto-BD prior to its modern definition, approaches to the construction of a BD (presented here in BD form by leading artist Tanitoc), semiology and the reading of the current form, or the specificity of the French/US (non)overlap – complement historical approaches, such as Bécassine read in the light of postcolonialism, Le Corbusier and BD techniques in architecture, post-war BD and nostalgia for the Resistance, or Pilote and the 1960s revolution. And whilst broaching issues such as feminism or masculinity, social class, AIDS, exoticism or futurism, the volume presents chapters on some of the cutting-edge artists in the field today: Baru, Moebius, Juillard, Binet, Bilal... This book supplies an introduction to the BD that will be of use to students and researchers at all levels. In addition, the format of the individual case studies provides in-depth analysis allowing the reader to grasp specific examples in terms both of their place vis-a-vis the evolution of the BD and, more generally, of the wider role they play within French and Francophone cultural studies.

The Adventures of Hergé Jose-Louis Bocquet 2011-12-06 A GRAPHIC BIOGRAPHY OF TINTIN'S CREATOR by Jose-Louis Bocquet and Jean-Luc Fromental, Illustrated by Stanislas Barthélémy *The Adventures of Hergé* is a biographical comic about the world-renowned comics artist Georges Prosper Remi, better known by his pen name, Hergé. Meticulously researched, with references to many of the Tintin albums and complete with a bibliography and mini-bios for each of the main "characters," the biography is appropriately drawn in Hergé's iconic clear line style as an homage to the Tintin adventures that have commanded the attention of readers across the world and of many generations. Seven-year-old Hergé first discovered his love of drawing in 1914 when his mother gave him some crayons to stay out of trouble. He

continued drawing in school when he fatefully met the editor of *XXe Siècle* magazine, where Tintin first appeared. His popularity skyrocketed from the 1930s through post-World War Two. Hergé was perceived by some to have aided the Nazi government in Belgium by continuing to publish Tintin in a government-sanctioned magazine, and he was briefly imprisoned in the aftermath of the war and narrowly escaped execution. Also covered are his marriage troubles in the 1950s and subsequent affair with Fanny Vlamynck, who went on to become his lifelong partner; his late career in the 1960s, as his interest in Tintin waned and he occasionally "disappeared" for weeks at a time as he contemplated giving up his career to become a fine-arts painter; and a recounting of a humorous encounter with Andy Warhol.

History and Politics in French Language Comics and Graphic Novels Mark McKinney 2008 With Essays by Baru, Bart Beaty, Cécile Vernier Danehy, Hugo Frey, Pascal Lefèvre, Fabrice Leroy, Amanda Macdonald, Mark McKinney, Ann Miller, and Clare Tufts In Belgium, France, Switzerland, and other French-speaking countries, many well-known comics artists have focused their attention on historical and political events. In works ranging from comic books and graphic novels to newspaper strips, cartoonists have addressed such controversial topics as French and Belgian collaboration and resistance during World War II, European colonialism and U.S. imperialism, anti-Semitism in France, the integration of African immigrant groups in Europe, and the green and feminist movements. *History and Politics in French-Language Comics and Graphic Novels* collects new essays that address comics from a variety of viewpoints, including a piece from practicing artist Baru. The explorations range from discussion of such canonical works as Hergé's Tintin series to such contemporary expressions as Baru's *Road to America* (2002), about the Algerian War. Included are close readings of specific comics series and graphic novels, such as Cécile Vernier Danehy's examination of Cosey's *Saigon Hanoi*, about remembering the Vietnam War. Other writers use theoretical lenses as a means of critiquing a broad range of comics, such as Bart Beaty's Bourdieu-inspired reading of today's comics field, and Amanda Macdonald's analysis of *bandes dessinées* (French comic books) in New Caledonia during the 1990s. The anthology establishes the French-language comics tradition as one rich with representations of history and politics and is one of the first English-language collections to explore the subject.

Binky Brown Meets the Holy Virgin Mary Justin Green 2009 A lost classic of underground cartooning, *Binky Brown Meets the Holy Virgin Mary* is Justin Green's autobiographical portrayal of his struggle with religion and his own neuroses. Binky Brown is a young Catholic battling all the usual problems of adolescence—puberty, parents, and the fear that the strange ray of energy emanating from his private parts will strike a picture of the Virgin Mary. Deeply confessional, with artwork that veers wildly between formalist and hallucinogenic, *Binky Brown Meets the Holy Virgin Mary* is the controversial masterpiece that invented the autobiographical graphic novel.
